*Apr. 26, 2024 - Harrisburg, PA - 16 year old Justin Johnson, 10th grade student at Central Dauphin High School, suffered cardiac arrest and died.*

04/29/2024

**FOR IMMEDIATE RELEASE**

**April 29, 2024**

Contact: Amanda Brothman, [ambrothman@pa.gov](mailto:ambrothman@pa.gov)

**PHRC releases statement on death of Dauphin County student**

**Harrisburg, PA-** The Pennsylvania Human Relations Commission (PHRC) has been made aware of the death of a 16-year-old Central Dauphin High School student. Police in Lower Paxton Township are investigating. According to the police, on Friday, April 26, he went into cardiac arrest, was taken to the hospital and later died.

The school district released the following statement about the incident,

*"The Central Dauphin School District is saddened to hear about the passing of Justin Johnson, a 10th grade student at Central Dauphin High School.*

*We understand that the circumstances around Justin's death have not been determined, however there are social media reports that indicated that Justin was subjected to racial insensitivity from classmates.*

Apr. 19, 2024 - 19 year old Anna Oyler was diagnosed with an autoimmune disease and Acute Myeloid Leukemia in July 2023.

## Wiregrass teen battling cancer and rare kidney disease passes away

Aaron Dixon

2 months ago

[\(WDHN\)](#) — A Wiregrass teen, who for the past year has been battling cancer and a rare kidney disease, has passed away.

[Anna Oyler is a recent graduate of Harvest Christian School and last year was diagnosed with C3G or Complement 3 Glomerulopathy, an autoimmune disease that attacks the kidneys, and Acute Myeloid Leukemia.](#)

This year Anna underwent several rounds of chemotherapy to attack the cancer and went through a bone marrow transplant to help grow a new immune system to take care of the kidney disease. On Friday, her battle came to an end and she passed away at Children's of Alabama Hospital in Birmingham.

Anna's life was a masterclass in courage and vivacity. She moved through the world with a spirited grace, touching lives and leaving behind a trail of laughter, inspiration, and love. Her lucky number was 8, and true to that, she became a symbol of infinity, of endless possibility and hope. Anna's journey was not about the destination but about how she illuminated the path for others with her wit, bravery, and the warmth of her unforgettable hugs.

*An excerpt from Anna's obituary*

## Spanish World Championship gymnast dies suddenly at 17 after contracting meningitis

Tributes have poured in for gymnastics star María Herranz Gomez after she passed away with two days of mourning having now been confirmed following the news

By [Daniel Orme](#), Football Writer & [Natalia Penza](#), News Correspondent

16:43, 18 Apr 2024

Teenage gymnast María Herranz Gomez has sadly died after suffering from meningitis.

The 17-year-old died in the early hours of Thursday morning at a hospital in the city of Guadalajara an hour's drive north-east of Madrid. Gomez' death was confirmed by town hall chiefs in the Spanish town of Cabanillas del Campo - where she was born.

A statement confirmed the news read: "Maria has left us suddenly due to a terrible **meningitis** that has taken her in just 24 hours, leaving the town in a state of inconsolable sadness.

"Cabanillas del Campo town hall wishes to express its deep pain over this tragic circumstance and sends its most sincere condolences to Maria's family and friends, especially her parents Raquel and Alfonso, her little brother and her grandparents, uncles and aunts and cousins, many of whom live in the area. Rest in peace Maria. We will remember you always."

Apr. 7, 2024 - Turkey - 18 year old Zumra Dalkılıç, a young actress died suddenly of a cardiac arrest.

**Zümra Dalkılıç** **VEFAT**

Onlar, Bir musibetle karşılaşmaları zaman,  
Bizler, Allah için varız ve muhakkak O'na döneceğiz." derler.

Apr. 3, 2024 - Penn State - 19 year old Vivian Cristine Spendley died suddenly on April 3, 2024 from a ruptured brain aneurysm. She was a 1st year Penn State student inspeech language pathology.

