Excerpt from the [Rasmussen Reports](#) (June 21, 2024):

Nearly a quarter of those who got vaccinated against COVID-19 regret it, and a third agree with a medical expert’s condemnation of the vaccine as deadly.

The latest Rasmussen Reports national telephone and online survey finds that 24% of American Adults who got at least one dose of COVID-19 vaccine regret getting vaccinated against the virus. Sixty-nine percent (69%) of vaccine recipients have no regrets about it. (To see survey question wording, [click here](#).)

In January 2023, [cardiologist Dr. Peter McCullough](#) said: “The vaccine is killing people, and is killing large numbers of people.” Thirty-three percent (33%) of American Adults agree with that statement, including 16% who Strongly Agree. Fifty-seven percent (57%) disagree, including 39% who Strongly Disagree. Another 11% are not sure.

The survey of 1,232 American Adults was conducted June 10-12, 2024 by Rasmussen Reports. The margin of sampling error is +/- 3 percentage points with a 95% level of confidence. Field work for all Rasmussen Reports surveys is conducted by Pulse Opinion Research, LLC. See [methodology](#).

Seventeen percent (17%) have a lot of trust for the medical and pharmaceutical industries, 37% say they have some trust, 25% don’t have much trust and 18% have no trust at all in the medical and pharmaceutical industries.

Twenty-five percent (25%) of American Adults say they never took the COVID-19 vaccine, while 14% got only one dose, 20% got more than one vaccine and 38% got the vaccine plus one or more booster shots.

My Take...

- **25% of Americans claim they never took the COVID-19 Vaccine**
- **33% of Americans believe COVID-19 Vaccines are killing people**
- **24% of Americans regret getting the COVID-19 Vaccine**
- **69% of COVID-19 jabbed have NO REGRETS**
- **38% of Americans had COVID-19 Vaccine booster shots**
 - **ONLY 10% of the boosted believe COVID-19 Vaccines are killing people**
 - **ONLY 10% of the boosted have regrets about getting the jab (vs 43% who got one jab)**
 - **80% of the boosted have trust in the medical & pharmaceutical industries.**

The majority of the population is sound asleep.

69% have no regrets in getting DNA Contaminated COVID-19 Vaccines. This is extremely high.

Only 33% believe COVID-19 Vaccines are killing high numbers of people - this is still much too low!

Once you've had at least one booster shot, it seems you are lost forever.

I like this survey, I believe it is accurate. It shows that even though 33% of the population is awake, we still have at least 50% of the population sound asleep (75% took the jabs x 69% have no regrets = 52% of the population).

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —**Dr. Mike Yeadon***

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —**Dr. Emanuel Garcia***

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —**Peter Koenig***

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —**David Skripac***

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global

coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
