Hello, I am making this gofund me in memory of my cousin, Destiny Millan, who tragically lost her life on October 23, 2023. My aunt, Juana Millan, was contacted with bad news yesterday. She was told that her daughter Destiny lost her life, but wasn't given any information as to what happened. I don't have any words to explain what my family is going through.

Our beautiful angel was born on January 15, 2002. She grew up in the city of Fullerton with her mother and two sisters. Many can describe her as having a bubbly personality. She always had a smile on her face. She loved to joke around and make others laugh. **She accomplished her dream of becoming a dental assistant.** Destiny had many dreams that she wanted to accomplish. She dreamed of getting married one day and starting her own family. She was also working hard to get closer to God. Destiny was loved by many and will be missed.

Oct. 14, 2023 - Pittsfield, MA - Nicolette Enhorning-Picton is a dental hygienist who just had a stroke. She is also a high level athlete, ski patrol instructor, Ironman competitor.

Cerebral Vascular Accident Fundraiser

 Paul Gamache is organizing this fundraiser on behalf of Nicolette Enhorning-Picton.

Nicolette Enhorning-Picton RDH, COM, CDA suffered a cerebral ischemic stroke in her sleep on the night of September 3, 2023. She woke up the next morning completely paralyzed on her right side and unable to speak. She made it to Berkshire Medical Center only after texting “HELP” to a friend. She is currently undergoing occupational therapy, physical therapy, and speech therapy at BMC as she can not talk or walk unaided. This is the start of many months of therapy with the goal of returning Nicky to an independent life.

Nicky has been involved in Dentistry for more than 25 years in the Berkshires of Massachusetts. She started as a Certified Dental Assistant for Yarmosky Pediatric Dental. After receiving her Associate's degree in Dental Hygiene, she worked as a Hygienist for Drs. Steve and Louis Yarmosky, Dr. Metzger, Dr. Heltizer, Dr. Sakshaug, Drs. Lisa and Paul Gamache. Nicky has continued her academic pursuits and has recently become Board Certified in Orofacial Myology. She maintains a private practice in Pittsfield. Nicky has presented lectures on this subject to the Berkshire District Dental Society and at the Yankee Dental Conference in Boston.

Nicky is an accomplished athlete. She has competed in the Josh Billings Runaround for many years in the Team, Tin, and Iron categories. She is a member of the National Ski Patrol at Bosquet Mountain where she is also a Ski Patrol Instructor/Trainer. In the summertime, she is a frequent paddler at Stockbridge Bowl. She is an avid hiker of Pittsfield State Forest and Mount Greylock. When not at altitude from climbing, Nicky can be found under the ocean surface. She is a Master Scuba Diver Trainer and has logged over 5000 dives in warm waters all over the world. It is a rare sight to find Nicky sitting still.

Hi! Pictured here is Lisa, and she needs our help! Lisa was recently diagnosed with Invasive and Metastatic Ductal Carcinoma Stage 3 breast cancer. She is a single mom who is the sole provider for her household, and she and her children are dependent on her income. With starting chemo and radiation soon, **Lisa most likely will not be able to continue to work as a dental assistant for an undetermined amount of time.** I'm asking for any amount of help for her and her children that we can offer her. Lisa has always been very strong and independent in providing for her children, but she needs help right now. Please consider helping her..any amount will help ease the financial stress of her "normal monthly bills" while she goes through treatment. When we all come together to help, we can help her tremendously. Thank you so much for any and all help as Lisa goes through this! Also, please share this so we can help Lisa as much as possible. Thank you so much!

Revere, MA

Hello everyone in the GFM community. My name is Gabriella Martinelli. I'm 26 years old and August 26th, 2023 was the worst day of my life. I was rushed to not 1 but 2 hospitals and was told I shouldn't of survived past that night. I was as jaundiced as a sunflower. I couldn't remember anything or anyone, not even what year it was, and I didnt have the strength to even walk. They had to put me in the ICU after which I stayed in the hospital for over 2 weeks. They diagnosed me with Liver Disease and have been putting me on 24/7 feeds though my NG Tube. (Which is very difficult at times). However, the scariest part was being told if my blood tests, medications (pills and IV), constant blood transfusions, and procedures don't improve then I would have to be placed on the transplant list undergo a Liver Transplant. At 26 I did not expect any of this to be happening to me and it terrifies me honestly.

This unexpected health challenge has had a profound impact on my daily life. As a result of my medical condition, I have been unable to maintain employment being told i got the job but then later being turned down because of my condition is an awful feeling. It is further exacerbating my financial predicament. **I'm a Medical Assistant** and Assistant Teacher but the loss of income has made it increasinly difficult to cover essential expenses, such as

[Sep. 25, 2023](#) - Miami, FL - 52 year old Ana Rodriguez Sire is a medical assistant who suffered a stroke on Sep. 25, 2023.

Help Ana get through her stroke

Dalgis Caballero is organizing this fundraiser.

Dear Friends and Family,

Ana Rodriguez Sire is a 52-year-old medical assistant and exceptionally strong mother, who suffered a stroke on September 25th, 2023. Thankfully, she was rushed into surgery where they successfully removed the clot in her brain. Unfortunately, she still has a brain edema, paralysis on the left side of her body, as well as, impaired vision and difficulty communicating.

Sep. 22, 2023 - Union, OH - 27 year old Lacey Hite (Medical Lab Technician) mandated to take COVID-19 mRNA Vaccines by her employer, collapsed hours before her wedding and died suddenly on Sep. 22, 2023.

