Today is the 22nd Anniversary of the attack on the World Trade Center and Pentagon known as 9/11. A generation of 22-year olds has grown up after 9/11, and the event probably means nothing to them. They learn that it was an attack on America like the Japanese attack on Pearl Harbor, and 9/11 disappears into history.

It is unlikely that anyone under 40 is much concerned with 9/11. A 40-year old today would have been 18 in 2001 and would likely dismiss 9/11 concerns as conspiracy theory. Today's youth are more likely to be marching in support of "various ubiquitous social issues" than wondering about the source and purpose of the 9/11 attack.

Over the years I have reported the mounting evidence provided by scientists and by architect Richard Gage's Architects and Engineers for 9/11 Truth until the organization he created removed him at the request of the government, effectively destroying the organization.

But for me the proof that 9/11 was an inside job has always been that no one in government and security agencies was ever held accountable for the worst humiliation ever inflicted on an alleged "superpower."

Instead, it took a year before the White House even agreed to an official coverup with the 9/11 Commission, another in the long line of commissions like the Warren Commission that validates the official story. If a few young Saudi Arabians had actually defeated the entire national security apparatus of the United States, the White House would have been

screaming, and heads would have rolled.

The neoconservatives had just called for a “new Pearl Harbor” so they could launch their wars of destruction of Israel’s enemies in the Middle East. They immediately blamed 9/11 on “Muslim terrorists” and began their invasions that halted only when Russia blocked the neoconservatives’ overthrow of Syria. So it is pretty clear who is responsible for 9/11 and why.

Many Americans today understand what really happened, but the government will never admit it. It takes decades for the truth to come out, and by then everyone affected by the event is dead, and the event becomes ancient history.

It is paradoxical that President Trump is in the dock for questioning an election, while Dick Cheney and the neoconservatives, and the whore media that covered up for them, never faced a single charge.
