The following text is Chapter VIII of Michel Chossudovsky's Book entitled:

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

"My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the "deadly" COVID-19 "vaccine". This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument."

ISBN: 978-0-9879389-3-0, Year: 2022, PDF Ebook, Pages: 164, 15 Chapters

Price: \$11.50

Our Children Are the Victims

Student at the Lycée Valabre de Luynes-Gardannem, Aix-en-Provence, 16 years old [Sofia Benharira](#) passed away on September 21 [2021] yes, 7 days after having

received the deadly Pfizer vaccine. Two Heart Attacks, Thrombosis. May She Rest in Peace.

“Her daughter’s 13-year-old friend who did not want to take the COVID-19 vaccine. “Her Heart Stopped. She is in Critical Care. This is happening here right now in Halifax, Nova Scotia, Because she wanted to play soccer.

She did not want to take the Vaccine. But when our Premier mandated the vaccine for children playing sport.

“I am disgusted with our government.”

[\(Powerful voice of a Canadian mother\)](#)

“Yesterday evening, we got news from France of a young man, 22 years old who died nine hours after having being vaccinated. He wanted to travel on a holiday to Greece. “He just wanted to live said his father. ... he was my only son, and he died, killed by a crap vaccine that was never validated or properly tested”.

The mainstream media provided its own interpretation quoting “authoritative medical sources”.

“It wasn’t the vaccine which triggered Maxime Beltra’s death. He died from an allergic reaction, they said: “a probable serious food allergy, according to medical sources”.

Now isn’t that a piece of authoritative fake news, quoting hospital officials. Today Our thoughts are with Maxime Beltra and his family.

*If you permit this to go ahead [vaccine], I guarantee, there will be **avoidable deaths of perfectly healthy children** and severe illnesses in ten times as many. And for no possible benefit. Knowing what I know from 40 years training and practice in toxicology, biochemistry and pharmacology, to participate in this extraordinary abuse of innocent children in our care can be classified in no other way than Murder” -Dr. Michael Yeadon, prominent scientist, former Vice President of Pfizer*

“Three doctors from Ontario died after the hospital where they worked started administering the fourth booster shot to their staff. Is it a coincidence or are they victims of this diabolical worldwide vaccination campaign?” -Mark Taliano, author, Research Associate of the Centre for Research on Globalization

“This vaccine campaign will go down as the biggest scandal in medical history, ... moreover, it will be known as the biggest crime ever committed on humanity.” -MP Christine Anderson, Member of the European Parliament, July 2022

Yes, It’s a killer vaccine. That message should be loud and clear. This is happening all over

the world: children and adolescents are dying. Crimes against humanity, crimes against our children.

Health authorities are routinely instructed to categorize vaccine-related deaths and injuries to COVID-19: "The vaccinated are dying of COVID." It's a boldface lie.

Introduction

The vaccine was launched on November 9, 2020, barely six months after the March 11, 2020 lockdown. These two interrelated policy mandates constitute the strategic pillars of the COVID crisis:

- The lockdown was an act of economic and social warfare directed against all humanity.
- Amply documented (starting in early 2021) the mRNA COVID-19 vaccine is a poisonous substance which has resulted in a sustained upward trend in vaccine-related mortality and morbidity.

Peer-reviewed reports confirm the causes of vaccine-related deaths and injuries including, among others, blood clots, thrombosis, myocarditis and fertility.

The impacts of the vaccine are also documented by a secret Pfizer report which was released under freedom of information (see analysis below).

Video: Impact of COVID vaccinations on mortality (December 2020 – April 2021, selected countries), click [here to watch](#).

The latest [official figures](#) at the time of writing (April 3, 2022) point to approximately:

69,053 COVID-19 injection-related deaths and 10,997,126 injuries for the EU, US and UK combined for a population of 830 million people.¹

But only a small fraction of the victims or families of the deceased will go through the tedious process of reporting vaccine-related deaths and adverse events to the national health authorities.

Moreover, the health authorities are actively involved in obfuscating the deaths and injuries resulting from the "unapproved" and "experimental" COVID-19 "vaccine".

Based on [historical data \(Electronic Support for Public Health–Vaccine Adverse Event Reporting System \(ESPH-VAERS\) p. 6\)](#):

"Adverse events from drugs and vaccines are common, but underreported. ... less than 0.3% of all adverse drug events and 1-13% of serious events are reported to the Food and Drug Administration (FDA). Likewise, fewer than 1% of vaccine adverse events are reported. (emphasis added)²

These are official statistics based on a formal process of registration of deaths and injuries.

