[Global Research Wants to Hear From You!](#)

*On Wednesday May 1st, the House overwhelmingly passed the [Antisemitism Awareness Act](#) by a 320-91 vote, with only 21 Republicans joined by 70 Democrats against it. Expanding the scope of what is legally considered antisemitism, this is another bipartisan uniparty trap to ensnare the thousands of protesters exercising their free speech against the apartheid Israel's extermination of Palestinians, **in effect criminalizing those that are [critical of the genocide](#). This is piece of legislation is a betrayal of our First Amendment rights and a betrayal of the American people, and a testimonial how AIPAC Israel through bribery and blackmail have turned our constitutional republic into a totalitarian technocratic police state.***

Foreign national influence is outlawed in the United States except with one exception, the American Israel Political Action Committee (AIPAC) that allows Zionist Israel money and bribery control to essentially own the treasonous US Congress.

Through intelligence agencies Mossad, CIA and MI6 in addition to AIPAC, **US politicians are systemically coerced, bribed and blackmailed into unconditional support for Israel.**

As [Tucker Carlson](#) admitted recently to Joe Rogan, politicians are afraid to not vote in line with these intimidation tactics imposed by foreign agent operatives, that threaten kiddie porn on their computers or truth exposing pedo-blackmail activity, to ensure that Zionist Israel always gets what it wants with total impunity. With this kind of captured control over politicians, and now with this latest antisemitism law, dare criticize Israel or Zionism or Jewish power, it can now get us locked up under antisemitic hate speech. Zionist bloodline moneychangers like the Rothschilds and Rockefellers would not want it any other way.

A Thursday May 2nd [Truthout](#) article states:

House lawmakers voted overwhelmingly Wednesday to approve legislation directing the U.S. Department of Education to consider a dubious definition of antisemitism, despite warnings from Jewish-led groups that the measure speciously conflates legitimate criticism of the Israeli government with bigotry against Jewish people.

Uniparty Republicans and Democrats passing this new antisemitism bill destroying US Constitution's First Amendment that guarantees our citizens' free speech rights, confirms that US Congress panders and grovels in submission to their master Zionist Jewish State and its bloodline master founding owner, the Rothschild banking cartel. America's uniparty is owned and operated by foreign agent AIPAC Israel.

Again, look at what inexhaustible lengths our Congress goes to, to protect the rights, security and safety of Jews, while Palestinian Arabs are brutally massacred daily and American citizens' disappearing constitutional rights, our safety and national security are blatantly trampled upon.

Only the apparent "chosen ones" receive preferential legal protection under bipartisan US law, while all the rest of us members of the human race, to Israel and US Congress, are all Palestinians in the genocidal crosshairs of our common Zionist Darkside enemy.

My article on *Global Research* last week is titled ["In Defense of Genocide and War on 'Antisemitism', There Go Our Constitutional Liberties."](#) I cite the increasing number anti-hate speech laws grossly conflating criticism of Israeli genocide with antisemitism conveniently misused to falsely justify criminalizing and silencing our fundamental First Amendment rights of free speech, including the right to assemble for peaceful protest.

Image: Rep. Thomas Massie (Licensed under CC BY-SA 2.0)

On Saturday April 27th, **Rep. [Thomas Massie](#)** (R-KY) called out his colleagues over this very same issue:

Some of my colleagues are introducing legislation to create federally sanctioned 'antisemitism monitors' at colleges. I'll vote No. Policing speech, religion, and assembly is not the role of the federal government. In fact, it's expressly prohibited by the U.S. Constitution.

In a related news story illustrating how the will of Zionist Israel controlling America through AIPAC bribery and Anti-Defamation League (ADL) as Israel's thuggish [enforcer](#), the bought

and sold US Congress completely abandoned the will of the American people demanding that the recently passed FISA law be stopped or amended. The ADL/Conference of Presidents of Major American Jewish Organizations actively lobbied Congress emphasizing the FISA renewal was necessary to keep Israel, Jews in the US and all Americans safe from terrorism.

The need for spying without warrant on anti-Israel/pro-Palestinian protesters was used to sell the FISA law's passage as the biggest domestic surveillance legislation since the subversive Patriot Act. The alleged "rise of antisemitism" events in America hyped artificially by the mainstream media also helped pass the law during the current wave of college campus pro-Palestine protests.

ADL CEO Jonathan Greenblatt is attempting to create a legal framework whereby pro-Palestine protesters are charged with providing material support to the designated foreign terrorist organization Hamas. This move along with inciting antisemitic hate speech are the legal angles currently in process to violate and eliminate our First Amendment free speech rights that includes the right to protest. The mass arrests of hundreds of peaceful student protesters across US campuses is part of this unconstitutional dystopian agenda.

