30 yo Jo Lindner died suddenly on June 30, 2023, allegedly from a brain aneurysm ([click here](#)).

The German fitness guru had built an impressive Instagram following of 8.4 million by posting often about his gym workouts and training regimen.

He was on a podcast a couple of weeks ago on June 6, 2023 ([video here - Bradley Martin's Raw Talk](#)) where he admitted that he was pressured into taking four COVID-19 vaccines and then had an abnormal D-dimer (indicating blood clots) and other abnormalities in the blood.

His girlfriend, Nicha, known as [@immapeaches online](#), shared a bittersweet tribute to the late bodybuilder Saturday [on Instagram](#), reporting an aneurysm caused his death.

Jo is believed to have died from a suspected brain aneurysm, however, this has not been officially confirmed. ([click here](#))

Nicha, his partner wrote: “Yesterday he passed away by aneurysm .. I was there with him in the room.. he put on the necklace in my neck that he made for me ..”

What COVID-19 vaccine injury therapy was Jo Lindner talking about?

In Bradley Martin’s Raw Talk podcast he did on June 6, 2023, he talked about doctors doing an experimental blood cleansing on him.

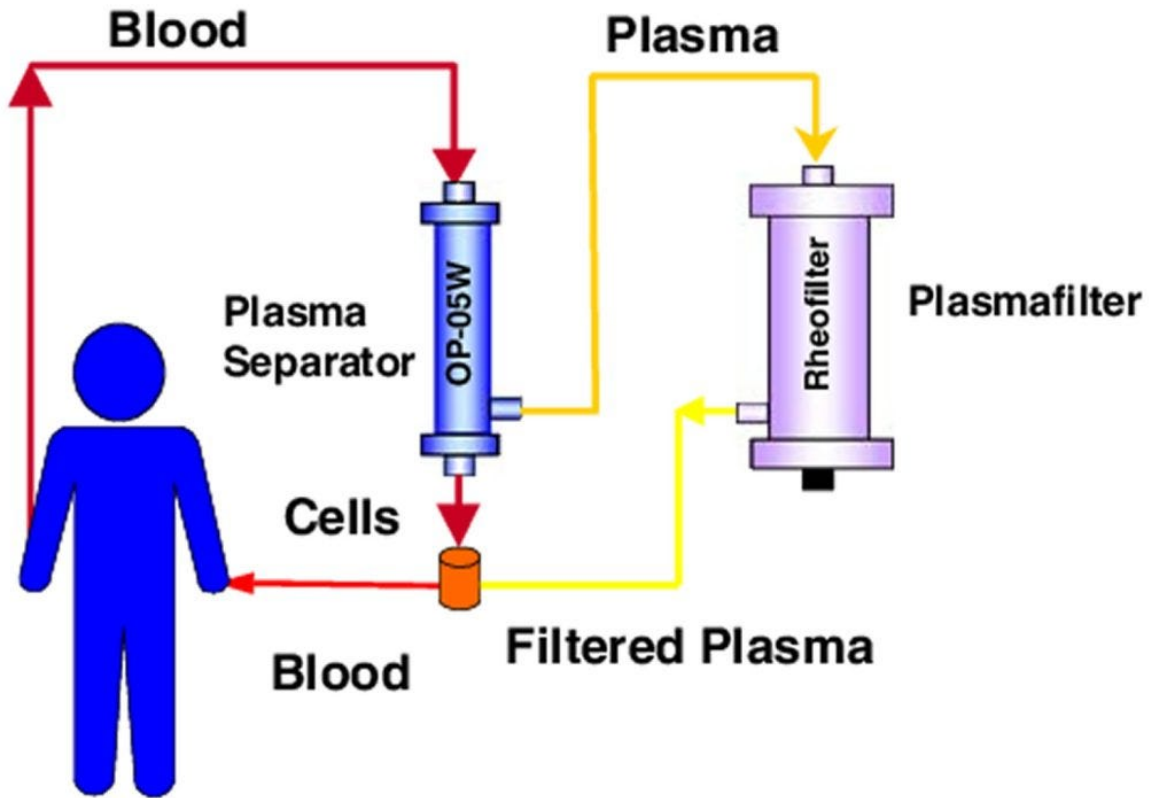

Jo lived in Thailand, so it is possible he would find doctors who were open minded and willing to try treatments on him.

What he describes is plasmapheresis, a procedure where plasma is removed from the blood, filtered and then returned. He claims he had this done and it removed “heavy metals” and “particles” from his blood.

