28 year old Madeleine Danielle Petite was a teacher and also coached volleyball and basketball at Elberta High School and Foley Middle School

She was diagnosed with Stage 4 Lung Cancer while 24 weeks pregnant and at age 28.

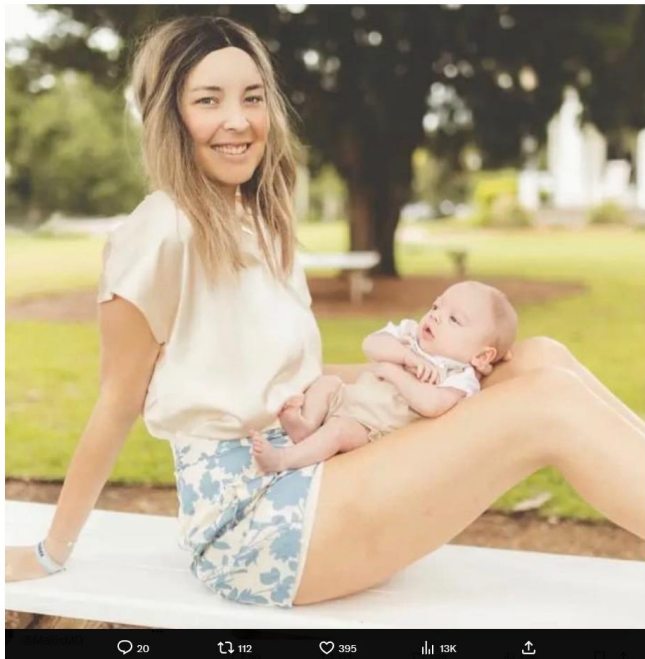

As a teacher, she was mandated COVID-19 mRNA Vaccines in late 2021 at age 25.

“Early 2024, Madeleine was diagnosed with Stage 4 metastatic lung cancer at 24 weeks pregnant.”

“The cancer had spread to her liver, lymph nodes, adrenal gland, bones and her brain.”

“She underwent radiation treatments for 15 tumors in her brain”.

“The cancer had spread rapidly in just a short time without her even knowing it.”

"Sudden And Unexpected" @toobaffled

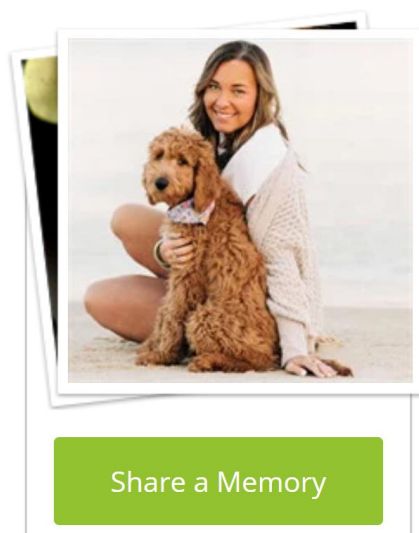

AL: Madeleine, 28, passed away on August 26, 2024.

"Madeleine described as a non-smoking, healthy volleyball coach and teacher at Baldwin County schools was expecting her first child. "Of all the kids, she's probably the most athletic, never gets sick. I didn't see this coming." Madeleine's father, Leon said.

Early 2024, Madeline was diagnosed with Stage 4 metastatic lung cancer at 24 weeks pregnant and then gave birth to her son Harrison Crew, who was premature but healthy. The cancer had spread to her liver, lymph nodes, adrenal gland, bones and her brain. She underwent radiation treatments for 15 tumors in her brain. The cancer had spread rapidly in just a short time without her even knowing it.

In an interview, Madeleine told News 5 that she wants to be remembered not as a cancer victim, but as a person of faith who hopes her story will inspire others.

From the get-go, Madeleine's family said she was born with spunk.

Madeleine Danielle Petite

November 1, 1995 - August 26, 2024

Obituary for Madeleine Danielle Petite

Madeleine Danielle Petite went home to be with the Lord on August 26, 2024 at the age of 28 in Rosemary Beach, FL. She was surrounded by her parents, her son, and her siblings.

Madeleine was born November 1, 1995 in Mobile, AL and grew up in Baldwin County, AL. She was a resident of Elberta, AL.

Madeleine leaves a legacy of love, accomplishment, and most importantly of demonstrating in word and deed her abiding love in Jesus Christ.

She was a loving daughter and sister and on March 19, her heart was filled with even more love at the birth of her son, Harrison Crew. She called being a mother her greatest gift.

Madeleine was an outstanding athlete at Robertsdale High School. She dominated the sport of girls' basketball. As a 4 year Varsity starter she scored more than one thousand points. RHS recently retired her basketball and volleyball jerseys.

Madeleine was also a standout in competitive dance, cheerleading, and volleyball. After graduating from Robertsdale High School, Madeleine attended Auburn-University Montgomery, where she played basketball before transferring to, and graduating from, Auburn University. After college, Madeleine was a teacher and also coached volleyball and basketball at Elberta High School and Foley Middle School. She was beloved by both faculty and students.

Madeleine accomplished a lot on earth during her short 28 years, but it was her spiritual life that brought her the most happiness and strength, especially during her cancer journey. Madeleine was grateful for each day God gifted her and she used those days to try and be a force for Him in the world.

My Take...

Stage 4 lung cancer at age 28 is unheard of.

The only thing that makes any of these stories possible, and there are thousands of them, is **mandating COVID-19 mRNA vaccines on young, healthy people.**

This is a very typical example, you could say "textbook example" of turbo cancer. Features include:

1. Teachers were mandated COVID-19 mRNA Vaccines to keep their job
2. Stage 4 Presentation at age 28
3. Diagnosed during pregnancy (risk factor)
4. Extremely aggressive spread

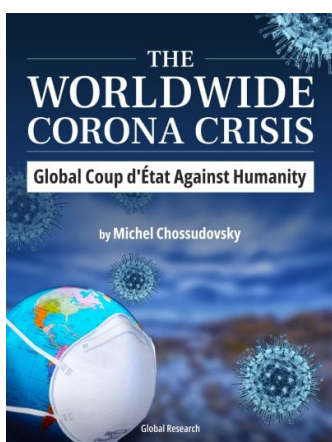

5. No response to chemotherapy or radiation therapy
6. Death within months

When the reckoning comes for doctors who denied this phenomenon and lied about it, it's not going to be pretty.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists.
—**Peter Koenig**

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –**David Skripac**

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place. –**Edward Curtin**
