Dr. Maddie Giegold's adventurous life was cut short suddenly, just five days before completing her residency.

"I've never really met anyone else like her, she's incredibly goofy," said friend Hannah Trautner.

Trautner said Giegold would do anything to make people laugh and inevitably become her friend.

Those closest to Maddie say she loved cats, trail running, sunflowers, but maybe most of all:

"Oh, she loved ice cream," said Trautner.

The 32-year-old spent the past few years as Chief Resident at Community Regional Medical Center through its partnership with UCSF Fresno.

“She was really excited to get to do a lot of things, and she was really excited for this next chapter, and I felt that she and her family were really robbed of that,” said Trautner.

Through their grief, Maddie’s family and friends filled the hallways of CRMC Sunday for an honor walk celebrating her final act of service with a mountain of sunflowers.

Hundreds more watched the honor walk over Zoom.

“She was able to donate her liver and her kidneys to save some other people’s ‘Maddies’ and that’s the thing that gives me peace, that she was able to give other families a gift and I know that would make her so happy,” said Trautner.

While Hannah jokes Maddie would be loving all this attention, she says what her friend really loved was being able to bring people together.

The overwhelming love for Maddie on full display in the [GoFundMe page](#) created to help her husband and family. It raised more than \$100,000 in just four days.

My Take...

COVID-19 mRNA Vaccinated doctors and medical students are going to continue dying suddenly due to long term mRNA vaccine injuries.

Medical students were mandated COVID-19 Vaccines, in order to keep their future career. Whoever mandated these, committed a particularly severe crime. For some medical students, it cost them their life. That’s called murder. And it was premeditated. Medical school leaders knew that some students would die as a result.

Mainstream medicine is dying. It has no future, because the leaders of the profession are happily sacrificing the future of medicine (the youngest trainees) at the altar of big pharma.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom

loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