My sweet and beautiful cousin [Lacey Hite](#) passed away completely unexpectedly yesterday afternoon. I wish I would have spent more time with her as an adult but I will forever cherish all the memories of when we were growing up.

I am completely devastated for my Aunt, her brothers and her fiancé whom she was supposed to marry just hours before she collapsed.

I pray she has found her peace and reunited with her Dad who just passed 6 months ago. Please continue to pray for my Aunt, her brothers and Fiancé. 🙏

Rest in Heaven Sweet Angel. ❤️🕊️

Parents: Now that the COVID-19 vaccine is authorized for kids 5-11 years old, it might be time to have a conversation with your kids about what the vaccine is, how getting it could make them feel, and why it's important. Here are a few tips: bit.ly/3EGiDkb

Hospitals across the country are overwhelmed with COVID-19 patients, most of which are unvaccinated. That's why we've joined @MountCarmel, @OSUWexMed & @OhioHealth to call on everyone to get vaccinated now, for your own health and the health of our community. #VaccinesSaveLives

6:00 PM · Nov 3, 2021

Lacey Hite, just 27 years old, collapsed and died before her wedding. She was an employee of Nationwide Children's hospital, who not only forced her to be vaccinated, but they have been relentlessly spreading disinformation about the vaccines

[Sep. 21, 2023](#) - Gilbert, AZ - Elexus Renee is a dental assistant who was just diagnosed with Stage 2B Ovarian Cancer.

Help Elexus with her Cancer Journey

Haley LaRose is organizing this fundraiser on behalf of Elexus Renee.

We finally have answers... Stage 2B Ovarian Cancer. Not what Lex or any of us expected.

On August 10th 2023 Lex went in for surgery to remove an ovarian cyst on her left ovary that had been giving her major issues since October 2022. It was affecting her day to day

life. She became anemic from abnormal bleeding that never stopped and kept getting brushed under the rug by doctor after doctor.

After multiple ER visits, ultrasounds, MRI's and bloodwork all they came back with was "it's just a cyst it'll rupture, you look fine and your bloodwork looks great". Lex has had ovarian cyst for years and the pain and abnormal bleeding felt different this time around.

Around fall 2021 she noticed how tired she was all the time. Brain fog. Very forgetful.

Bloated stomach. No strength when it came to lifting or moving things that used to be easy for her. So she knew something was off. This girl still kept pushing through everyday even when all she wanted to do was curl up into a ball. **She was working two jobs as a dental assistant and nanny** and by the end of the day would come home and pass out the second she laid down.

Hi, my name is Joy & I am a proud single Mom of two amazing kids, 11 & 13. I am a dental assistant & I work hard to provide for my family. I've recently been hospitalized & eventually diagnosed with an autoimmune disease that is treatable but is making me very sick for now.

I missed 2 weeks of work & just need a little help to catch up on rent & bills. I don't have anyone in my life to help me. There's no local rent assistance available & I don't know what else to do. Please help if you can. My kids & I are so grateful!

[Sep. 2, 2023](#) - Chicago, IL - Natalia is a dental assistant who was diagnosed with 2 different BREAST cancers, one Stage 3 and one Stage 1.

Support Natalia during her cancer journey

Becky Richard is organizing this fundraiser.
Created September 2nd, 2023

Becky Richard
Organizer
Chicago, IL

One of our dearest friend's has recently come into very hard times. On July 27th she was diagnosed with 2 separate breast cancers, one stage 1 and one stage 3. She has started her 6 month chemo journey just this week and is ready to kick it's butt. Unfortunately during this time her car decided to break down and has had to be salvaged. With her needing to step away from her work as a dental assistant since her immune system will be compromised, any extra income she was bringing in is on hold. If you know Natalia, you know she is the kindest, most giving person and is very deserving of any financial help that can be given. She is currently surrounded by the love of her family and friends who are making meals, sending baskets full of comfort, driving the kids to sports and helping with appointments. And all while her husband is working and in school. He has been the rock by her and the kid's side so she can focus on getting through her treatments. We are asking for any monetary donations that will go towards down payment for a reliable car, medical bills, and miscellaneous home expenses. We also ask for all your powerful prayers of strength and healing for Natalia and her loved ones. Let's get them to the other side of this as a distant memory!

Sep. 1, 2023 - Reno, NV - Sep. 1, 2023 Karen Kottinger is a physiotherapist. She was diagnosed with Stage 4 Pancreatic Cancer with liver metastases.

Reno Sport & Spine Institute

1d · 🌐

Karen Kottinger is starting her battle with cancer, and needs our help! Please see the go fund me for more details. We appreciate all the love and good thoughts she's received already, she is a fighter!

♥️ <https://gofund.me/5848b27a>

On August 10th, Karen was working full speed in the outpatient physical therapy clinic at Reno Sport & Spine Institute. She was taking care of patients that come to her for relief of pain and to help return them to an active lifestyle.

That night everything changed! Karen went to the Emergency Department due to abnormal lab numbers and by the next morning she was diagnosed with Pancreatic Cancer with Metastatic Disease to her liver. A PET scan confirmed this devastating diagnosis.

One day you are working in a physical therapy clinic, exercising, performing yoga, and the next day you are diagnosed with cancer?!?! Karen has handled the testing, biopsies, scans, and multiple physician appointments with strength and grace.

Karen is such an integral part of this community who is active on many levels. She is a member of Grace Church and volunteers her time in many community activities for children and adults.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom

loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
