Lelon Lewis Obituary

Lewis, Lelon Albert
August 15, 1954 - April 3, 2021

Easter, April 4, 2021 - "Shattered: Lonnie's plane has crashed!"
Lelon Albert Lewis was born August 15, 1954 in Denver. Lonnie was an inquisitive little boy - he scored high in his studies. He learned to play accordion and performed with "The Accordionaires" and also taught himself to play guitar. In 1972, Lonnie graduated with honors from Ranum High School in Westminster, Colorado. Lonnie's game was tennis, lettering in high school, competing during college and playing for years in regional tournaments. Lonnie earned degrees in English and Electrical Engineering from the University of Colorado in Boulder. Lonnie was a respected technical writer for the Bureau of Reclamation. He was editor of critical manuals and virtually created computer programs for the Bureau. Lonnie served at the Bureau for 30 years, retiring in 2009. Lonnie was a world traveler. Ursula of Germany was drawn by him to study at the University of Colorado. His last venture was to South America where he enjoyed taking pictures with his drone. Lonnie married Christy Whaley in 1985 though they parted ways not long after. He married Wynette in 1992. He became Dad to two daughters, Marina and Sierra. Wynn took the children and moved on in a short time. Lonnie adopted various interests, the last becoming a sports pilot and owner of an airplane. Cause of the fatal crash on April 3, 2021 at 17:35, is under investigation. Lonnie's parents, Albert Lelon and Darlene Lewis; sister Lynn and Garry Meek's family; brother Lance and Sheri Lewis' family; most from Grand Junction; and Marina and Sierra Lewis of Portland, Oregon remain deeply in grief. Lonnie's family is eternally grateful to Civil Air Patrol Commander Mark Young for his prompt effort to locate and identify the plane, and his compassionate effort to locate and inform the family, and to the Alpine Rescue Team for taking Lonnie from the plane on Easter Sunday (April 4). Lonnie's family is planning a special remembrance event for Lonnie. Suggested remembrances for Lonnie can be sent to Alpine Rescue Team - P.O. Box 954, Evergreen, CO 80437. [April 3, 2021 Plane Crash](#) – Lelon Albert Lewis: Magnus Fusion 212, N434MA; fatal accident in Conifer, Jefferson County, Colorado

On April 3, 2021, about 1735 central daylight time, a Magnus Fusion 212 airplane, N434MA, was substantially damaged when it was involved in an accident near Conifer, Colorado. The sport pilot was fatally injured.

A review of air traffic control (ATC) information revealed the airplane departed about 1658 from Colorado Air and Space Port Airport (FCO), Denver, Colorado. The airplane flew southwest and the last ATC information was recorded about 1729 as the airplane flew near Deckers, Colorado about 800 ft above ground level (agl). The airplane continued west toward rising terrain and an emergency locator beacon (ELT) transmission was recorded about 1735.

A witness near Wigwam Trail in the Pike National Forest observed the airplane flying slowly on a northwest heading and subsequently turned left to enter a canyon at less than 500 ft agl. After entry into the canyon, the airplane turned sharply to the right and the witness lost sight of the airplane. The airplane impacted into steep, forested terrain with a nose low

attitude and low forward speed.

The aircraft was equipped with a parachute recovery system. Examination of the system on-site revealed that it was not deployed. The airplane will be further examined at a recovery location.

JEFFERSON COUNTY, Colorado (CBS4) - The pilot killed in a plane crash over the weekend has been identified. Lelon Albert Lewis, 66, was the only person on board the plane when it crashed in a rugged area northwest of Deckers on Saturday.

The plane was first reported missing on Saturday. Eventually, the downed plane's location was discovered from aircraft overhead on Sunday.

With assistance from the Jefferson County Sheriff's Office, search and rescue personnel with the Alpine Rescue team hiked into the site in the Lost Creek Wilderness and found the single occupant of the plane, identified on Monday afternoon as Lewis, dead.

It's unclear what caused the crash but the plane, a single-engine Magnus Fusion 212, was a Hungarian-made sport plane engineered for aerobatics. The Federal Aviation Administration and National Transportation Safety Board are investigating the crash.

My Take...

66 year old pilot, Lelon Albert Lewis, crashed a small plane in Colorado a few hours after receiving his 2nd Moderna COVID-19 mRNA vaccine.

The plane took a sharp turn before the crash, and the parachute recovery system was not deployed. It is highly probable that the pilot collapsed and lost consciousness, which then led to the plane crash.

The fact that there is a VAERS report suggests that the family believed he probably had a reaction to his 2nd Moderna COVID-19 mRNA Vaccine, which led to the plane crash and his death.

This case is unique, in that it is the only plane crash recorded in VAERS after COVID-19 Vaccination, however, same day deaths post job are actually a shockingly common

occurrence.

There are at least 1150 deaths documented in VAERS that occurred on the same day they took the COVID-19 Vaccine.

Lady Themis @LadyThemis17
According to VAERS, which reports less than 1% of the actual accounts, 1150 people have died on the same day getting the Covid vaccine. Over 1200 have died the day after getting the Covid vaccine. Not to mention the adverse effects and other deaths. Where is the outrage?

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. -Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. -David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
