Evan Lloyd Corson, a 10 year old hockey player from Hamilton, Ontario, died suddenly on March 11, 2023. Evan was in grade 5 at St. Eugene's School.

"He loved playing ice hockey at Rosedale arena with his team the Kings. While he wasn't a goal scorer, he played his hardest at every game." ([obituary here](#))

Evan Lloyd Corson

Jessica Buchuk-Nunez is organizing this fundraiser on behalf of Thelma Corson.

Created 4 days ago •  [Funerals & Memorials](#)

On Saturday, March 11, Evan Lloyd Corson, [passed away suddenly](#) leaving all of us devastated from the news. For those who had a chance to know him, Evan was truly a light in everyone's lives with the sweetest heart. He enjoyed playing hockey and loved all things Mario. He will be loved and never forgotten. Evan's memory will be carried on by his father Thomas, mother Sally, and twin brother Ryan.

How insane are COVID-19 vaccine mandates in Ontario?

The Hamilton, Ontario "Rosedale Arena" he played hockey in, had two sets of COVID-19 vaccine requirements: ([click here](#))

1. **By the City of Hamilton**
2. **By the Hockey Governing Bodies**

ENTRY PROCEDURE FOR CITY OF HAMILTON FACILITIES

VACCINE REQUIREMENTS

City of Hamilton requires all people 18+ to be fully Vaccinated, no exceptions. (Includes Players, Coaches, Officials, Volunteers). City and PHU have the right to override the Provinces Regulations.

SPECTATORS: 12+ required to be fully Vaccinated.

PARTICIPANTS: Under 18 are not required to be Vaccinated. **Currently the various Hockey Governing Bodies are still requiring Vaccination for 12+ so if they are more restrictive, then those rules must be followed.** In our case we are governed by the Ontario Women's Hockey Association (OWHA).

VACCINE CERTIFICATE: **A City official will be present at the door to check for Vaccination Certificate and ID, such as Health Card, Driver's License, or Child's Birth Certificate. The name on the ID must match the name on the Vaccination Certificate.**

The date of the 2nd vaccine shot must be 14 days prior to the current date in order to be allowed to enter the City Facilities

COVID-19 Vaccine mandates were for ages 12+ but look at the pressure they put every citizen of Hamilton, Ontario under. Just to get into the Arena: "a city official will be present at the door to check for vaccination certificate and ID".

What is the City of Hamilton, Ontario pushing today?

When you go on the City of Hamilton webpage, you will see how aggressively they are still pushing COVID-19 vaccines on kids. ([click here](#)).

"COVID-19 Bivalent boosters for anyone 5 years of age and older are now available"

"Anyone aged 6 months or older can start or complete their primary series at a Public Health Clinic without an appointment"

"Public Health Mobile Vaccine Clinics (age 6 months & up)

CORONAVIRUS (COVID)

COVID-19 VACCINE

BOOSTERS

COVID-19 Bivalent boosters for anyone **5 years of age and older** are now available. Book an appointment online or contact your local pharmacy.

Primary Series

Anyone aged 6 months or older can start or complete their primary series at a Public Health Clinic without an appointment.

[Clinic Locations](#)[Vaccine Eligibility](#)[Vaccines for Children](#)[Vaccine D >](#)

Residents are strongly encouraged to check with local pharmacies who are offering COVID-19 vaccine for ages 6 months and older. Neighbourhood pharmacists have additional hours of operation, multiple convenient locations and options to book appointments. Availability varies from site to site. Please visit covid-19.ontario.ca/vaccine-locations ↗ for more information.

Public Health Mobile Vaccine Clinics (Age 6 months & up)

+

My Take...

Imagine the pressure that the Ontario Hockey Governing Bodies and the City of Hamilton put families of young hockey players under. You can't even enter the Arena if you're age 12+ unless you're fully vaccinated and a city employee won't let you in unless you show your **vaccine certificate and Driver's License**.

And if Hockey Governing Bodies were forcing COVID-19 mRNA vaccination on every hockey player in Canada age 12+, imagine the pressure on 11 year olds, 10 year olds, 9 year olds. I would guess most families would simply have had those kids vaccinated also, without question.

Especially when they were promised by Public Health Authorities and Ontario politicians these COVID-19 mRNA vaccines were safe and effective for use in kids 5-11 years old. **Only they never were.**

Latest data shows 52% of Canadian kids ages 5-11 had one COVID-19 vaccine

dose, that's 1.5 million kids.

40.6% of Canadian kids ages 5-11 had two COVID-19 vaccine doses, or 1.18 million kids.

9.5% of Canadian kids ages 5-11 had an additional booster dose in the last 6 months, or 275,806 kids.

Table 2. Cumulative number and percent of people in Canada who have received a COVID-19 vaccine by age group and vaccination status, February 26, 2023

Age group (years)	At least 1 dose	Primary series completed	In the last 6 months, primary series completed or booster dose received
0 to 4	9.6% (180,037)	5.3% (99,422)	5.2% (98,346)
5 to 11	52.0% (1,510,479)	40.6% (1,178,635)	9.5% (275,806)
12 to 17	83.9% (2,121,923)	79.6% (2,013,336)	9.6% (241,985)
18 to 29	85.2% (5,198,906)	83.1% (4,061,756)	8.2% (502,588)

The rollout of COVID-19 mRNA vaccines in children 5-11 years old was a very serious crime that will one day require criminal charges for all involved.

Rosedale Minor Hockey has made a \$1000 donation to the family's GoFundMe to cover funeral costs.

Perhaps instead, they should have said something when it mattered and stood up for their young hockey players when experimental COVID-19 mRNA vaccines with an unknown long term side effect profile were being rolled out in kids who didn't need them.

\$18,215 raised of \$10,000 goal

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
