Thanks to a reader, I was tipped off on an earlier pipeline explosion, this one arranged by the CIA during the Soviet era.

Thomas Reed, a senior US national security official, claims in his book "At The Abyss" that the United States allowed the USSR to steal pipeline control software from a Canadian company. This software included a Trojan Horse that caused a major explosion of the Trans-Siberian gas pipeline in June 1982. The Trojan ran during a pressure test on the pipeline but doubled the usual pressure, causing the explosion. ([CIA Trojan Causes Siberian Gas Pipeline Explosion.](#))

This act of sabotage was kept hidden for decades.

Around Halloween 1982, an explosion occurred in the middle of Siberia, vaporizing a large segment of the newly-built trans-Siberian pipeline. The explosion -which was reported to be 1/7 the magnitude of the nuclear weapons dropped on Japan during WWII- severely damaged the pipeline, which was set to produce \$8 Billion in petroleum revenue annually for the USSR. Only recently has this silently successful CIA operation been disclosed to the public.

Does this mean the CIA or associated intelligence/military organizations are responsible for the Nordstream explosions? No, but it does demonstrate they are capable and have a history of sabotaging Russian operations.

Recall the cognitively vapid one, pretending to be the "leader" of the "free world," saying they'd put an end to Nordstream one way or another. He said this prior to Russia going into Ukraine to denazify it.

BIDEN admits US behind sabotage of Nordstream 1 and 2.

Biden: "If Russia invades...then there will be no longer a Nord Stream 2."

Reporter: "But how will you do that, it's in germany's control?"

Biden: "I promise you, we will be able to do that." pic.twitter.com/idlxQYuAqU

Is it my imagination, or is that a “blood and soil” flag draped behind Biden? The black and red (*Blut und Boden*) is a Nazi ethnic cleansing symbol (related to *Lebensraum*, the German concept of stealing land for the “racially pure” and exterminating the *Untermenschen*, or subhumans, who lived there for centuries).

So, here we have the president of the United States delivering a rambling answer on Nordstream while standing before a flag used by Ukronazi thugs, adopted from German Nazis (with whom they collaborated during WWII) as they kill ethnic-Russian children, mothers, and old folks.
