

# Australian Cricket Legend 52 Year-Old Shane Warne Died Suddenly From Pfizer COVID-19 mRNA Vaccine Heart Injuries on March 4, 2022

I called it then - now, 1.5 years later, other doctors are calling it too

\*\*\*

*Australian cricket legend Shane Warne died suddenly of a cardiac arrest at age 52 on March 4, 2022 in his hotel room in Thailand, a few days into his family vacation.*

After reviewing all the available information, I commented on the tragedy on Twitter right after it happened ([click here](#)).

My assessment has stood the test of time (I referred to "died suddenly" 8 months before the movie of the same name produced by Stew Peters was released and launched the viral #DiedSuddenly hashtag):

**William Makis MD** ✓ @MakisMD · Mar 4, 2022

The answer is: yes, he was “fully vaccinated”

Shane Warne - yet another athlete victim of “died suddenly while fully vaccinated”. He was 52 years old

Meanwhile, Pfizer & Moderna stocks continue to drop, while insiders quietly cash out, knowing their Ponzi scheme is over

[#ableg](#)

**Piers Morgan** ✓ @piersmorgan · Mar 4, 2022

Absolutely devastated to hear that @ShaneWarne has died from a heart attack aged just 52.

He was a genius cricketer, a supreme entertainer, a fantastic bloke and a great loyal friend for many years.

Just gutting news.

RIP Warnie, I loved every minute in your company.

William Makis MD

@MakisMD

Nonsense.

The damage from the mRNA coded spike protein to his immune system, heart and possibly other organs

would be #1 on my differential diagnosis, by a very, very wide margin.

At his age, COVID survival rate is 99.7% or 99.8%

Study published from Stanford University  
Epidemiology Professor John Ioannidis:

Survival Rate For Under 20s Is 99.9987%  
<https://www.medrxiv.org/content/10.1101/2021.07.08.21260110>

	Infection Fatality Rate
	0.0013%
	0.0088%
	0.021%
	0.042%
	0.14%
	0.65%
(some)	2.9%
	4.9%

(Age-specific seroprevalence data from 8 serostudies plotted at the age group mid-points.)

7:15 PM · Mar 4, 2022

Little did I know that the next day, on March 5, 2022, my Twitter account would be suspended for 11 months for warning about the dangers of COVID-19 mRNA vaccinating kids 5-11 years old and it would take a \$44 billion purchase of Twitter by the world's richest man, Elon Musk, for me to regain my ability to speak freely on Twitter on Feb. 6, 2023:

**Hi William Makis MD,  
Your account, @MakisMD has  
been locked for violating the  
Twitter Rules.**

Specifically for:

**Violating the policy on spreading misleading and potentially harmful information related to COVID-19.**

We understand that during times of crisis and instability, it is difficult to know what to do to keep yourself and your loved ones safe. Under this policy, we require the removal of content that may pose a risk to people's health, including content that goes directly against guidance from authoritative sources of global and local public health information.

For more information on COVID-19, as well as guidance from leading global health authorities, please refer to the following links:  
[Coronavirus disease \(COVID-19\) advice for the public from the WHO](#)  
[FAQs about COVID-19 from the WHO](#)

This is the Tweet that violated the Twitter Rules.

**William Makis MD**  
@MakisMD

"Pfizer Covid vaccine was just 12% effective against Omicron in kids 5 to 11, study finds" - CNBC The results are actually far, far worse. By week 6, there is negative efficacy of -41%. This mRNA product should be pulled off the market. Now. <https://t.co/jPnf2wjazX> #ableg <https://t.co/KU6EKVCMbD> <https://t.co/eAuFK12v24>

Daily Sceptic Article: Shane Warne died from COVID-19 mRNA vaccine induced heart damage: ([click here](#))

It took almost 1.5 years for other doctors to join me in speaking out about Shane Warne's death:

"Cardiologists Dr. Aseem Malhotra and Dr. Chris Neil, who is President of the Australian Medical Professionals Society, have concluded that the Covid vaccine can cause a rapid acceleration of coronary disease especially in those that may already have undetected mild disease."

"Dr. Malhotra has further concerns that the Covid mRNA vaccines may be masking angina by [damaging heart nerves](#), resulting in patients not experiencing the chest pain that typically precedes a diagnosis of severe blockages in the heart arteries, leading to detection not occurring until it's too late, with the first symptoms often presenting as a cardiac arrest."

Shane Warne was found unresponsive in his hotel room in Thailand [in March last year](#).

The doctors have called for the immediate suspension of Covid mRNA vaccines globally pending an investigation into serious side-effects, including late onset heart attack and

sudden cardiac death.

Shane Warne's best friend, the former international cricketer Dimitri Mascarenhas, has supported the calls, saying Shane himself "wouldn't want others to be harmed".

Consultant Cardiologist Dr. Aseem Malhotra says:

"Shane didn't have the healthiest lifestyle in recent years, being both overweight and a smoker. It's likely that some mild underlying furring of his arteries...rapidly progressed in the months after he received two doses of the Pfizer mRNA Covid vaccine."

Former International England and Indian Premier League cricketer Dimitri Mascarenhas says:

"Shane was my best friend. I'm shocked and saddened to learn that his death was entirely preventable. If he'd not taken the Covid vaccine he'd likely still be alive today. He wouldn't want others to be harmed so I fully support these doctors' calls for an immediate suspension of these jabs in Australia and around the world."

## My Take...

Sometimes I wonder how many thousands of lives could have been saved if Twitter accounts of doctors and scientists like myself, who stood up to big pharma and the COVID-19 cartel, weren't targeted for censorship and termination in 2022.

Twitter's former management censored and shut down ~11,000 accounts due to "COVID-19 misinformation" (including mine) and I believe that Twitter heads Jack Dorsey, Parag Agrawal, Vijaya Gadde, Sean Edgett and others should face criminal investigations and very long prison sentences for the harm they intentionally caused.

Big pharma insiders like Dr. Peter Hotez (who was involved in gain-of-function research of coronaviruses at the Wuhan Institute of Virology in China) ([click here](#)) were allowed, by Twitter, to push toxic, experimental COVID-19 vaccines on healthy adults, pregnant women and children and give bad medical advice that led thousands to their premature and sudden deaths during 2021-2023.

**I fully support Dr. Aseem Malhotra's call for the immediate suspension of COVID-19 mRNA vaccines globally pending an investigation into serious side-effects, a suspension that should have taken place in January or February 2021, when the death toll was already rising rapidly.**

## The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*
