Sofia Padoan Memorial and Scholarship Fund

Sofia Padoan Memorial and Scholarship Fund

A Cal Poly student died Friday night after suffering an apparent brain aneurysm shortly after having dinner with her family, the university announced in a news release on Saturday.

Sofia Padoan, a third-year nutrition major from Walnut Creek, had returned to her residence after the meal when she collapsed, according to the release.

She was rushed to the hospital emergency room, where she died.

Died: Feb.23, 2024

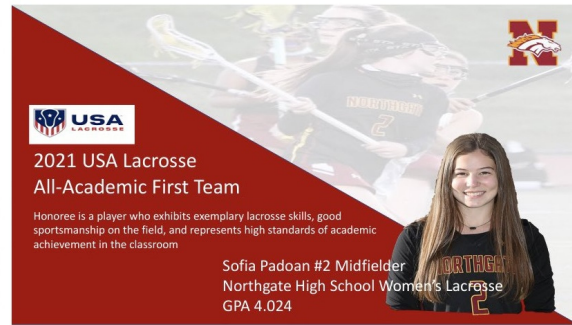

Dear Friends, Family, and Community,

It is with heavy hearts that we share the devastating news of the loss of our beloved Sofia Padoan. Sofia brought so much joy, love, and light into our lives and her passing has left a profound void that words cannot express.

Seba, Nicole, Stefano and Giulia were so grateful that an event for Giulia's sorority brought the whole family together in San Luis Obispo. Shortly after returning from a family dinner, Sofia collapsed from a brain aneurysm. The family was with her in her final hours.

Sofia was a [third-year student at California State Polytechnic University](#), San Luis Obispo. She majored in nutrition and minored in Italian studies (of course). She planned to pursue a career in nursing. Sofia was president of Kappa Kappa Gamma sorority and a member of many clubs on campus. She loved so many things, music, the beach, sharks, crocheting, Lacrosse, beautiful Murano and so much more.

[20 year old Sofia Padoan](#), 3rd year student at California State Polytechnic University died suddenly on Feb. 23, 2024

- Sofia was a third-year student at California State Polytechnic University, San Luis Obispo.
- She majored in nutrition and minored in Italian studies
- She planned to pursue a career in nursing.
- On Feb.23, 2024, an event brought the family together for dinner.
- Shortly after returning from a family dinner, Sofia collapsed from a brain aneurysm. The family was with her in her final hours.

Cal Poly COVID-19 Vaccine Mandates

- Sofia Padoan graduated from Northgate High School in 2021
- She was an athlete (National level lacrosse player)

All Cal Poly faculty, staff and students will be required to be vaccinated against COVID-19 if they access campus facilities during the fall, according to a news release sent out on Tuesday morning.

The pending mandate encompasses all 23 California State University campuses.

Cal Poly students living on campus for the fall 2021 quarter must show they are fully vaccinated by Sept. 14 and the remainder of the campus by Sept. 20, according to a message sent out by university President Jeffrey Armstrong on Tuesday.

However, Cal Poly students and employees are encouraged to accelerate that process and show they are fully vaccinated against COVID-19 by Aug. 23 so that the university “has time to process the paperwork before the quarter starts,” Armstrong wrote in his message to the campus community.

The university system had previously said it would not require the COVID-19 vaccines until the U.S. Food and Drug Administration (FDA) fully approved them. The vaccines on the market now — manufactured by Moderna, Pfizer and Johnson & Johnson — were given [Emergency Use Authorization](#) by the U.S. FDA after they passed phase three trials.

COVID-19 Vaccine-mandated Brain Aneurysms

Feb. 9, 2024 - Iowa teacher Matthew Harper suffered a ruptured aneurysm on Feb. 8 and died suddenly on Feb. 9, 2024, leaving behind a pregnant wife. He was COVID-19 mRNA Vaccinated and mandated as a teacher.

Anna Harper
Jan 14, 2022 · 🌐

GENOCIDEBLOG.COM

Joined the COVID club this week. Woo.

Mild symptoms so far and hoping to recover quickly enough. (Thanks vaccine!)

On February 7th, Matthew Harper suffered a devastating medical episode in his brain. Most likely a ruptured aneurysm. Anna was there to give life-saving measures and call 911. Matthew was taken to the hospital and eventually flown to Iowa City for consultation with a neurological team. The team deemed that there was nothing further to be done and he was declared brain dead on the 8th.

