This month, the Perdana Global Peace Foundation (PGPF) is initiating a legal procedure against the perpetrators of 9/11 during and International Conference on "[9/11 Revisited – Seeking the Truth](#)".

It has been more than eleven years since that horrific day when so many lives were lost. Today, are we any closer to the real version of events of that tragedy?

As [Prof. Michel Chossudovsky wrote](#):

The tragic events of September 11, 2001 constitute a fundamental landmark in American history, a decisive watershed, a breaking point.

Millions of people have been misled regarding the causes and consequences of 9/11.

September 11 2001 opens up an era of crisis, upheaval and militarization of American society. The post September 11, 2001 era is marked by the outright criminalization of the US State, including its judicial, foreign policy, national security and intelligence apparatus.

9/11 marks the onslaught of the "Global War on Terrorism" (GWOT), used as a pretext and a justification by the US and its NATO allies to carry out a "war without borders", a global war of conquest.

A far-reaching overhaul of US military doctrine was launched in the wake of 9/11.

9/11 was also a stepping stone towards the relentless repeal of civil liberties, the militarization of law enforcement and the inauguration of "Police State USA".

In assessing the crimes associated with 9/11 in the context of a legal procedure, we must distinguish between those associated with the actual event, namely the loss of life and the destruction of property, from the crimes committed in the aftermath of September 11, 2001 "in the name of 9/11". The latter built upon the former. We are dealing with two related dimensions of criminality. The crimes committed in the name of 9/11 involving acts of war are far-reaching, resulting in the deaths of millions of people as well as the destruction of entire countries.

Now more than ever, let us not only renew our efforts to expose the truth, but also take our awareness a step further to understand that the wars launched since that fateful autumn day in 2001 – in the bitterly ironic name of "justice" and supposedly to combat "terrorism" – continue to take lives of people across the world. These wars are based on lies and their costs are staggering.

According to Prof. Michel Chossudovsky, the "war on terrorism" is a complete fabrication based on the illusion that one man, Osama bin Laden, outwitted the \$40 billion-a-year American intelligence apparatus. The "war on terrorism" is a war of conquest. Globalization is the final march to the "New World Order", dominated by Wall Street and the U.S. military industrial complex.
