Yesterday, the 22nd anniversary of the NYC 9/11 - a day of global mourning, the beginning, or activation, of a crime of biblical proportions, like never before in history remembered. Activation stands for onslaught of a colossal War on Humanity. What the small supremacist elite calls War on Terror is nothing less than an endless war on mankind. A war waged by a death cult. The preparation for the war, started decades, probably 100+ years before.

Two planes hitting the twin towers of the NYC World Trade Center (WTC) on September 11, 2001 - probably remote-controlled - because most pilots admit this kind of close-curved maneuver necessary to hit the towers was impossible to carry out by a pilot.

The world was told the perpetrators were a group of some 12 Saudi terrorists. An outright lie. One of the first ones - to be followed by countless others all in the name of instilling fear to control mankind, to eventually upgrade the war to a killing machine leading onto the infamous UN Agenda 2030, *alias* the Great Reset and the all-digitizing, QR-code crowned Fourth Industrial Revolution, what Klaus Schwab, WEF's founder and CEO proudly claims as his brainchild.

Who else could come up with a new world order based on linearism, digitalized transhumanism - 180-degrees opposite of what life in the universe is, an infinite multitude of dynamism, life in multiple dimensions, evolving naturally as a cog in the universe's endless wheel?

Right there on NYC's 9/11, more than 3000 people were killed. Thousands more followed in the immediate aftermath.

The third building, that collapsed in the afternoon - seemingly out of the blue - was apparently ripe with documented evidence of the crime. Almost silenced by the media.

And to this day, nobody knows what happened to the people on the plane that apparently crashed into an open field in Pennsylvania. No debris and no people were ever found. Here too, no media coverage, no investigation – just destined to be forgotten.

What happened to the dozens of policemen and firefighters who were near the WTC towers and in their basements, reporting on hearing explosions, underground and in the lower strata of the extremely solid constructions – just before they collapsed in the well-known style of purposeful city demolition techniques. Most of them were never seen again. “Victims” of the accident?

Overall, since the NYC 9/11, millions of people were killed in the aftermath of the trigger to the so-called “war on terror”, which, in fact, was meant to be a “war on humanity”.

The onslaught of wars began. The US invasion of Afghanistan, barely a month after the suspected auto-coup of the 9/11 Twin Towers implosion. The pretext was Osama Bin Laden, an Al Qaeda CIA recruit, who — the George W. Bush Administration lied having orchestrated the 9/11 attack from Afghanistan — had to be eliminated by invading the mountainous and resources-rich Afghanistan, landlocked, in the center of Asia.

Al Qaeda was a CIA creation of the 1980's - already then as an instrument to justify the coming war on terror.

True reasons for invading Afghanistan were several:

The multibillion dollar Drug Trade (opium) which the Taliban government attempted to dismantle in 2000-2001. (See graph below)

Figure 1: Opium poppy cultivation in Afghanistan, 1994-2016 (hectares)

Sources: UNODC/MCN opium surveys 1994-2016. The vertical lines represent the upper and lower bounds of the 95% confidence interval.

The Turkmenistan–Afghanistan–Pakistan–India Gas Pipeline

The ever-closer relations between Afghanistan and China were a thorn in the eyes for US political supremacy, and finally the extreme mineral riches, especially rare earths, vital for production of electronics - chips used for military equipment as well as for multiple civilian

uses.

Afghanistan was the first “leg” on the endless “War on Terror”.

The Afghanistan invasion was followed by the May 2003 Iraq invasion - one of the hydrocarbon richest countries in the Middle East, with a leader, Saddam Hussein, who was at the point of defying OPEC rules of trading hydrocarbons in US-dollars only. Saddam wanted to trade Iraq’s hydrocarbons in Euros. Iraq was also labeled an Al Qaeda terrorist country.

A “Shock and Awe” attack should eliminate the country’s leader and bring Iraq to her knees. By now we know that it did not exactly happen that way. It was probably also planned as an endless war.

Iraq — another “War on Terror” - emanating from the 9/11 auto-attack.

Syria — from 2011 forward Washington’s secret service created a “civil war”, applying the principle of divide to conquer.

In September 2014 the conflict culminated in the US intervening, siding with the [US-created] Syrian rebels, fighting the Islamic State, the so-called “*Operation Inherent Resolve*” in what was labeled *international war against the Islamic State*.

In truth, Washington wanted to get rid of the highly popular and democratically elected Syrian President, Bashar al-Assad. Again, the interest was control over the large Syrian oil and mineral resources.

Also, under the flag of “War on Terror”.

Coincidentally - though, there are no coincidences - the Ukraine war also started in [February] 2014, by the US-instigated coup against the democratically elected *Viktor Yanukovich*. Remember *Victoria Nuland’s recorded phone conversation with the US Ambassador in Kiev - “f**k Europe”?* And the recent admission by NATO boss, Jens Stoltenberg, that the Ukraine War started already in 2014?

Other US-initiated wars and conflicts followed - in Sudan in 2006 / 2007 after the broken Darfur Peace Agreement; in Pakistan in 2011 under the pretext and on the heels of several targeted killings in Karachi, leaving hundreds of people dead. US presence never left the country, as Pakistan was attempting establishing closer relations with China.

