Forbes Magazine has confirmed that the US federal government will fine employers who violate **Joe Biden's Vax Mandate**.

***President Joe Biden** didn't just announce a Covid-19 vaccine mandate on companies employing 100 or more people, he plans to enforce it.*

On Saturday, Speaker **Nancy Pelosi's** House quietly tucked an enforcement mechanism into their \$3.5 trillion "reconciliation" bill, passed it out of the Budget Committee, and sent it to the House floor.

Buried on page 168 of the House Democrats' 2,465-page [mega bill](#) is a tenfold increase in fines for employers that "willfully," "repeatedly," or even seriously violate a section of labor law that deals with hazards, death, or serious physical harm to their employees.

The increased fines on employers could run as high as \$70,000 for serious infractions, and \$700,000 for willful or repeated violations—almost three-quarters of a million dollars for *each* fine. If enacted into law, vax enforcement could bankrupt non-compliant companies even more quickly than the \$14,000 OSHA fine [anticipated under Biden's announced mandate](#).