ASL's Greenblatt showed up at the Columbia University campus calling for the NYPD and/or National Guard to arrest and expel "student agitators" in order to assure the public safety and civil rights of Jewish students since Columbia administration's response was deemed too lax. And as my article alluded to, hundreds of protesters exercising their legal constitutional rights were illegally incarcerated across multiple campuses nationwide. Again, we are rapidly in tyrannical freefall descent towards the Soviet Gulag era.

It seems what Israel, AIPAC and ADL Zionists want, Israel, AIPAC and ADL Zionists get.

The anti-Israel genocide/pro-Palestinian saga has continued for several weeks across numerous college campuses. On Tuesday April 30th, at where demonstrations first started at Columbia University, and also now at City College of New York (CCNY) in New York City, a large [NYPD contingent](#) cracked heads in its crackdown on protesters, arresting hundreds of students sick and tired of Bibi the Butcher's wholesale slaughter of an entire people, fully protected by the US and the globalist powerbrokers.

Additionally, violence broke out at [UCLA](#) in Los Angeles late Tuesday night April 30th, when an armed pro-Israel mob of agitators [assaulted](#) assembled peaceful anti-Israel protesters. The Mockingbird controlled Mainstream Press described the scene of the two opposing camps as "clashing" with each other. But this was not true. Up to 100 pro-Israel agitators dressed in black fired [fireworks projectiles](#) into the crowd of protesters, reportedly injuring some. Law enforcement showed up late and appeared to allow the attack. The following night on Wednesday May 1st, in militarized police state riot gear a show of force army was dispatched including LAPD, California Highway Patrol, LA County Sheriffs and UCLA campus police.

In their demands for immediate ceasefire to the Gaza genocide and divestment of all university funds to Israel that support, enable and condone the Israeli genocide, in addition to the campus encampments, recently protesters are taking over university buildings, a flashback to the past anti-Vietnam War days.

Just as the antiwar activists of over a half century ago were morally vindicated acting in

protest on the right side of history, despite being beaten and abused by law enforcement for years, similarly, the vast majority of peaceful protesters today are also being manhandled and unlawfully arrested, and again they too are on the right side of history. Genocide is wrong and the perpetrating offender nation must be brought to justice.

The federal police state in today's America, largely trained by in Israel by the Israeli Defense Force, is aggressively being mobilized to suppress this current wave of this peaceful protest movement. Student protesters are in some cases being beaten and falsely arrested, but also suspended and some expelled from school. Many college administrations are actually shooting themselves in the foot, since in recent times, colleges have seen significant drops in enrollment, and some of these higher educational institutions cannot afford to lose their high cost tuition revenue stream. But as I mentioned in my article last week, this mass protest as an anti-genocide movement has been co-opted and infiltrated by George Soros paid activists and agitators, clearly intent on discrediting the protesters, inviting coordinated police state crackdowns nationwide, making peaceful assembly protest in America increasingly against the law. The thugs that attacked protesters at UCLA fall into this category.

The anti-Israel movement has largely been [negatively](#) slanted by the mainstream press. Thus, anti-Zionism equates to antisemitism.

The media purposefully downplays the murderous Israeli atrocities while hyping up the "antisemitic" protesters as hateful and violent toward victimized Jewish students. False headlines like "Jewish student stabbed in the eye" is really no different from Hamas militants on October 7th "chopping off the heads of babies" and raping droves of Israeli women and girls, all later proven to be fabricated fake news propaganda.

The Gen-Z demonstrating on college campuses are often portrayed as pro-Hamas terrorist supporters, and a criminal threat to society. Don't be fooled by these lies and falsehood used to usher in hate speech antisemitic laws. Meanwhile, last week's story of nearly 400 Palestinian [mass graves](#) at Gaza's hospitals is quickly buried and largely swept under the rug. Again, this hybrid war is between truth and lies, good and evil, human rights and tyranny, life and death. Take your pick.

All this is so predictable because we've seen this movie rerun many times before. This long-planned unfolding scenario today becomes the current fascist Marxist totalitarian regime's excuse to throw out America's free speech First Amendment rights as our God-given fundamental human liberties, guaranteed by our Founding Fathers' Constitution as a constitutional republic. The brand-new antisemitism law passed on Wednesday May 1st and last week Congress legislating a ban against TikTok has drawn [criticism](#) not only as a free speech violation for 170 million TikTok users in the US, but also to ban dissent against Israeli genocide. The bill was [heavily backed](#) and lobbied by strong support from both ADL and Jewish Federations of North America. In the face of mounting evidence of genocide and the International Criminal Court's investigation of genocide, at the end of March the US just sent another batch of fresh one ton and 500 pound bombs as part of Israel's [\\$3.8 billion](#) annual military aid. But that cash cow giveaway also included a longstanding provision limiting aid to the West Bank's governing body, the Palestinian Authority, [specifying](#):

If Palestinians initiate an International Criminal Court (ICC) judicially authorized investigation, or actively supports an investigation, that subjects Israeli nationals to an investigation for alleged crimes against Palestinians.

