Patterns have long since emerged. We know that each illegal war of conquest is prefaced by a Public Relations campaign that demonizes the target country's leader and its government as it lies about on-the-ground realities. [Muammar Gaddafi](#), for example, was presented to Western media consumers as a lunatic and despot. The Western narratives, however, were contradicted by the fact that he earned broad-based support from Libyans, all of whom enjoyed public services such as free healthcare and schooling, and a high standard of living.

The same demonization campaign is being waged against the hugely popular [Dr. Bashar al-Assad](#), the democratically -elected President of Syria.

Terrorist -embedded propagandists teach us that he is an evil dictator who kills his own people, and that "he must go"; however, credible evidence inverts this logic.

[Henry Lowendorf](#), a member of the Executive Board of the U.S Peace Council's Peace and Fact-Finding Delegation to Syria — recently returned from Syria — reports, that, "What we saw (in Syria) goes against everything we read in the United States."

He repudiates the Western media's demonization campaign against the government of President Assad and the Syrian Arab Army in these words:

“When you go to Syria, which I did last month, the popularity of the government and the Syrian Arab Army is rampant. It's not out of some dream fantasy. It comes obviously from the government and the army being the only thing between living a secular life on the one hand and the hatred and violence of ISIS and the various other terrorist groups underwritten by the terrorist Saudis and US and their allies on the other. The refugees who don't leave Syria do not flee to the terrorist side, they flee to the government side, in huge numbers. So would all of us in similar circumstances. Syrians do not want their country turned into Afghanistan, Iraq, Libya, Yemen, Sudan, Somalia, or any of the other countries the US has liberated.”[\[i\]](#)

The reality is an inversion of the propaganda lies fed to Western audiences. In fact, President Assad must stay, for the sake of civilization, and for the sake of destroying Western-backed terrorism. Each time Empire succeeds in destroying another country, the problem of terrorism worsens - as might be expected. The destruction of Libya, for example, set the stage for the attempted destruction of Syria.

Weapons stolen from Libyan armouries, thanks to the invasion, were covertly shipped to Syria - all beneath the radar of the U.S Congress.

A recently declassified Department of Defense document[\[ii\]](#) indicates that,

“Weapons from the former Libya military stockpiles were shipped from the Port of Benghazi, Libya, to the Port of Baniyas and the Port of Borj Islam, Syria”

And none of this is accidental. Sustainable Western open-source documentation demonstrates that the growth of terrorism is [willful](#), and according to Western plans.

The plain truth about terrorism	
The Fake Story	"I will not hesitate to take action against Isil in Syria, as well as Iraq", Barack Obama. <i>False:</i> The US bombs ISIS when they attack US allies like North Iraq's Kurds, abandons Syrian Kurds who cooperate with Damascus.
The Cover Story	US ME policy and practice 'created a vacuum' into which extremists like ISIS poured. <i>False:</i> mountains of NATO weapons, logistics and intel do not flow to disaffected Muslims. Washington is not that stupid.
The Real Story	The creation and rise of extremists including ISIS was "a wilful Washington decision." See their own words, below:
 <div style="background-color: yellow; padding: 5px; border: 1px solid black;"> 'Our allies' funded and armed ISIS: "[Turkey, Saudis, Qatar] poured hundreds of millions ... [and] thousands of tons of weapons into anyone who would fight against Assad ... [including] al Nusra and al Qaeda and ... this outfit called ISIL" - US Vice President Joe Biden </div>	
<div style="border: 1px solid black; padding: 5px;"> <p>B. THE SALAFIST, THE MUSLIM BROTHERHOOD, AND AQI ARE THE MAJOR FORCES DRIVING THE INSURGENCY IN SYRIA.</p> <p>C. IF THE SITUATION UNRAVELS THERE IS THE POSSIBILITY OF ESTABLISHING A DECLARED OR UNDECLARED SALAFIST PRINCIPALITY IN EASTERN SYRIA (HASAKA AND DER ZOR), AND THIS IS EXACTLY WHAT THE SUPPORTING POWERS TO THE OPPOSITION WANT, IN ORDER TO ISOLATE THE SYRIAN REGIME, WHICH</p> </div> <div style="border: 1px solid black; padding: 5px; margin-top: 5px;"> <p style="background-color: yellow; display: inline-block; padding: 2px;">US DIA August 2012</p> <p>US ex-intelligence chief on #ISIS rise: It was 'a wilful Washington decision' on.rt.com/6os2</p> </div>	

The propaganda lies, the false flags, the [terrorist-embedded NGOs](#), and the use of terrorist proxies to criminally destroy one country after another, is not only empowering terrorism world-wide, but it is also leading us to engineered conflict with nuclear-armed countries, in particular, Russia.

Whereas the propaganda lies further the causes of barbarity and ignorance, we need a redirection towards the polar opposite: towards trajectories that support civilization, progress, and the rule of law.

Prof. Chossudovsky explains in ["America's 'Humanitarian War' against the World"](#) that

"What is consequently required is a massive redirection of science and technology towards the pursuit of broad societal objectives. In turn, this requires a major shift in what is euphemistically called 'US Foreign Policy', namely America's global military agenda."

We need to shift from Death Industries of the Military Industrial Complex, to Life Industries that serve, rather than destroy, humanity. We also need a strong anti-war movement based on a broad-based support of the truth, and a broad-based rejection of the "governing" lies.