He also claims his D-Dimer returned back to normal after doing this procedure, which is not available to people in the US or Canada.

I have not seen any evidence that plasmapheresis helps the COVID-19 vaccine injured.

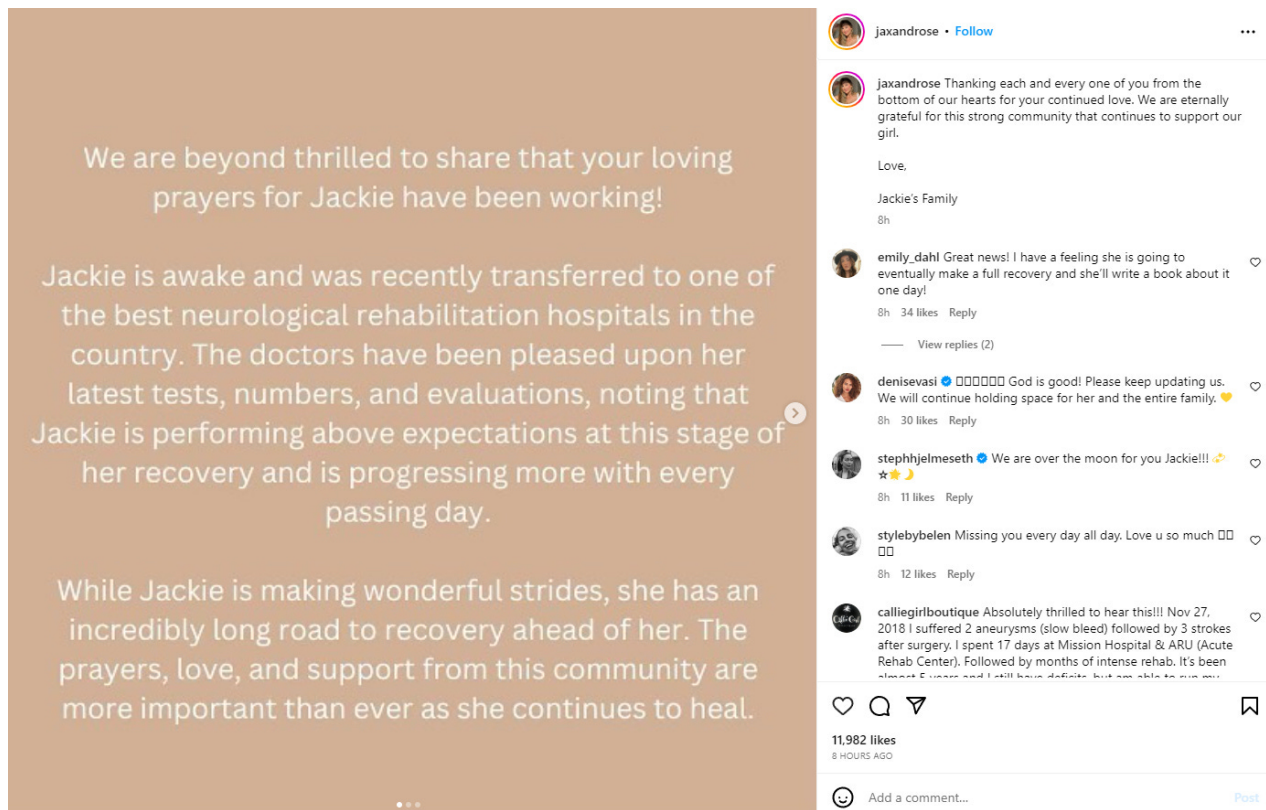

California Instagram influencer 35 yo Jackie Miller James, 39 weeks pregnant, collapsed on May 18, 2023 with a ruptured brain aneurysm, was in 5 week coma ([click here](#))

Jackie was found by her husband, Austin, on May 18, 2023, and was rushed to the emergency room and into an operation where they performed an emergency C-section and brain surgery simultaneously.

“Twelve days after this incident, Jackie remains in a medically induced coma and has undergone five separate brain procedures.”

She awoke from her 5-week coma on July 2, 2023:

“Jackie is awake and was transferred to one of the best neurological rehabilitation hospitals in the country,” the post says.

The baby was hospitalized in a neonatal intensive care unit for 12 days and was doing well. ([click here](#))

A GoFundMe campaign has raised \$330,000 so far. “This GoFundMe campaign was started to provide a way for family and friends to help Jackie secure the highest level of care,” the campaign added. Her sisters shared that her medical costs will include speech and physical therapy and “home modifications” when she is eventually released.