This clearly shows how under threat of withholding Palestinian aid and starvation, the US government insidiously shields Israel from all criminal accountability under the auspices of the UN's International Criminal Court while sending yet more bombs. This is the same court that "[Bibi the Butcher](#)" Netanyahu just asked Biden to intercede on his behalf to prevent ICC from issuing Netanyahu and his government an arrest warrant for genocidal war crimes.

Then last Wednesday April 24th, Biden signed into law an aid package passed by the House by a 366-58 margin, [rewarding](#) Israel another whopping [\\$26.4 billion](#) for its heinous genocide, on top of passing a law the same day banning TikTok in the US and now this week's antisemitism act. These laws are all over-the-top pro-Israel, pro-genocide, in total defiance of the will of the American people, overriding their constitutional right to freely criticize this Jewish rogue State that enjoys complete immunity from prosecution for its flagrant violations of international law. This jam-packed pro-Israel legislation within seven days of each other reminds America and world the US government works far more on behalf of Israel than it does America.

Moreover, it's an overtly dangerous indication that the US federal government is aggressively silencing and outlawing Americans' right to dissent, protest and exercise free speech, while condoning and protecting Israeli genocide and war crime atrocities in favor of unconstitutional censorship, suppression and unlawful criminalization. All Americans should be joining the college students in mass protests against our own government's all too obvious treasonous betrayal in addition to the genocide. We the People need to hold both the Israeli government as well as the US government to account for their appallingly egregious, thus far unprosecuted crimes.

The US and Israel should not be above the law, but if no court, agency or organization with the legal, political and economic will, clout and teeth is in place to hold them accountable, then they can and still will get away with murder and genocide. With the geopolitical and economic power dynamics shifting currently from unipolar kingpin America led Western bloc to the multipolar Global South nation majority led by Eastern powers Russia and China, gradually the international community is in a position to effectively hold them and in fact, any nation that flagrantly violates international law accountable.

Other nations are gradually becoming more empowered and assertive enough to be openly critical of the US hegemon, for the first time able to exercise their voice autonomously without fearing US sanctions, regime change or invasion. For example, at least on a rotational basis, members outside the five permanent UN Security Council nations are now included. A number of new members have been welcomed into the expanding [BRICS](#) economic and strategic alliance as a competing alternative to Western G20 dominance and new gold back currency, surpassing G20 in both GDP holding over half the world population. Perhaps in compensation, the [African Union](#) is now a permanent member of G20. All these recent changes reflect the global balance of power moving away from US/Western hegemony towards a multipolar world plurality.

Whether these two pariah nations, US and Israel, can finally be held accountable as Russia and China ascend to global leadership roles in this polarizing multipolar world remains to be seen.

Clearly, provocation by the globalist controlled Western bloc currently with its strength rapidly waning both economically and geopolitically, is undergoing militarized mobilization, seemingly instigating at the elite's behest, an insane World War III against the Eastern bloc

of nations. The Eastern axis, comprised of Russia, China, Iran and North Korea, with either neutral or tacit support from the Global South majority, if the approaching world war remains short of strategic nuclear exchange, the Eastern powers will decisively defeat the West. This destructive outcome appears to be the deliberate intention of the globalists, to destroy the West through drastic depopulation, and with only a half to one million survivors left on earth, the bloodline elites hope to attain their coveted totalitarian technocratic one world government wielding absolute power and control.

Meanwhile, the polarizing pathway now in process has the South American nation Colombia taking the lead after South Africa in recent months presented its evidence of Israel genocide to the International Court of Justice, which largely deferred the case. But On Wednesday May 1st, this ongoing, near 7-month Gaza genocide compelled Colombian **President Gustavo Petro** to announce that his country is severing its diplomatic ties with Israel. Hopefully many more nations will follow suit. President Petro declared:

Here, in front of you... as the president of the republic, I announce that tomorrow, on May 2, we will break off diplomatic relations with Israel for having a genocidal government. A time of genocide, of an extermination of an entire nation before our eyes, cannot return... If Palestine dies, humanity dies.