Anna is so grateful for the showering of love she is receiving for herself and their baby, due in May. They will be donating as much as they can to find a purpose in all of this and pay it forward.

Matthew lived a life of JOY. He was the most positive person that I know. I am thankful to have known him as I'm sure many of you are. This time is incredibly difficult for everyone who knew Matthew, but especially for Anna and the Harper family.

More than \$100,000 raised for wife of Urbandale music teacher who died unexpectedly

JOSÉ MENDIOLA Des Moines Register

More than \$100,000 has been raised for a pregnant widow after her husband, an Urbandale Middle School music teacher, died unexpectedly from a medical complication.

Matthew Harper suffered what Katie Sullivan, who is [raising the money on GoFundMe](#) for his wife, Anna, said was "most likely a ruptured aneurysm" in his brain on Feb. 7. He was flown to an Iowa City hospital for treatment by a neurological team, but was declared brain dead on Feb. 8, said Sullivan.

URBANDALE

More than \$100,000 raised for wife of Urbandale music teacher who died unexpectedly

José Mendiola Des Moines Register

Published 2:28 p.m. CT Feb. 14, 2024

More than \$100,000 has been raised for a pregnant widow after her husband, an Urbandale Middle School music teacher, died unexpectedly from a medical complication.

Matthew Harper suffered what Katie Sullivan, who is raising the money on [GoFundMe](#) for his wife, Anna, said was "most likely a ruptured aneurysm" in his brain on Feb. 7. He was flown to an Iowa City hospital for treatment by a neurological team, but was declared brain dead on Feb. 8, said Sullivan.

Sullivan, a Waukee music teacher, is partnering with Ted Brimeyer, the Urbandale school district's director of music education, in the fundraising effort, according to the [GoFundMe](#) page.

Anna Harper, who is expecting a baby in May, will be receiving all the funds that are raised.

"Matthew lived a life of joy," Sullivan said. "He was the most positive person that I knew."

Matthew Harper was an [organ donor](#), Sullivan said.

Feb. 5, 2024 - NSW, Australia - Family physician Dr. Mike Davis died unexpectedly from a brain aneurysm on Feb. 5, 2024. He leaves behind 3 children.

It is with great sadness that we share with you that Dr Mike Davis died unexpectedly from a serious medical condition, a brain aneurysm, on Monday 5th February 2024.

Mike's wife and their three beautiful children are an important part of our community and we all extend our support to them at this incredibly difficult time. Mike loved his family dearly – always making time to be there for them despite his busy work life - whether it was the first day of school, coaching their soccer team or supporting his wife in her endeavours. He had a great affinity with the ocean and the outdoors, spending much of his spare time in the quest to surf the perfect wave, kite surfing and camping with his family.

Mike relocated to the area to join our Clinic as a registrar at the beginning of 2016 and ended up becoming a Partner in early 2023. His gentle, caring nature and calm approach endeared him to us all. He also loved making a difference in his patients' lives, helping people of all ages in our community and he will be greatly missed.

Rest in peace Mike ❤️

If you would like to share any messages of condolence, please do so in the comments below, as we remember and honour his legacy.

Dec. 12, 2023 - Italy - 21 year old Alice Tiberi was found dead in her bed by her mother on Dec. 12, 2023. "There is talk of aneurysm."

—
Pesaro, December 16, 2023 – Had **21 years old**. It was called **Alice Tiberi**. E' died following **malore** last Tuesday. Today at 3 pm i will be celebrated **funeral**. Alice lived in **Sassocorvaro market**, student, without particular health problems. Suddenly the illness, there is talk of aneurysm, and death a few days later in the regional hospital of Ancona.

Strong stomach pain, odyssey in hospitals: dies at the reception of Cau

Fatal illnesses, Alice Tiberi lived in Mercatale di Sassocorvaro

The funeral ceremony will be celebrated at 3 pm today in the parish church of San Michele Arcangelo in Mercatale di Sassocorvaro.

A death that left in **pain the family** and also i **many inhabitants of the country** who knew and appreciated it. It all started on the morning of Thursday 7 December, when the **mother Ines** who was at work tried to **call her daughter Alice who stayed home in bed**.

