Dear Readers,

We will be launching later this month a new book entitled *Global Economic Crisis: The Great Depression of the XXI Century*, edited by Michel Chossudovsky and Andrew Gavin Marshall (2010). This important volume contains twenty chapters by some of the most well-known financial and social analysts and has received critical acclaim.

All new Global Research members as well as 2010 renewals will receive a free copy of [\*The Global Economic Crisis: The Great Depression of the XXI Century\*](#).

In all major regions of the world, the economic recession is deep-seated, resulting in mass unemployment, the collapse of state social programs and the impoverishment of millions of people. The meltdown of financial markets was the result of institutionalized fraud and financial manipulation. The economic crisis is accompanied by a worldwide process of militarization, a “war without borders” led by the U.S. and its NATO allies.

This book takes the reader through the corridors of the Federal Reserve, into the plush corporate boardrooms on Wall Street where far-reaching financial transactions are routinely undertaken.

Each of the authors in this timely collection digs beneath the gilded surface to reveal a complex web of deceit and media distortion which serves to conceal the workings of the global economic system and its devastating impacts on people`s lives.
