“We are fast approaching the stage of the ultimate inversion: the stage where the government is free to do anything it pleases, while the citizens may act only by permission; which is the stage of the darkest periods of human history, the stage of rule by brute force.”
- **Ayn Rand**

While the masses continue to happily accept any and every tiny bit of ‘permission’ to have a miniscule amount of ‘freedom,’ all at the whim of the rulers, the drive toward more ‘climate change’ lockdown policy and societal regulation and total control are going forward quickly and without restriction. The candy offered to the herd in the form of temporary lifting of draconian mandates is meant only to satisfy the short-term longing of the proletariat so as to gain future compliance and obedience from the sheep in order for the state to create a true slave society. One of the linchpins of this plot is to concentrate the population into so-called ‘smart’ cities, with 15 minute zones, where no travel outside this time frame is allowed without very restrictive monitoring. This is true insanity sold in the form of convenience, safety, and the bogus claim of protecting the earth.

Preparation, trials, and implementation of these atrocious prison-system cities are fully underway, and are being planned and sold as a public ‘good,’ an atrocious and deceptive lie. As I write this, 15-minute cities are being actively planned in Saudi, Arabia called “The Line,” Dubai, UAE, Oxford, U.K., Australia in Melbourne and Brisbane, in Spain in Barcelona, Buenos Aires, and even in Portland, Oregon in the Fascist U.S. While most have been asleep and basking in ignorance believing that totalitarianism has lessened, the master technocratic plot has never slowed. For those who are feeling left out, worry not, as a 15 minute prison system will soon be in a city or town near you.

Oxfordshire County in the U.K. is moving very fast to set up the first complete 15-minute city scam, and has announced a full “TRIAL” for January 2024. This is simply a climate lockdown trial meant to prepare the citizenry for continuous lockdowns, or more accurately, a minor existence in incarceration centers. Keep in mind that the plot to control the world

depends on concentrating populations into smaller centers, with exhaustive technological measures of government regulation and authority that will require complete and total surveillance of all. This will be based on the 'climate change' lie, and world domination depends on a controlled, digital monetary system, that is also being structured by the central banking systems worldwide, and privately run by the ruling class. This is the same deep state that controls all government. Once the centralized bank digital currencies become reality, all freedom will end. The idea and implementation of controlled digital currencies is anathema to all liberty, and is mandatory for state control.

Once again I must mention the "big picture," as everything going on from 'virus lies,' 'variants,' staged wars, 'climate change,' CBDCs, 15-minute cities, transgender nonsense, fake racism, bioweapon injections, and a myriad of current and future control scenarios, are all meant to accomplish but one thing, and therefore, they are all linked, and all part of the singular agenda of total technocratic control of all people on earth. This is exactly what the 'great reset,' the new one world government, and the monetary takeover are all about. Regardless of which particular plot is the news item of the day, it is simply all meant to achieve but one end. Do not disregard all of the minor plots, but recognize that the single plot desired is to control you and all on earth, and nothing less.

The case addressed here can be summed up with one statement coming from the World Economic Forum (WEF) [weforum.org](https://www.weforum.org) on March 15, 2022.

"As climate change and global conflict cause shocks and stresses at faster intervals and increased severity, the 15-minute city will become even more critical."

This single statement connects the entire fake 'climate change', and Ukraine (all war) scenarios and agendas as reasoning to lockdown the world. Make no mistake, this is the plan that is and has been in high gear for decades, but especially so since the bogus 'covid' lockdown terror levied at the hands of the state in 2020.

Without mass resistance to this totalitarian push, be prepared for more and more restrictions on every aspect of life; including movement, travel, thought, communication, health decisions, 'medical care,' money and spending, carbon tracking, total and complete surveillance, social credit systems, and renewed climate lockdowns.

Considering the U.S. government and American citizens, remember that this government and all its controlling rule system is nothing more than an organized crime syndicate; an operation based on the mass cooperation and acceptance of a nearly universal, compliant, and submissive population, intent only on getting by and being able to survive with their smart phones, TVs, games, bread and circuses, and dependence on rule. This general attitude will be the death knell of this society, but it does not have to remain as such given the huge numbers of us, and the few who claim ownership of the bulk of the pathetic inhabitants that make up the vast majority in this country.

Remember that the term 'climate change' is the basis of all future plans to take total control over everything, and that is and will be the weapon of fear used to round up the masses. Every time you hear the word "sustainable" and accept it as legitimate, every time the state claims to be protecting the earth to 'save it,' every time 'sustainable development' is the term used to create and enforce government policy, you have lost all, while the state has gained more power and control over you. The final agenda of fear called 'climate change,' is

the hammer, while each of you are only a nail, but acting as one, you can hold everything together.

As I stated in an article earlier this year:

“The intentional manmade ‘climate change’ fraud is continually gaining steam, as it will always be the linchpin to future abuses and control by the rulers and their pawns in politics and mainstream media. While the controllers are destroying economies, decimating all quality food sources and production, eliminating vast amounts of life-sustaining energy, greatly harming the environment and its vital resources necessary for life, pursuing eugenics agendas, and advancing depopulation efforts, the majority of people continue to acquiesce to all orders and propaganda, while completely attached and addicted to their cell phones and their apathetic and pitiful pretend lives. All this is indicative of the downfall of humanity, and the rise of the technocratic oligarchs.”
