I was recently on the Stew Peters Show discussing how Canada is moving towards euthanizing Canadian children without parental consent, and how this is being led by Trudeau Liberal Senators and Liberal members of parliament. ([click here](#))

Alberta begins vaccinating minors without parental consent

On **March 2, 2023**, Alberta Health Services issued new guidelines on COVID-19 vaccination in the province of Alberta. ([click here](#))

“All Albertans six months of age and older are eligible (to get COVID-19 vaccines)”

“Moderna - approved for age 6 months and older”

“Pfizer - approved for age five and older”

This is standard procedure from Alberta's corrupt and grossly incompetent healthcare leaders who earn \$700,000 a year to force toxic experimental pharmaceutical products on Alberta's children and pregnant women.

But hidden in the guidelines is a shocking revelation that Alberta has now begun vaccinating children for COVID-19 without parental consent:

Youths Under 18

Q: Is consent from a parent or guardian required for a minor to be vaccinated?

A: Parental consent for minors under the age of 18 is required. In some circumstances, a minor may be determined to be a mature minor who has the capacity to consent to being vaccinated on their own behalf. This is determined on a case by case basis.

Q: Does a parent or guardian need to accompany the minor to their immunization appointment to provide consent?

A: If the parent is unable to attend the appointment, the minor can bring a signed [consent form](#). Verbal consent from the parent/guardian at the time of the appointment is preferred.

In circumstances where a minor does not have signed consent form but is deemed mature by the attending immunizer, parental consent is not required.

Providing immunization for a mature minor and the assessment leading to this decision by the attending immunizer is done on a case by case basis.

Notice 2 things:

1. **There is no age limit to what constitutes a “mature minor”**
2. **Guidelines don’t describe what is meant by “in some circumstances” and “on a case by case basis”.**

Campaign countering vaccine misinformation receives new funding of \$1.75 million

#ScienceUpFirst project is steered by health law professor Timothy Caulfield
Helen Metella - 29 April 2021

A social media project that counters misinformation about COVID-19 and is guided by University of Alberta Faculty of Law's Professor Timothy Caulfield has received additional federal funding to promote vaccination confidence.

ScienceUpFirst will receive \$1.75 million of the \$2.25 million investment announced on April 29 by federal Minister of Health Patty Hajdu through the Immunization Partnership Fund. The IPF supports projects that encourage vaccine acceptance and uptake.

"The spread of misinformation does real harm," said Caulfield, Canada Research Chair in Health & Law Policy and research director of the Health Law Institute at the University of Alberta.

"It is having, for example, an adverse impact on vaccine uptake and on the adoption of preventative public health strategies. It is also fueling fears and polarized public discourse. With ScienceUpFirst, we are countering misinformation on social media with proven strategies: humour, creativity, empathy, and the best available scientific evidence."

ScienceUpFirst addresses misinformation in Canada by giving Canadians the tools to amplify science-based information about COVID-19 and vaccines. Drawing on a network of scientists, healthcare providers, and science communicators, this national initiative aims to debunk misinformation with credible COVID-19 facts, as well as reach vulnerable populations with culturally relevant and scientifically accurate COVID-19 information.

Timothy Caulfield is a Trudeau Foundation Fellow ([click here](#)), who received more than \$2 million from the Trudeau Liberal government to "encourage vaccine acceptance and uptake". ([click here](#))

He has been aggressively pushing mRNA vaccines in Canada and it's no surprise that he was pushing for children to be vaccinated without parental consent as far back as 2019, before the pandemic started.

This new Alberta AHS guideline allows any of the thousands of woke far left extremist pharma-compromised, vaccine-trigger-happy Canadian doctors to forcefully COVID-19 vaccinate vulnerable children without parental consent, without any repercussions, something that recently happened in the United States.

D.C. mother files lawsuit against doctor who force vaccinated her children with COVID-19 vaccines without their consent or hers...

Exclusive: Mother Sues D.C. Doctor Who Gave Kids COVID Vaccines Without Consent

Children's Health Defense is funding a lawsuit by a D.C. mother alleging a doctor vaccinated two of her children for COVID-19 without her consent after falsely telling the teens the shots were required for school.

This is one of the most sickening stories I've read in months. ([click here](#))

The mother of two children who were given COVID-19 vaccines without the mother's consent is suing the doctor who administered the vaccines.