May 24, 2023 – San Francisco, CA – Scott Coker Free is an actor living in SF ([click here](#)). He had a heart attack on May 24, 2023

thepippilovestocking UPDATE: Hello everyone what you heard is true. I almost died on May 24 the evening of Heklina's memorial in the Castro. I had a cardiac infarction but I was sitting in the audience and luckily made it to Davies in time for surgery, but unfortunately, my hands were permanently affected, and now sadly must be removed. So I have to move forward in life without the use of my hands or feet, and it's a very Grim prospect but it's a reality that I'm

FEBRUARY 24, 2022

Scott has admitted to being 4x COVID-19 vaccinated: "I didn't get vaccinated 4 times to sit at home!" (Feb.24, 2022, Instagram)

He claims he had a cardiac infarction on May 24, 2023. "unfortunately, my hands were permanently affected, and now sadly must be removed. So I have to move forward in life without the use of my hands or feet."

A GoFundme goes on to describe he also had an aortic aneurysm: ([click here](#))

"After an Aortic Aneurysm and a three week stint in the ICU, Scott has lost all functional use of his hands and feet, along with other complications."

Help Pippi Scott Coker Free recover!

Jordan L. Moore is organizing this fundraiser on behalf of Scot Free.

My

Take...

I have written several related substacks on bodybuilders dying suddenly as well as on fatal aneurysms in the COVID-19 vaccinated:

- [March 20, 2023](#) - Brain Aneurysms - Part 1
- [April 21, 2023](#) - Brain Aneurysms - Part 2 (including Jamie Foxx)
- [April 28, 2023](#) - Bodybuilders collapsing and dying suddenly

Jo Lindner had four COVID-19 vaccines. He had abnormal blood work including an elevated D-dimer which indicates presence of blood clots.

He describes doing plasmapheresis to “filter his blood” and claims that his D-dimer levels returned to normal after the procedure. Such a procedure would not be available in the US or Canada.

He claimed there were “heavy metals” in his blood. Those who are concerned about heavy metals in the COVID-19 vaccine vials should consider EDTA therapy or NAC (N-acetyl cysteine).

In the end, he allegedly died of a ruptured brain aneurysm. It is possible the 4 COVID-19 vaccines he took damaged his blood vessels and caused an aneurysm.

Doing a plasmapheresis would have had no impact on blood vessels that were already damaged by the spike protein.

*

Jackie Miller James had a ruptured brain aneurysm in 39th week of pregnancy.

I have written about COVID-19 vaccine complications suffered by pregnant women:

- [May 25, 2023](#) - COVID-19 vaccinated pregnant women are dying suddenly
- [April 4, 2023](#) - Pregnant women having heart attacks, strokes, and dying

As a California Instagram influencer, she would almost certainly have been fully COVID-19 vaccinated.

It is possible COVID-19 vaccines damaged her brain blood vessels, caused her brain aneurysm which then ruptured when she was 39 weeks pregnant, resulting in a 5 month coma and probably life-long disability.

*

Scott Coker Free had an aortic aneurysm and cardiac arrest. It is very possible that his 4 COVID-19 vaccines damaged his blood vessels, creating the aortic aneurysm that caused all sorts of complications.

Qatar World Cup Journalist Grant Wahl also died of an aortic aneurysm at age 48, on Dec. 10, 2022, which ruptured during the Argentina-Netherlands game.

*

I have to note for the record that big pharma and the media have already come after me for exposing the link between COVID-19 vaccines and fatal aneurysms.

I was hit with a “fact check” from “[Politifact](#)”:

“The [CDC](#) does not list brain aneurysms as a common side effect after COVID-19 vaccination in any age group.” I bet it doesn’t.

“The text in this Instagram post appears to have come from an April 21 [Substack article](#) by William Makis, a Canadian physician who has [spread misinformation](#) about COVID-19 [vaccines](#).”

“We rate this claim False.” (sponsored by Pfizer)

To be honest, I’m not going to lose any sleep over this “fact check”.

But whenever you see a fact check about COVID-19 vaccines, you can bet it is a topic that the COVID-19 big pharma cartel is very concerned about.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

ISBN: 978-0-9879389-3-0, Year: 2022, PDF Ebook, Pages: 164, 15 Chapters
