ben.donatowoodger Boosted with @angelasplanet at the Covax Pop-Up by Humber River Hospital. It's a great pop-up. Get boosted. [Mandatory vaccination all all the way](#). And then went canvassing (obviously with quality masks) and am very happy that voters are still happy to chat at the door! Canvassing is a vital public health measure and please volunteer for your local New Democrat :)

ben.donatowoodger content warning: needles.

[Being the best human lab rat I can be for Phase 1 of a COVID-19 Vaccine Trial](#). Who knew that being a lowkey hypochondriac and being able to fill out a medical log of every minor symptom could actually be a valuable skill?

Side note: Being in a clinical trial is not equivalent to getting vaccinated — I could have got the placebo. If anyone reading this interested in joining, the study is taking participants, but please be motivated by helping the whole process get the highest quality of data. You have to commit to delay getting your Health Canada approved vaccine for your participation period. That means you need to make a serious decision about if you are in a point in your life where you could theoretically contract COVID-19 and 1) survive 2) not spread it. I'm happy to send the registration link and person to email, but please take time to think about the commitment involved in signing up to be a literal human guinea pig.

ben.donatowoodger The pandemonium isn't over and still sucks but at least we now know it's airborne, prevention technology is more accessible, and we have vaccines. Many layers of defense allowed our household to keep one case one case, not lead to transmission. #COVIDISNOTOVER #MASKUP

Here he is with Toronto Mayor Olivia Chow, who herself pushed the “double jab” COVID-19 and Influenza Vaccines.

My Take...

Is COVID-19 Vaccine Injection ADDICTION a real phenomenon?

I believe it is.

[From The Recovery Village:](#)

“[DrugAbuse.gov](#) offers an insightful explanation based on brain image studies from people addicted to drugs. The study found, physical changes in areas of the brain that are critical for judgment, decision making, learning, memory, and behavior control in addicted people. Scientists believe that these changes alter the way the brain works and may help explain the compulsive and destructive behaviors of an addicted person.

In this case, addiction is demonstrated as both a mental, or psychological, and chemical, or physical, affect in the brain, thus providing evidence that addiction is both psychological and physical.

Not to mention, addictions are formed because they influence the part of the brain that controls pleasurable feelings—those creating a strong desire to recreate the pleasurable feelings associated with substances. Every single drug affects dopamine levels in the brain, creating the reward response, or formed need to keep supplying it with the substance.”

COVID-19 mRNA Vaccine Propaganda targeted dopamine levels of recipients with endless rewards

There has been no other medical procedure in history, that has been associated with so many rewards, as COVID-19 Vaccines have. Here is just a sample of such rewards:

- praise from politicians
- praise from the media
- praise from church leaders
- praise from teachers, professors

- praise from doctors, nurses, other healthcare workers

Those who took COVID-19 Vaccines were told they:

- were good citizens
- did the “right thing”, did “their part”
- prevented the spread of COVID-19
- protected others including the elderly, immuno-compromised, children
- protected the healthcare system from collapsing
- protected the economy and small business
- took society out of lockdowns
- were good, ethical, moral, caring people

Those who took COVID-19 Vaccines were given specific rewards:

- received special access to restaurants, sporting venues, and travel when the unvaccinated were restricted from the same activities
- were able to participate in certain sports as athletes or spectators
- received job security (they were allowed to keep their jobs)
- received career advancement in some cases
- received University/College program security (if students)
- received tribal rewards as members of an “approved majority”, members of a dominant (leftist) political movement, members of a dominant cultural (woke) movement
- received discounts on grocery shopping
- received free fries, burgers, donuts, joints, lap dances, ice cream, candy
- received money rewards
- received attention and praise from others on social media

With all of these rewards being constantly offered in exchange for COVID-19 Vaccination, it’s logical to consider that someone with addictive behaviour or tendencies could become addicted to the rewards associated with COVID-19 Vaccination.

Currently, these people are being exploited by mRNA con artists (politicians, media, corrupt doctors, big pharma). If COVID-19 Vaccine addiction is a real phenomenon, as I suspect it is, it adds another layer to “Vaccine Injury” that will have to be addressed over the long term.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom

loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