On Sep.2, 2022, NaTonya McNeil took her two children, age 15 and 17, to a clinic to complete their required annual physical exam for the 2022-23 school year.

Dr. Janine Rethy, director of the clinic, held the children in the examination room longer than necessary and vaccinated them against COVID-19 over their objections and without consulting their mother.

As they were heading home, McNeil said she was shocked when her daughter complained that her arm hurt “pretty bad.” When McNeil asked her why it hurt, **her daughter said she was given the COVID-19 shot, even though she told the doctor she didn’t want it.**

“When she had the needle in her hand and she was coming towards me, I backed up and I asked her what is that needle, and she said it was the COVID shot and I ... told her I didn’t want it and she said, ‘Well it is mandatory, you have to get it in order to go to school.’”

Dr. Rethy allegedly administered the shot to her daughter, and then to her son.

“He’s 14 and he said they didn’t even ask him if he wanted it or not, but when they gave it to him, he said he thought he had to get it because his sister got it.”

According to the complaint, both children received the Pfizer/BioNTech vaccine.

Both children were upset and angry they had been coerced into vaccination, the complaint says.

COVID-19 Vaccine “accidents” involving children

Below are some of the “accidents” that have happened involving administration of COVID-19 vaccines to children. Do you think these were truly just “accidents”?

Oct.29, 2022 - **36 UK children ages 5-11** were given higher than normal COVID-19 vaccine dose ([click here](#))

Jun.15, 2022 - **A 6 year old** received double dose of COVID-19 vaccine ([click here](#))

Feb.14, 2022 - **42 Australian children ages 5-11** received incorrect dose of COVID-19 vaccine ([click here](#))

Feb.3, 2022 - **Two children under age 12 in Kentucky** got COVID-19 vaccines instead of flu shots - lawsuits filed ([click here](#))

Dec.22, 2021 - **Two Ontario children ages 6 and 8** were given adult COVID-19 vaccine dose ([click here](#))

Dec.3, 2021 - **A 3 year old Brandon, Manitoba girl** went for a flu shot, got an adult COVID-19 vaccine instead (COVID-19 vaccines were not approved for 3 year olds) ([click here](#))

Dec.3, 2021 - **A 7 yo boy in Georgia** received adult dose COVID-19 vax ([click here](#))

Nov.26, 2021 - **70 children in Maryland, ages 5-11** received expired dose of Pfizer pediatric vaccine ([click here](#))

Nov.24, 2021 - **More than 100 kids in Iowa** receive accidental double dose of COVID-19 vaccine ([click here](#))

Nov.20, 2021 - **A 4 year old in Boston** went for a flut shot, given COVID-19 vaccine instead ([click here](#))

Nov.17, 2021 - **14 children ages 5-11 in California** received a too-large dose of COVID-19 vaccine at Bay Area Sutter Health clinic, some got sick ([click here](#))

Nov.10, 2021 - **Miami child age 5** was given adult dose of COVID-19 vaccine ([click here](#))

Nov.4, 2021 - **Two Texas children ages 6 and 7 years old** accidentally receive adult doses of COVID-19 vaccine ([click here](#))

Oct.14, 2021 - Couple in **Indiana** took their **kids (4 and 5 years old)** to get flu shots, got adult COVID-19 vaccine shots instead ([click here](#))

Oct.7, 2021 - Many mix-ups between flu vaccine and COVID-19 vaccine ([click here](#))

Sep.29, 2021 - **A 4 year old child in Maryland** went to get a flu shot and got adult COVID-19 vaccine instead ([click here](#))

May 31, 2021 - **A dozen kids ages 12-17** mistakenly got Moderna instead of Pfizer COVID-19 vaccine ([click here](#))

Apr.2, 2021 - **A 8 yo boy in Texas** was accidentally COVID-19 vaccinated ([click here](#))

My Take...

Children are no longer “safe” in the hands of most Canadian and US doctors.

Alberta Health Services is now deliberately harming Alberta children under the Trudeau Liberal concept of “mature minors” which has no age limit. This institution must be purged of its far left extremist Trudeau-allied leadership once and for all.

There are far too many “accidents” involving kids getting a toxic COVID-19 jab their parents didn’t want them to get.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”***ISBN:** 978-0-9879389-3-0, **Year:**2022, PDF Ebook, **Pages:** 164, 15 Chapters
