So far, the 21st century has become yet another horrific-lawless place in the New and Old World's, with one world war of conquest after another being waged against hosts of innocent people by yet other aggressive invaders; like what occurred in the previous century from WWI onward to the present war in Ukraine and now the war in Gaza; perpetrated by the Americans and their Zionist Jewish allies and partners in still more crimes of world conquest.

What is happening today to the Palestinians in their former homelands of Palestine can be likened to what happened to **indigenous Indians, Black slaves and Mexican peasants in the 18th & 19th century history books of America and Canada's Wild West or Southern ante-bellum states**. By then, these massive ad hoc European colonial societies of their times, with the complicity of the rest of the world's so-called civilized societies, each one champing at the bit to plunder some fresh new piece of the New World for themselves.

During the 17th, 18th, and 19th centuries, all these newcomer colonial European cultures and societies regularly, routinely, murdered, raped, slaughtered and stole, at their whim, everything that belonged to the original inhabitants, while their armies were given carte blanche to maim or shoot to kill innocent men, women, children and elders, without any recriminations whatsoever from their leaders as if the victims were nothing more than unwanted vermin who had to be duly eradicated for the betterment of all, to make way for what was still to come.

Yet now in 2024, thanks to America's latest shipment of 2,000-pound bombs to Israel's settler-colonial racist apartheid state, its Zionists are able to even more

effectively kill or wipe out whole families, villages, refugee camps and settlements of Palestinians; ruthlessly pushing aside, or totally removing, whatever still recalcitrant defenders still remain in their former territories.

The Americans' 2,000-pound bombs sent to Zionist Israel are yet the next phase in the intensification of the bombing of the Gaza Strip and Southern Gaza; while, at the same time, rapidly carving a one mile-wide swath into what remains of the last remnants of Palestine's occupied territories with an illegal super military corridor cut straight through the heart of Gaza, from West to East, that will split Gaza's huge concentration camp, the largest of its kind the world has ever known, into more militarily-controllable sectors of Israel's invasion and its Machiavellian intent to totally eradicate Hamas as a viable threat to impede Zionism's continuing blitzkrieg throughout the Holy Lands, totally destroying, in the process, Hamas as a military threat.

Yet, under international law, the Palestinians and their Hamas defenders, that the Zionists refer to as "terrorists", are absolutely legally allowed to militarily defend themselves and resist, with whatever ways and means at their disposal, the incursions of Zionist Israel's invaders — themselves deemed, under international law, as nothing more than the actual real terrorists, war criminals and invaders they have been for the past seventy-five years; who don't have any right whatsoever to use violence to remove the Palestinians from their homelands.

But Zionist Israel hasn't ever cared a whit what the rest of the civilized world thinks, least of all what the UN's international Criminal Court or its Court of Justice may ever say or do about Israel's blatant genocidal-apartheid intent, because the United States, their arch partner in crime, possesses a perpetual veto in the UN; meaning everything is *in the bag* to block whatever the world ever creatively tries to do to stop the Zionists in their megalomaniacal onslaught, short of a declared war against the Zionists in Israel, the U.S, Canada or wherever else they hold sway in the world's political arena.

Meanwhile, to prepare for its next carpet-bombing campaign, similar to what the Americans once matter-of-factly did to the Vietnamese in Vietnam, the Zionists will no doubt soon use the 2,000-pound bombs, gratis of the Americans, with the same indiscriminate, devastating effect, while countries like Canada and other Zionist-dominated countries throughout the world, will continue to scramble to find yet one bureaucratic loophole after another to continue to ship their military hardware and taxpayer blood monies to Israel.

"The more things change, the more they remain the same", as the old saying goes: "And, it's One, Two, Three, What Are We Fighting For? Don't worry, I Don't Give a Damn, Next Stop is, OH, Who Gives a Damn!", as Country Joe and the Fish once used to chime.

Geo-political Analysts Blame It All on the Powerful Jewish Lobby

Geo-political analysts blame everything that has gone on in the lead-up to the war in Ukraine, and now the war in Gaza, on the actions of the all-powerful Zionist Jewish Lobby and America's Neo-Cons, but they're wrong. It ultimately has less to do with the suffocating presence of the 'Jewish Lobby', or 'American Hegemony' in the U.S., Canada, French, German and British governments, which are only contributing causes of what actually continues to unfold everywhere in the world.

Beyond the Zionist Americans and Israel's assault against the Palestinians; beyond the

Zionist's hatred of the Arab world; beyond the Zionist's desire to create an apartheid state for Orthodox Jews and Evangelical Christians to realize some religious ideological fantasy or biblical 'End of Times' prediction of being lifted into Heaven to be seated beside God for eternity; the chief cause behind all the wars of the past several centuries that continues to fuel all the constant turmoil instead is simply the result of pure, greedy, ruthless, insatiable, soulless, Military-Industrial-Corporate Fascism with no allegiance to anything or anyone else other than itself and its massive, never-ending profits and gains. Period.

This mindless juggernaut has simply been allowed to run totally amuck in the world in recent centuries, with no existent societal, cultural, financial mechanism in place to ever rein in this endemic fascism. It's now the tail that perpetually wags the dog, which, of course, in the Realist School of thought in geo-politics, it ultimately means that, at some point in time, an unavoidable total disaster for the planet and natural world, upon which the human race depends for its very continued survival, is assured.

Nothing on the horizon, seemingly, will ever stop the fascist warmongering Zionist Americans, Israelis or any of their other Western or Eastern corporate allies. Not a final finding of genocide against America and Israel by the UN! Not any rational human diplomatic negotiations! Nor any religious moral prohibition or emotional arm-twisting by the world's Catholics, Orthodox Jews, Evangelical Christians or any other religious body!

Unless, that is, there still even remotely exists the possibility of the Palestinians somehow being able, miraculously, through some acceptable One State or Two-State Solution, to reclaim a significant part of their ancient homelands and then, were such an outlandish, miraculous event remotely possible of ever happening, then spend the next several centuries, as America and Israel so far have unsuccessfully been unable to do, to come to some peaceful, amicable resolution between its neighbors among the Black, Brown and White Races to try to live together with some modicum of civility and harmony.

Perhaps, not even the world, collectively, imposing against the Zionists and Americans a total arms embargo, BDS Movement or some other sweeping financial tactic in Palestine will work. Unless, that is, a miracle of all miracles happens, and the United Nations suddenly finds somewhere deep within itself the gumption, backbone and resolve to unilaterally impose and enforce, with the aid of UN Peacekeeper troops from every nation if need be, the International Court of Justice rulings against the fanaticism of Zionist Israel and America's Neo Cons, and so bring to an end all the murderous madness.

But, of course, that likely never will happen, and probably, even if it did, Zionist fanatics being what they are, would only quite possibly lead to WWII or some unplanned nuclear catastrophe that no one wants.

Which means, in the case of the Palestinians, the world's newest sacrificial lambs on the Mount, as harsh and as blunt as the choice may be, even with all of humanity's collective prayers, well-wishes, protests and physical resistance notwithstanding, another one of those bitter, harsh moments in human history may yet come to pass when it's bend over and kiss your ass goodbye time! Still, Hope springs eternal that it's not quite that time, yet.

So, here's the knotty conundrum the world faces: either passively await the slow but inexorable extermination or removal of the vast majority of the Palestinians from Zionism's racist, undemocratic, apartheid Ersatz Israel; or defy, at all costs, on the ground, to the last human, until everything deteriorates to the point where the unavoidable eventuality of

some monstrous calamity occurring is a given. Aren't the options lovely!
