Eisenhower's legendary warning that the industrial-military complex could engender a "disastrous rise of misplaced power" has obviously come true. Notably, in the same speech, Eisenhower also advised of "equal and opposite danger." Back in the 1960s, Ike insisted "that public policy could itself become the captive of a scientific-technological elite." However, his second warning was hushed by the deafening silence of the mainstream media.

The following was spoken by David Rockefeller at the Bilderberger Meeting, Baden Germany, June 1991. Rockefeller has devoted his life to one world government, i.e. the New World Order (NWO). He founded the Trilateral Commission and is integral to the Council on Foreign Relations.

"We are grateful to the Washington Post, The New York Times, Time Magazine and other great publications whose directors have attended our meetings and respected their promises of discretion for almost 40 years. ... It would have been impossible for us to develop our plan for the world if we had been subjected to the lights of publicity during those years. But, the world is now more sophisticated and prepared to march towards a world government. The supranational sovereignty of an intellectual elite and world bankers is surely preferable to the national auto-determination practiced in past centuries."

Later, he notes:

"Some even believe we are part of a secret cabal working against the best interests of the United States, characterizing my family and me as 'internationalists' and of conspiring with others around the world to build a more integrated global political and economic structure, one world if you will. If that is the charge, I stand guilty, and I am proud of it."

The primary obstacle blocking the "sovereignty of an intellectual elite and world bankers" is a strong, democratic, sovereign America. Both cannot exist simultaneously. Therefore, our mortal enemy has been decimating America for decades, the battlefield littered with the middle class, dazed soldiers wandering in despair, jobs lost, pockets empty, homes foreclosed, dreams crushed and forced to bow to their oppressors if they travel by air. America is on the verge of losing our battle for freedom and has not yet even identified who the real enemy is.

The age-old dream of world domination is alive and well. Our real enemy are the globalists,

scientific-technological elites who, as Eisenhower warned, are attempting to establish the NWO. Their primary weapons are perpetual war and central banks, i.e. the Fed which is a cartel of international bankers, including Rockefeller, who control our economy and, astoundingly, have not been audited during the 98 years they have systematically destroyed the dollar while becoming inconceivably powerful. Jefferson, Lincoln, Andrew Jackson - the list is long and distinguished - all scream as to the lethal danger of a central bank.

Never audited, until a few weeks ago, when a partial audit finally revealed some of their treachery. While America was held hostage by a phony debt ceiling debate that pretended to help resolve our annual \$1.7 trillion deficit, we learned that the Fed secretly bestowed more than \$16 trillion to American and foreign banks over the past three years. Two trillion dollars, more than our annual deficit, was dumped into the vaults of the Bank of America.

Ron Paul forced the audit and is the only presidential candidate campaigning against the Fed, international bankers and the NWO. Against those who are swiftly establishing and would be masters of "one world if you will."
