In Austria the massive harm done to human life and health done by the Covid “vaccines” has resulted in the Austrian Minister of Health shifting responsibility to doctors who betrayed their medical responsibility to inform patients of the risks of the vaccine.

Of course, had doctors done so, they would have been punished for “spreading misinformation.” It was the Austrian government that tried to mandate coercive vaccination of every Austrian.

In truth, the “Covid pandemic” was an exercise in massive disinformation by “health authorities,” aka marketing agents for Big Pharma, incompetent, mindless politicians, and a whore media that lied through its teeth and continues to do so.

Now that the Austrian Health Minister has shifted responsibility to medical doctors, how much longer can the utterly corrupt US “public health system” deny that there are massive “vaccine” injuries?

The US death rate in the Covid year of 2020 was the same as in 2019. The death rate shot up after the vaccination campaign. US insurance companies have reported stunning rises following Covid vaccination. The CEO of health insurer OneAmerica said, “We are seeing, right now, the highest death rates we have seen in the history of this business – not just at OneAmerica,” the company’s CEO Scott Davison said during an online news conference this week. “The data is consistent across every player in that business.”

Big Pharma and its agents at NIH, CDC, and FDA, and the responsible politicians and presstitutes will try to control the narrative and conclude that the deaths are Covid deaths

due to the waning effectiveness of the “vaccine.” Independent and honest scientists will point out that the deaths were vaccine-induced deaths. Every effort will be made to cover up the mass murder by accusing honest doctors of “spreading misinformation” and taking away their medical licensers for telling the truth.