To the “war on terror” may also be counted the October 2011 US / French / NATO lynching of Libyan President, Muammar Gaddafi - leaving the country as of this day in a state of constant civil strife and mafia-like killings and enslavement of refugees. Gaddafi was about to introduce the Gold Dinar, as a unified currency for Africa, to liberate Africa from French and US / K currency exploitation.

The NYC 9/11 was and is a war instrument that until this day has not been fully recognized as what it was supposed to be - a precursor to possibly the planned final phase for civilization as we know it, the UN Agenda 2030, *alias* The Great Reset, leading to the full digitization of humanity - into transhumanism - and simply a One World Order (OWO), run by full control via digitization of everything, complemented with Artificial Intelligence (AI).

It is plan. A scary plan - a plan with the purpose of instilling fear, thus, it is hoped, making the population defenseless against a tyrannical take-over.

This plan will not materialize.

Lest we forget, it is important pointing out that there was another 9/11 “event” - 50 years back that took place in Chile. It also killed instantly hundreds of people, and over the following 16 years, until General Pinochet’s demise in March 1990, tens of thousands of people disappeared and were killed.

September 11, 1973. Palacio de la Moneda. Allende was assassinated

The purpose of the US-instigated and Henry Kissinger executed military coup in Chile, was to get rid of the “uncomfortable” democratically elected, socialist-leaning, President Salvador Allende, so that the United States could implement and test a “Chicago Boys” designed neoliberal economic system to run an entire country. Later to be repeated throughout Latin America - a remedy to make sure, Latin America would keep their US “Backyard” status, for a long time to come.

The “Chicago Boys” were a group of Chilean and international economists, most of whom

were educated in the 1970 and 1980s by arch-conservative Milton Friedman at the Department of Economics of the University of Chicago.

Also, not to forget, the major coup planner and instigator, was the then Secretary of State, Henry Kissinger, under Richard Nixon's presidency. Kissinger later received the Nobel Peace Prize, for his alleged peace efforts in the Vietnam war which he also "directed", and following his ordered bombing of Cambodia and Laos to bloody rubble - with hundreds of thousands, if not millions of deaths. Remember the infamous "Killing Fields" in Cambodia? - Well, that was also Henry Kissinger, arguably the most notorious war criminal still alive.

Earlier this year, Henry Kissinger turned 100. This could be natural old age, or it could be old age enhanced by adrenochrome.

Is it sheer coincidence that the Santiago de Chile and the NYC Nine-Eleven massacres are exactly 50 years apart? A half a century.

There are no coincidences. Just connecting the dots.

As a reminder - 911 is the emergency number in the United States. That is hardly a coincidence.

Kissinger is a close buddy, ally and advisor of Klaus Schwab's, CEO of the controversial World Economic Forum (WEF). As of this day, Kissinger's advice is sought by world leaders around the world.

In July 2023, Kissinger was received by China's President Xi Jinping, who apparently greeted Kissinger with a comment, *"old friends" like him will never be forgotten*. The irony is subtle. The US-initiated meeting was apparently meant to mend frayed ties between Washington and Beijing.

A tremendous attribute for President Xi - he is always open for initiatives potentially leading to improved relations, harmony, and peace.

Back to NYC-9/11.

What we, especially the western world's humanity currently are living is a colossal crime never seen and recorded before in known history.

After 9/11 for many, and a for a long time for most – flying has become a nightmare – and a huge business for a few. The long security lines, the manual checking – often more reminiscent of groping – of passengers, who often for some medical reasons, have a hard time passing through the control machines without the red-light flashing.

The first US Secretary of Homeland Security, Tom Ridge and associates, became insanely rich by launching the manufacturing of the airport security machines – that were imposed worldwide, and which are being constantly upgraded.

Backtracking – 9/11 sparked “wars on terror” – *alias* on humanity, may have had several phases of activation.

The Club of Rome, first unofficially meeting in 1956 in Rome, was formally created in 1968 as an initiative of David Rockefeller with, Aurelio Peccei, Alexander King and Dr. Mamphela Ramphele, founder and *President of Africa's Agang party – and others*.

The Club of Rome issued in 1972 the infamous report “Limits to Growth” (LTG), arguing against continued economic and population growth – setting the first marks for a massive eugenist agenda, a population reduction down to about 500 million people, from today's 8 billion-plus, a reduction of about 95%.

Dennis Meadows, one of the main authors of the Club of Rome's The Limits to Growth, is a member of the World Economic Forum. He propagates as of this day massive population reduction. See [this](#).

This eugenist plan is as of this day the blueprint for what we are living. It is the core for UN Agenda 2030, the Great Reset and All-digitization.

From it was born covid, the worldwide coercive vaxx mandate, possibly more lab-made “viruses” to come, as well as the climate change hoax, justifying geoengineering of weather, causing droughts, floods, never-seen-before hurricanes and tornadoes, Directed Energy Weapon (DEW) caused forest and other fires, like the destruction of Lahaina on Maui, and others – all bringing about poverty, famine, misery, and death.

Closing the circle – with NYC's 9/11 setting the stage 22 years ago.

There is no waiting. We must resist with heart and soul – and peaceful spirits. We shall never forget 9/11 and what it triggered – and we shall overcome.
