The European Union database of suspected drug reaction reports is [EudraVigilance](#), which also tracks reports of injuries and deaths following the experimental COVID-19 "vaccines."

A *Health Impact News* subscriber from Europe reminded us that this database maintained at EudraVigilance is only for countries in Europe who are part of the European Union (EU), which comprises 27 countries.

The total number of countries in Europe is much higher, almost twice as many, numbering around 50. (There are some differences of opinion as to which countries are technically part of Europe.)

So as high as these numbers are, they do NOT reflect all of Europe. The actual number in Europe who are reported dead or injured due to COVID-19 shots would be much higher than what we are reporting here.

The EudraVigilance database reports that through July 3, 2021 there are **17,503 deaths and 1,687,527 injuries** reported following injections of four experimental COVID-19 shots:

- [COVID-19 MRNA VACCINE MODERNA \(CX-024414\)](#)
- [COVID-19 MRNA VACCINE PFIZER-BIONTECH](#)
- [COVID-19 VACCINE ASTRAZENECA \(CHADOX1 NCOV-19\)](#)
- [COVID-19 VACCINE JANSSEN \(AD26.COV2.S\)](#)

From the total of injuries recorded, half of them (837,588) are **serious** injuries.

*"**Seriousness** provides information on the suspected undesirable effect; it can be classified as 'serious' if it corresponds to a medical occurrence that results in **death**, is life-threatening, requires inpatient hospitalisation, results in another medically important condition, or prolongation of existing hospitalisation, results in persistent or significant disability or incapacity, or is a congenital anomaly/birth defect."*

As we [reported yesterday](#), tens of thousands of people in the U.S. now regret getting the COVID-19 shots, and are begging for help, because the medical system has turned its back on them and refuses to treat their injuries. See: [Tens of Thousands of COVID-19 "Vaccine" Injured in the U.S. Begging for Help as the Medical Community Turns Their Back on Them](#)

One subscriber from the UK commented on [the article](#) and stated that the same thing was happening there:

It is exactly the same in Scotland and England.

My vaccinated friends are not getting appointments with their family doctors who are avoiding them post vaccination even although there are no patients in the GP surgery waiting rooms when they have tried to get appointments. It is utterly cruel given they talked them into getting the vaccinations and accepted 10 UK pounds from the Scottish and English governments per person vaccinated on their patient list and did not disclose the risk of these vaccinations to the patients.

A friend nearly passed out close to the GP surgery, a kind stranger wheeled her up to the GP surgery and she was not allowed to be seen by her GP because she did not have an appointment. The nurse refused to take bloods because they are not allowed to do so until management confirms they can do this so they cannot even do exploratory bloods to investigate what has gone wrong with these patients post vaccination.

Another friend's hospital consultant phoned a friend's GP insisting her family doctor see her given she had had heart procedures and no appointments for 2 years. She told me after first Pfizer shot "it was like acid going into my veins" and the queen did not get the same vaccine as she did which will be completely true. Her GP treated her with disdain and was not pleased to see her and my friend also tells me that every time she walks now post vaccination her heart races and her son has been unwell post vaccination too.

All my friends who got the vaccination have had severe worsening of their pre-existing medical conditions and some have got heart conditions they did not previously have or chronic obstructive airways disease.

I have noticed most have become irritable and short-tempered as they are becoming unwell not realising the vaccine is harming them and they are lashing out at others for no good reason.

In UK, NHS contributions are deducted from people's salaries and the retired paid these all their working life and now are getting refused service but they will still take these NHS contributions regardless. It is wicked and cruel. Though it is the governments who are instructing the GP and hospital management to treat the patients in this abysmal manner.

I am quite sure this will be happening in most if not all countries.

God be with us all.

A *Health Impact News* subscriber in Europe ran the reports for each of the four COVID-19 shots we are including here. This subscriber has volunteered to do this, and it is a lot of work

to tabulate each reaction with injuries and fatalities, since there is no place on the [EudraVigilance](#) system we have found that tabulates all the results.

Since we have started publishing this, others from Europe have also calculated the numbers and confirmed the totals.[1]

Here is the summary data through July 3, 2021.

Total reactions for the experimental mRNA vaccine **Tozinameran** (code **BNT162b2,Comirnaty**) from **BioNTech/ Pfizer: 8,426 deaths** and **632,623 injuries** to 03/07/2021

Notes

[1] These totals are estimates based on reports submitted to [EudraVigilance](#). Totals may be much higher based on percentage of adverse reactions that are reported. Some of these reports may also be reported to the individual country's adverse reaction databases, such as the U.S. VAERS database and the UK Yellow Card system. The fatalities are grouped by symptoms, and some fatalities may have resulted from multiple symptoms.
