*An article appearing in Canada’s Globe and Mail newspaper, written by Health Reporter Carly Weeks, titled “[Ontario agency touts safety of updated COVID vaccine](#)” relies on un-named “experts” and an un-named “report” to propagate the Big Lie that the COVID experimental mRNA injections are “safe and effective”.*

The first deception is immediate. The subtitle claims “*Report based on data collected since December 2020 finds 94.5% of reactions not serious*” begs an immediate question. If 94.5% of reactions are not serious then the remaining 5.5% are serious.

Why would one take an experimental injection with a proven dangerous track record when safe therapeutics are available?(1)

Publicly available CDC VAERS data indicates unequivocally that the injections are neither safe nor effective and that the COVID vaccines are responsible for more deaths than all previous vaccines combined.(2)

The article further suggests that causality has not been proven. But that is not the case either. A study by the Department of Cardiology and Cardiovascular Research Institute Basel titled “Myocardial Injury after COVID-19 mRNA – 1273 Booster Vaccination” demonstrates that 2.8%, or 1 in 35 booster recipients sustained vaccine-associated myocardial injury. Not only is the study named, but it is peer-reviewed and industry-independent.(3)

Myocardial injury, explains Dr. Chris Shoemaker, is permanent, and 50% of those with such injuries die within 5 years.

The unsourced Globe and Mail article in question tacitly suggests that the risk of job injuries

is worth it to address the “pandemic”. But we know that the World Health Organization (WHO) deleted mortality rates from its pandemic definition(4), so the word is almost meaningless, and, per Dr. Ionniditis, the virus has always had Low Infection Fatality Rates (LIFR)(5), plus the fact that therapeutics have always been available negates the legitimacy of a Public Health Emergency.

Public Health Canada needs to rediscover its Health-oriented roots and stop pushing catastrophically dangerous experimental injections on an increasingly sophisticated Canadian population. People are increasingly aware of the extraordinary excess-death rates directly linked to the mandated experimental COVID injections.(6)

## The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*

### Reviews

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon*

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. –Dr. Emanuel Garcia*

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig*

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. -David Skripac*

*A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place. -Edward Curtin*