After several rings failed, the lady **called the neighbor** begging her to go and ring Alice's bell. See also here the useless attempts, Mum Ines **she got out of work and went home** to check, finding the daughter unfortunately lifeless in bed.

Rescue alerted, the 118 health workers underwent heart massage and all resuscitation techniques. With the ambulance, Alice was then taken to the Ancona Hospital.

Dec. 3, 2023 – Port Alberni, BC, Canada – 35 year old Richard William Booth died suddenly due to an aortic aneurysm on Dec. 3, 2023. He ran ultra marathons.

Richard William Booth

25 MAY, 1988 - 3 DECEMBER, 2023

It is with deep sadness and heavy hearts that we announce the sudden and tragic passing of Richard William Booth, 35, on December 3, 2023. He left this world unexpectedly due to an aortic aneurysm in Port Alberni, BC. Richard was born on May 25, 1988, in Nanaimo, BC to Marguerite Kennedy.

Richard was a loving and devoted partner to Taylor Booth for 12 years. He brought love, laughter, and dedication to Taylor's life, and their bond was a true testament to the power of their love and commitment.

Richard was a remarkable individual who touched the lives of everyone he encountered. He will be remembered for his ever-present smile and larger than life laugh, and the impacts that he made in each life he entered with his willingness to always give 100% to others. His life did not come without trials as he confronted his addiction and entered treatment and was nearing his 8-year anniversary of sobriety, which he was incredibly proud of as was his family. After, he made his way into the ultra-marathon running world, which brought even more incredible friends into our family circle, and a running community which he adored being a part of.

Dec. 2, 2023 - Seattle, WA - Nurse Sonya Denise Holden has suffered a brain aneurysm. "I had COVID 4 times and three COVID shots."

Sonya Denise Holden
1 d · Seattle, 2nd December, 2023

That girl strong! Chrons and Colitis and now a brain Aneurysm on the right that may get coiled in April. I'm definitely fighting for my life! I don't care what nobody say, I had Covid 4 times and three Covid shots. I believe it's one or both that's attacking me. I will fight until I can't!! God got all his children. I will be going on nights to try and not be so stressed out at work. And I will make 5\$ more plus a raise next month. I'm really worried about this aneurysm it's life or death with this! So keep praying it don't bust or grow! #Amen

Oct. 31, 2023 - IN - Healthcare worker Marie Love had a ruptured brain aneurysm causing a large subdural hematoma. She's in the ICU.

Oct. 19, 2023 - UK - 41 year old Kevin Brewster, semi-professional soccer player, sports coach and PE teacher collapsed with a brain aneurysm on Oct. 19, 2023 and was given an hour to live. He survived.

The 41-year-old worked for 18 years as a sports coach and PE teacher in schools across Surrey and Hampshire and until 2020 played semi-professional football for Sholing FC. But now his family said: "Although medically Kevin's aneurysm is 'fixed' it's the immediate short-term recall memory that is the big issue".

Kevin spent time on the high dependency ward at St George's Hospital
© Gemma Miles

Sophie said: "We're all very hopeful for the future of Kevin, although it will be a very long slow journey but one everyone by his side is prepared for." Kevin was able to go home on Monday (December 11) more than a month and a half after he was found collapsed (October 19) and so will be with his family for Christmas.

Surrey PE Teacher's life 'frozen' after sudden brain aneurysm causes memory loss

Story by Kieran Graves • 1w

When Kevin Brewster collapsed with a rare brain aneurysm, his fiancée Gemma Miles faced a parent's worst nightmare - preparing her children for the unthinkable while doctors gave him just an hour to live. Though Kevin defied the odds, the traumatic brain injury has left him struggling to recall basic details of his life and upended the family's world.

Deeput resident Kevin Brewster or 'Brewy' to those close to him - was found by his partner, Gemma Miles, 40, collapsed on the bed confused and in pain complaining of a headache and neck pain. She recalled she "just knew" something had happened and became "very aware something wasn't right as he wasn't making sense".

Luckily at the time, Gemma - who works as a hairdresser - had a client come to the house who helped call for an ambulance while the couple's children 12, and eight, were looked after by a friend. "At no point did she ever think this situation would become as serious as it was," Gemma's friend, Sophie Gray, 39, claimed.