# Vivian Cristine Spendley

NOVEMBER 1, 2004 - APRIL 3, 2024

Vivian was born in Honolulu, Hawaii, to William John Spendley, Jr. and Vanessa Cristine Small Spendley, soon followed by her brother Tucker. Vivian attended St. Bernadette Catholic School K-8th grade and graduated from Bishop Ireton last spring. She was in the waning months of her first year at Penn State, where she had hoped to graduate with a degree in speech language pathology.

Vivian was a light in the world, and we were all the better for having that light shine on us for however brief we were blessed to have her in our lives. Bill, Vanessa, and Tucker will forever hold Vivian's light in their hearts. Let us pray that light overcomes the darkness of their loss.

Vivian and Vanessa were the proverbial two peas in a pod. Affectionately known as the "other Gilmore Girls," Vivian was Rory to Vanessa's Lorelai, right down to the clever, rapid-fire banter, pop culture references, and laughter. In many ways, where Vanessa led, Vivian followed, but as time went on it was often where Vivian led, Vanessa followed. Vanessa tried to teach Vivian about how to navigate the world, but with a child like Vivian, Vanessa learned as much as she taught. Vivian was also gaining a fierce independence that made Vanessa proud, but always maintaining that strong bond with her mother. While there were deep talks, there was also so much joy and laughter. Anyone who knows the two of them could instantly recognize Vivian's beautiful blue eyes as a reflection of Vanessa's, and now we will forever see Vivian reflected in Vanessa's eyes. That should be a comfort to us all.

137 likes  
ness\_is\_here It feels impossible to say this, but our sweet, precious, beautiful, daughter Vivian passed away. She died suddenly of a brain aneurysm on Wednesday. She was 19. We are paralyzed with grief and sorrow but are feeling the overwhelming love and support surrounding us. ❤️

Mar. 30, 2024 - Canada - 18 year old Harrison Gilks was diagnosed with rhabdomyosarcoma in 2020, was in remission in 2022 but it returned in June 2022.

Mar. 30, 2024 - 19 year old Antonia Burstein died suddenly.

## ANTONIA BURSTEIN Obituary

**B**URSTEIN, Antonia A. "Toni" Passed away suddenly, on March 30, 2024. She was 19 years old. Toni is survived by her mom, Becky; her 3 dogs, JJ "Boo Boo", Mae and Bentley; her cat Oliver and her turtle Donut. She is also survived by an incredible group of friends we consider family. Toni brought love and happiness wherever she went. Her laughter was captivating as was her energy. She was as bright as a star above. Toni was the most caring and selfless person when it came to her friends, family and animals. Always being there for anyone at any time. Her passion was music, animals and being there for others. She wanted to be a therapist and work with children. She loved learning and school was incredibly important to her. She spent her time giving back to others. Visiting Hours will be held in the Eaton Funeral Home, 1351 Highland Ave., NEEDHAM, on Thursday, April 11, from 4-7pm. Anyone who was lucky enough to have known her are welcome to attend to pay their respects. A Graveside Service will be held at Newton Cemetery, 791 Walnut St., Newton, on Friday, April 12, at 12 noon. To share a memory of Toni, please visit [www.eatonfuneralhomes.com](http://www.eatonfuneralhomes.com) EATON FUNERAL HOME 781-444-0201

CLARKSVILLE, Tenn. -- A high school in Clarksville is mourning the sudden loss of a student-athlete.

Rossview High School senior Cameryn Ward, 17, died on Friday during a pickup basketball game with friends and teammates, according to the school. He died from an apparent medical emergency.

Dr. Meghan Sanders, RHS Principal, released a statement on Ward's death:

*“ It is with the heaviest of heart that I share with you the news that Senior Cam Ward passed away Friday night. Cam was playing basketball with friends and teammates, and a medical emergency ended his life so unexpectedly. Cam was full of light and joy and was such a positive presence in our classrooms, on the court, and in our school community. I will miss his weekly visits when he would sneak up to the main office to get his favorite candy bar, Twix, from Mrs. Fields as she gave him a pre-game pep talk and then brought him back to me for some additional encouragement to play his best and DUNK more! We will miss seeing him in the hallways, with his teammates, talking basketball and re-hashing who did what on the floor. He was and is an absolutely amazing young man who has a special place in so many hearts. He will be truly missed but will always be remembered – especially in the echoes of basketball games in our gymnasium and in the laughter of our hallways. We want to wrap our arms around his mother, Jessica Ward, his teammates, Coach Jackson, and our assistant basketball coaches.*

Mar. 19, 2024 – 16 year old Ethan Moshaugen, hockey player and golf player, died from spontaneous aortic dissection.

