Supporters have clapped and cheered in court after a doctor who clashed with regulators over COVID-19 vaccines had a medical ban lifted.

Dr William Anicha Bay had his registration as a medical practitioner suspended by the Medical Board of Australia on August 17, 2022 in response to five complaints involving his anti-vaccine activities.

Brisbane **Supreme Court Justice Thomas Bradley** overturned that suspension on Friday after finding Dr Bay had been subject to “bias and failure to afford fair process” over complaints unrelated to his clinical practice.

Justice Bradley said he was not entering the debate about COVID-19 vaccines.

“The court is concerned only with whether the decision or the conduct (of the medical board) was free from an error,” Justice Bradley stated.

One of the complaints was that Dr Bay had posted a social media video claiming COVID-19 vaccines had killed his patient and harmed others.

Another complaint stated Dr Bay had attended an anti-vaccination protest outside the Australian Health Practitioner Regulation Agency (AHPRA) office in Brisbane in July 2022.

A health professional filed a mandatory complaint that Dr Bay had interrupted an Australian Medical Association conference while live streaming video to the internet, yelling “stop forcing these vaccines on the people of Australia who are getting killed by them”.

The medical board found Dr Bay’s public statements undermined medical regulators’ “position on COVID-19 and the COVID-19 vaccination”.

It said his statements also “further contravenes the position of local, state and federal government and health authorities, which are in place to protect public health and safety”.

Justice Bradley said the COVID-19 pandemic was an “extraordinary period of history” in which governments encouraged widespread vaccine use.

However he said that did not allow the medical board to deny Dr Bay information about the complaints or disregard potential bias at hearings.

“None of these measures extended the board’s regulatory role to include protection of government and regulatory agencies from political criticism,” Justice Bradley said.

He ordered the medical board and AHPRA to cover Dr Bay’s reasonable legal costs as the regulators had extended the proceedings and made partial admissions at a late stage.

The Worldwide Corona Crisis, Global Coup d’Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden "plandemic"; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that "there is no causal relationship between the virus and economic variables." In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky's book provides a comprehensive lesson in how there is a global coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. —Edward Curtin
