

Arrest of Telegram Founder Is Latest Episode of Globalists' Tyrannical War Against Truth

Two weeks ago, I was prompted to [write](#) "Censorship on Steroids: Truthteller Alert," in response to unprecedented internet censorship, co-timed with increasing persecution of highly visible truthtellers.

Nearly a decade ago, I wrote a Global Research [article](#) entitled "A History of America's War on Whistleblowers and Journalists Since 9/11."

The list of dead American whistleblowers and journalists is long - [Shireen Abu Akleh](#) in 2022, [Michael Collins Piper](#) in 2015, [Serena Shim](#) in 2014, [Mike Ruppert](#) in 2014, [Michael Hastings](#) in 2013, [Jack Wheeler](#) in 2010, [Roland Carnaby](#) in 2008, [Gary Webb](#) in 2004, [John O'Neill](#) on 9/11, [Danny Casolaro](#) in 1991, all likely targeted extrajudicial political assassinations. These bold truthtellers paid the ultimate heaviest price telling the truth, determined to expose the egregious crimes committed by the [Zionist controlled pariahs](#) Israel and its lapdog American government.

The "planetary controllers" know that the masses are finally waking up like never before, increasingly aware and angry over the powerbrokers perpetuating their forever crime spree against both humanity and [children](#) with total impunity.

Thus, to save themselves, Western governments have declared war against the truth and all truthtellers.

People on this earth are now realizing that those occupying Western government offices of power are demanding World War III be ignited on two active warfronts in Ukraine and the Middle East, with an imminent third theater of operations in Pacific Asia. And, for the first time in humans' history, all [three fronts](#) of this global war will be fought between rivaling nuclear powers.

With bankers' wars ruling our planet for centuries, at will, the moneychanger controllers have been creating and financing both sides to every global conflict through divide and rule deception as their M.O.

This presentation is twofold, providing cursory glimpses into both the recently stepped up high-profile arrests and attacks against a handful of the most visible truthtellers as well as the coordinated global assault against internet users expressing their free speech rights, also increasingly arrested on bogus charges of "hate speech" and/or [antisemitism](#) crimes.

With the recent political unrest and riots in the [United Kingdom](#), the Kier Starmer government is arresting internet users for simply criticizing the foreign invaders and their

rising crime rates.

Those British citizens exercising their human right to peaceful assembly protest are beaten and imprisoned by police while crimes committed by those invaders from other nations go virtually unpunished. The two-tiered (in)justice system, driven by DEI ([Diversity, Equity, Inclusion](#)) and identity politics mandates, means that free speech is now a crime under emerging hate speech law increasingly applied across all Western nations toward critics of Israel's genocide or of foreign asylum seekers.

Even more appalling is the [top cop](#) in Britain threatens to extradite internet users in other countries critical of Britain.

EU minister [Thierry Breton](#) even made written threats of lawfare to Elon Musk prior to his interview with the leading US presidential candidate, former President Trump, claiming certain topics were off limits as misinformation or potential hate speech. Next month's [UN Summit of the Future](#) agenda per its documents is implementing the infamous Agenda 2030, which is the globalist NWO model, outlining global limits on free speech. These are all clear signs of total tyranny against both private citizens online in their own homes as well as public citizens and former presidents.

The entrepreneurial Russian founder of the internet platform app Telegram, [Pavel Durov](#), who stands out as a stalwart protector of our [privacy and freedom](#), as of August 24th is now locked away in a French jailcell. Upon arrival at Paris-Le Bourget Airport, Durov was detained. The French government arrested him as part of a preliminary investigation for Telegram platform's insufficient moderation, its encryption tools, alleged lack of police cooperation rendering him bogusly "complicit in drug trafficking, pedophilia offenses and fraud." These charges are simply a groundless, over-the-top cover for Durov's vehement protection of free speech. Moreover, the core reason for arrest is related to Iran hackers disclosing on Telegram sensitive classified Israeli documents revealed on August 21st by the Israeli newspaper [Haaretz](#) titled:

After Iran Steals Sensitive Israeli Data, Israel Tries to Censor the Internet

During a recent trip to America, Pavel brought along his Telegram engineer who was approached by US intelligence services attempting to recruit him to secretly install backdoor to spy on the privacy data of all Telegram users.

Unlike other hi-tech entrepreneurial sellouts like Facebook's Mark Zuckerberg who sells users' private data while working directly in collusion with the Big Brother 1984 Orwellian government in Washington to collect surveillance data on every citizen to be unconstitutionally used against us, Durov stood up to this oppression steadfastly preserving our individual human rights and civil liberties that guarantee freedom of speech.

Pavel Durov was granted multiple citizenship status in other countries including France in the West because he is painfully cognizant of his own homeland Russia's even longer track record cracking down on citizens' free speech. As a holdout for freedom, Pavel apparently has replaced the now free [Julian Assange](#), released in June after 11-years of cruel US-UK bondage,

Durov becoming the newest martyred upholder of our lost human rights.

We who still value our civil liberties now vanishing so rapidly amidst today's one-world government power grab, plunging humanity into neo-feudal enslavement, must push back with all our collective might against this dystopian slaughter of both our disappearing freedoms as well as our very lives, "since we are all Palestinians".

The arrest of Pavel Durov followed just four days after British independent journalist Richard Medhurst's announcement that he was just arrested and detained for 24-hours at London's Heathrow Airport under UK's Terrorism Act. With a Syrian mother and British father, both awarded Nobel Peace Prize in 1988 for their work as UN Peacekeepers, this young journalist with 321,000 subscribers on [YouTube](#) has been critical of the Palestinian genocide by the criminal state of Israel. Richard extensively covered the [Julian Assange extradition case](#) in London. During the recent psyops of "right-wing" riots in the United Kingdom, the Starmer government used the timing to grab Medhurst at the airport on totally bogus charges to send the message for other prominent truth-tellers to keep their mouth shut.

At exactly the same time, the UK's Starmer government went after outspoken dissident reporter Richard Medhurst, after the US Department of Justice obtained a search and seizure [warrant](#), on August 19th the DoJ's weaponized [FBI raided](#) the upstate New York home of former weapons inspector-journalist-analyst Scott Ritter seeking evidence of collaborating with demonized Cold War enemy Russia. A month or so earlier, the US State Department confiscated Scott Ritter's [passport](#) pulling him off a plane headed to a media conference in St. Petersburg, Russia.

All these blatant, unlawful crimes being executed against high-profile truth-tellers are a threat to the treasonous governments of the West that have all abandoned their constitutional republics.

Then let's not forget the case of [Reiner Fuellmich](#), the German attorney that led the Corona Investigative Committee compiling overwhelming criminal evidence exposing the Covid-19 pandemic debacle.