[Read more: Surrey BBC weather forecast for Christmas Eve, Christmas Day, and Boxing Day](#)

[Read more: Surrey's quietest train station used by just 33 people day on average](#)

Kevin is said to have been physically fit with a "very normal lifestyle" before the incident. He had "no warnings, no headaches, nothing to indicate he was going to suddenly have an aneurysm".

A brain aneurysm is a bulge in a blood vessel in your brain. It can be very serious if it bursts.

The 41-year-old worked for 18 years as a sports coach and PE teacher in schools across Surrey and Hampshire and until 2020 played semi-professional football for Sholing FC. But now his family said: "Although medically Kevin's aneurysm is 'fixed' it's the immediate short-term recall memory that is the big issue".

OH - Kristin Velovitch became ill on Sep. 30, 2023 and was found to have a brain aneurysm. She volunteered at a local school.

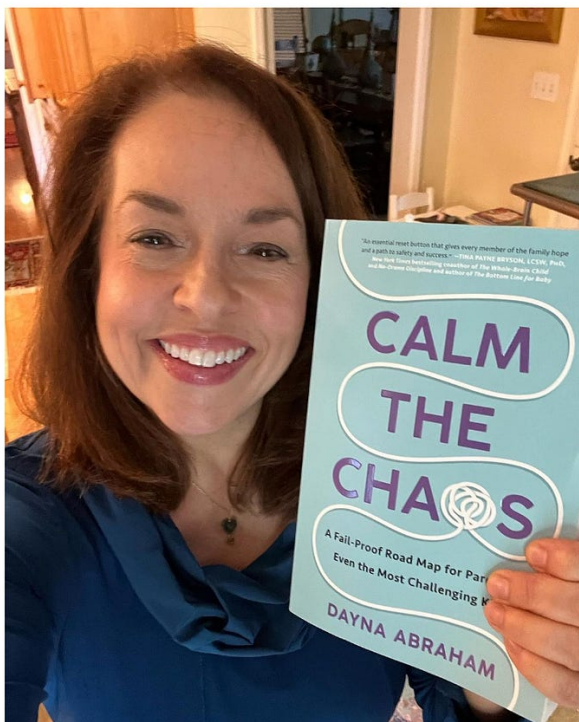

Deanne Earl Bradley is with Paul Bradley and Kristin Velovitch. October 3, 2023
 2d · 🌐

Paul and I would like to ask for prayers for our daughter, Kristin. She became ill Saturday, was taken to the hospital, then found out she had a brain aneurysm. Sunday she had a successful surgery, but has a long recovery ahead of her. Praise God! While I was at the hospital visiting Kristin today, I got a call that my mom fell and had to be taken to the ER where she has been admitted for observation. I would greatly appreciate prayers for these two wonderful ladies who are so important to our family. Thank you so much 🙏❤️

My Take...

Post COVID-19 Vaccine brain aneurysms are extremely common.

It's one of the Vaccine injuries I encounter so frequently, that I could write an article full of cases every month.

In this article, I included only the COVID-19 Vaccine mandated: teachers, healthcare workers, University students

21 year old Brittany McCarthy and 20 year old Sofia Padoan were both mandated COVID-19 Vaccines to be able to attend University. Both wanted to be healthcare workers. Both died from aneurysms.

Brittany died within months in her 1st year, Sofia died in her 3rd year.

Short term or long term, COVID-19 jab aneurysms will kill you eventually.

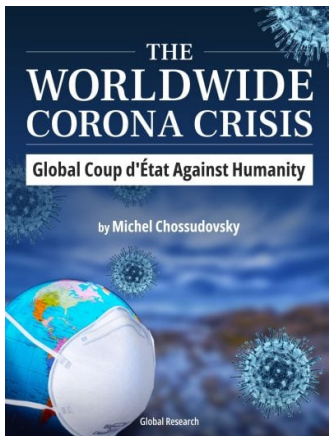

As far as I can see, none of the families are holding the leaders of Universities accountable for deaths of students.

In this regard, University COVID-19 Vaccine mandates were the PERFECT CRIME.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. -Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying

Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists.
—**Peter Koenig**

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –**David Skripac**

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place. –**Edward Curtin**
