The opinions of prominent scientists who question the lockdown, the face-mask or social distancing are “taken down” by Google:

[“YouTube doesn’t allow content that spreads medical misinformation](#) that contradicts the World Health Organization (WHO) or local health authorities’ medical information about COVID-19, including on methods to prevent, treat or diagnose COVID-19, and means of transmission of COVID-19.” (emphasis added)

They call it “fact checking”. Similarly, Twitter has confirmed that “it will remove all posts that suggest there are ‘adverse impacts or effects of receiving vaccinations’... Twitter will: “memory-hole any posts that “invoke a deliberate conspiracy” or “advance harmful, false, or misleading narratives’ about vaccines.”