## Ethan Monshaugen

April 29, 2007 – March 19, 2024  
Moorhead, MN

Ethan's Funeral Mass will be live streamed and can be viewed by visiting the following link and clicking the 'live' tab at the top. <https://www.youtube.com/@st.josephscatholicchurchm09542/featured> If the livestream doesn't show up, try refreshing the page a few minutes before the service starts.

**Ethan Russell Monshaugen, 16, passed away in his home from a spontaneous aortic dissection.**

Ethan was a sophomore at Moorhead High School and was an alumnus of St. Joseph Catholic School. He found immense joy in his role as the team manager of the MHS Spuds varsity hockey team and actively participated on the golf team, cherishing being with his friends/teammates. Both of those teams were his world, and he valued each teammate as a friend. In addition to his athletic pursuits, Ethan actively engaged in his faith and was an altar server at St. Joseph Church. One of the things he was looking forward to was being confirmed.

Mar. 16, 2024 - UK 17 year old Raphael Pryor died suddenly on sports pitch while playing an old version of soccer.

### My Take...

First important thing to note is that the number of sudden and unexpected deaths of children increases as you go higher in age. Why?

The older you go, the more compliance there was. And University & College vaccine mandates.

There are almost double the sudden deaths of children ages 16 to 19, compared to children 12 to 15. That is worth noting.

Here are some characteristics of these recent 100 deaths in children ages 16-19.

37 were athletes:

- 9 soccer players
- 4 football players
- 4 athletes unspecified
- 3 basketball players
- 3 gymnasts

- 3 runners
- 3 swimmers (including 1 lifeguard)
- 2 hockey players
- 2 volleyball
- 1 tennis
- 1 MMA
- 1 ballet
- 1 Army Cadet

7 were going to University and 4 were studying a healthcare program

Causes of death:

- 18 cardiac arrests
- 12 died from cancer
- 7 died from infection
- 3 died from aneurysm
- 3 died from blood clots
- 2 died from seizures
- 2 had transplant complications
- 2 died in their sleep
- 1 died from dissection

Activities when sudden death occurred

- 8 died at home
- 3 died playing basketball
- 2 died playing soccer
- 2 died running
- 2 died in their sleep
- 1 died in fishing competition
- 1 died doing MMA
- 1 died at school
- 1 died playing tennis
- 1 died swimming

Cancer deaths are in 2nd place. This is worse than ages 12-15.

Infection deaths are in 3rd place. Far too many and worse than ages 12-15.

Almost 40% of sudden deaths in ages 16-19 are athletes.

Soccer is the deadliest sport in this age group, then football, basketball and running.

Notice the 2 deaths from transplant complications.

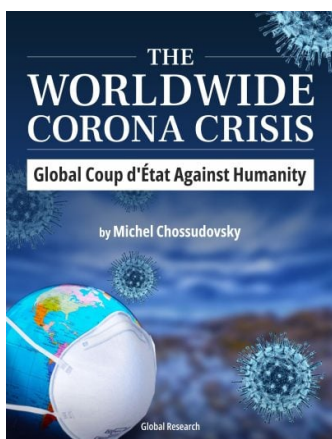

Conclusion: Children ages 16-19 are dying from destroyed immune systems => leads to infection deaths and cancer deaths. Both are far too high in this age group than expected, and will get worse over time.

## The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*

### Reviews

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon*

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. -Dr. Emanuel Garcia*

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying*

*Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists.*  
—Peter Koenig

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy.* –David Skripac

*A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place.* –Edward Curtin
