The European Union database of suspected drug reaction reports is [EudraVigilance](#), and they are now reporting 28,103 fatalities, and 2,637,525 injuries, following COVID-19 injections.

A *Health Impact News* subscriber from Europe reminded us that this database maintained at EudraVigilance is only for countries in Europe who are part of the European Union (EU), which comprises 27 countries.

The total number of countries in Europe is much higher, almost twice as many, numbering around 50. (There are some differences of opinion as to which countries are technically part of Europe.)

So as high as these numbers are, they do NOT reflect all of Europe. The actual number in Europe who are reported dead or injured following COVID-19 shots would be much higher than what we are reporting here.

The EudraVigilance database reports that through October 19, 2021 there are 28,103 deaths and 2,637,525 injuries reported following injections of four experimental COVID-19 shots:

- [COVID-19 MRNA VACCINE MODERNA \(CX-024414\)](#)
- [COVID-19 MRNA VACCINE PFIZER-BIONTECH](#)
- [COVID-19 VACCINE ASTRAZENECA \(CHADOX1 NCOV-19\)](#)
- [COVID-19 VACCINE JANSSEN \(AD26.COV2.S\)](#)

From the total of injuries recorded, almost half of them (1,249,109) are serious injuries.

“Seriousness provides information on the suspected undesirable effect; it can be classified as ‘serious’ if it corresponds to a medical occurrence that results in death, is life-threatening, requires inpatient hospitalisation, results in another medically important condition, or prolongation of existing hospitalisation, results in persistent or significant disability or incapacity, or is a congenital anomaly/birth defect.”

A *Health Impact News* subscriber in Europe ran the reports for each of the four COVID-19 shots we are including here. It is a lot of work to tabulate each reaction with injuries and fatalities, since there is no place on the [EudraVigilance](#) system we have found that tabulates all the results.

Since we have started publishing this, others from Europe have also calculated the numbers and confirmed the totals.*

Here is the summary data through October 19, 2021.

*These totals are estimates based on reports submitted to [EudraVigilance](#). Totals may be much higher based on percentage of adverse reactions that are reported. Some of these reports may also be reported to the individual country's adverse reaction databases, such as the U.S. VAERS database and the UK Yellow Card system. The fatalities are grouped by symptoms, and some fatalities may have resulted from multiple symptoms.

European Members of Parliament Speak Out Against Mandatory COVID-19 Vaccines

Several members of the European Parliament spoke out in Brussels this past week against mandatory COVID-19 vaccines. You can read the [full story and watch the full video here](#).

We have extracted German Member of European Parliament Christine Anderson's comments in the video below. This is on our [Rumble](#) and [Bitchute](#) video channels.

I will not be reduced to a mere guinea pig by getting vaccinated with an experimental drug, and I will most assuredly not get vaccinated because my government tells me to and promises, in return, I will be granted freedom.

Let's be clear about one thing: No one *grants me* freedom for I *am a free person*.
