The Gateway Pundit previously reported that InfoWars [published insider information](#) that alleges the TSA and US Border Patrol will be moving back to 2020-era COVID-19 mandates and restrictions starting in mid-September through mid-October, to include mask mandates on all flights. This is in addition to the confirmed mask-mandate reinstatement at [Morris Brown College](#) in Atlanta, GA, and [Lionsgate Studios](#) in Santa Monica, CA. Also, a school district in South Texas just outside of San Antonio [closed down](#) temporarily due to an ‘uptick’ in COVID cases.

That same week, War Room’s Natalie Winters [uncovered millions of dollars in funding](#), awarded primarily to the Department of Veteran’s Affairs and DoD, to ramp up testing and other COVID-19 related.

This was just a week after the [NIH appointed Dr. Jeanne Marrazzo](#), a staunch advocate for masks, lockdowns, and vaccine mandates, as the replacement for Dr. Fauci.

To further the suggestion that another lockdown scare is in the forecast, on Tuesday, the US Department of Health and Human Services announced funding of \$1.4 billion to “*support the development of a new generation of tools and technologies to protect against COVID-19 for years to come*” according to a [press release](#).

“Project NextGen is a key part of the Biden-Harris Administration’s commitment to keeping people safe from COVID-19 variants,” said HHS Secretary Xavier Becerra. “These awards are a catalyst for the program – kickstarting efforts to more quickly develop vaccines and continue to ensure availability of effective treatments.”

Project NextGen, a \$5 billion initiative led by ASPR's Biomedical Advanced Research and Development Authority (BARDA) in partnership with the National Institute of Allergy and Infectious Diseases (NIAID), coordinates across the federal government and the private sector to advance innovative vaccines and therapeutics into clinical trials, regulatory review, and potential commercial availability for the American people. The project builds on a better understanding of COVID-19 - with HHS developing, using, and constantly re-evaluating the strengths and weaknesses of current vaccines and therapeutics for over three years.

Recipients of the awards include:

- \$1 billion to four BARDA Clinical Trial partners to support vaccine Phase IIb clinical trial studies: ICON Government and Public Health Solutions, Inc of Hinckley, Ohio; Pharm-Olam, LLC, of Houston, Texas; Technical Resources Intl (TRI), Inc, of Bethesda, Maryland; and Rho Federal Systems, Inc., Durham, North Carolina.
- \$326 million to Regeneron to support the development of a next-generation monoclonal antibody for COVID-19 prevention.
- \$100 million to Global Health Investment Corp. (GHIC), the non-profit organization managing the BARDA Ventures investment portfolio to expand investments in new technologies that will accelerate responses in the future.
- \$10 million to Johnson & Johnson Innovation (JLABS) for a competition through Blue Knight, a BARDA-JLABS partnership.

The press release claims that their partnership with Regeneron will help develop a “novel monoclonal antibody that will protect people who do not respond to or cannot take existing vaccines,” despite their attempts to [limit the distribution in Florida in 2021](#).

On Friday, Joe Biden announced that he plans to request more funding from Congress to develop a new COVID vaccine “that works.”

“I signed off this morning on a proposal we have to present to the Congress a request for additional funding for a new vaccine that is necessary, that works,” Biden [told](#) the reporters while vacationing in Lake Tahoe.

Biden warned that everyone will get it despite their previous vaccination status.

“It will likely be recommended that everybody get it no matter whether they’ve gotten it before or not,” he added.

NEW – Biden Says New COVID Shots 'That Work' May Be on the Way for All Americans

"I signed off this morning on a proposal we have to present to the Congress - a request for additional funding for new vaccine that is necessary that works...Tentatively it is recommended, it would... pic.twitter.com/uYBdOQOK4o

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

ISBN: 978-0-9879389-3-0, Year: 2022, PDF Ebook, Pages: 164, 15 Chapters