The actual number of deaths and injuries triggered by the mRNA vaccine is much higher.

Multiply the figures by the relevant parameter to get the REAL numbers; we are talking about very high numbers.

The mRNA “Vaccine”. Hidden Agenda?

The vaccine does not save lives nor does it contain the pandemic because there is no pandemic. It’s a money-making operation for Big Pharma in the hundreds of billions of dollars.

Moreover, it’s not a one-time vaccine jab. Several doses are contemplated over several years.

It is applied worldwide and enforced by powerful financial Interest. Not a single country, with the exception of Burundi, Tanzania and Haiti, had the courage to refuse the mRNA vaccine.

While there is no reliable evidence, it is worth noting that the presidents of Tanzania and Burundi died under mysterious circumstances.

Haiti was the only country in the Western hemisphere which categorically refused to implement the mRNA vaccine.

In a bitter irony, immediately following president Jovenel Moise’s [assassination](#) on July 7, 2021, president Joe Biden promptly sent half a million vaccine doses (and more to come, courtesy of Uncle Sam) delivered by COVAX to Port-au-Prince six days after Moise’s passing.³

This first shipment to Haiti was part of a US Aid Program consisting of 500 million doses of the “killer vaccine” which was slated to be sent to a large number of developing countries.

Big Money for Big Pharma

The US government ordered 100 million doses of the vaccine in the immediate wake of the March 11, 2020 lockdown. The EU purchased more than 1.8 billion doses, which represents four times the population of the European Union. It’s Big Money for Big Pharma, generous payoffs to corrupt politicians at the expense of taxpayers.

The objective is ultimately to make money, by vaccinating the entire planet of 7.9 billion people for SARS-CoV-2.

The COVID vaccine requires at least three doses. This is the largest vaccine project in world history and the biggest money-making operation for Big Pharma.

Worldwide, people are led to believe that the corona vaccine is a solution. And that “normality” will then be restored.

The mRNA Vaccine Is “Unapproved” and “Experimental”

How is it that a vaccine for the SARS-CoV-2 virus, which under normal conditions would take years to develop, was promptly launched on the 9th of November 2020?

Moreover, the vaccine announced by Pfizer, Moderna Inc, AstraZeneca and Johnson & Johnson (J&J) is based on an experimental gene-editing mRNA technology which has a bearing on the human genome.

Coupled with the mRNA vaccine initiative is the development of a so-called digital passport which is currently being imposed on entire populations (see analysis below).

And why do we need a vaccine for COVID-19 when the WHO, the US Centers for Disease Control and Prevention (CDC) as well as numerous scientists have confirmed unequivocally that COVID-19 is “similar to seasonal influenza”? (See analysis in Chapter III)

Four major companies including Pfizer Inc, Moderna Inc, AstraZeneca and Johnson & Johnson (J&J) are involved in marketing the experimental mRNA vaccine with the relentless support of national governments.

In the US, the “green light” to market the experimental mRNA vaccine was granted back in December 2020, despite the fact that according to the FDA, the vaccine is an “unapproved product”.

[The FDA, in an ambiguous statement](#), has provided a so-called Emergency Use Authorization (EUA) to the Pfizer-BioNTech vaccine, namely “to permit the emergency use of the unapproved product, ... for active immunization...”⁴ ([See below](#))

EMERGENCY USE AUTHORIZATION (EUA) OF THE PFIZER-BIONTECH COVID-19 VACCINE TO PREVENT CORONAVIRUS DISEASE 2019 (COVID-19)

The U.S. Food and Drug Administration (FDA) has issued an Emergency Use Authorization (EUA) to permit the emergency use of the unapproved product, **Pfizer-BioNTech COVID-19 Vaccine**, for active immunization to prevent COVID-19 in individuals 16 years of age and older.

Screenshot from the FDA

There is something fishy and “contradictory” in this statement. The experimental Pfizer mRNA vaccine is both “unapproved” and “permitted”.

I have checked this statement with a prominent lawyer. It is blatantly illegal to market an “unapproved product”.

In the US, the Pfizer-Moderna vaccine was categorized by the CDC as an “investigational drug”. “The emergency use” clause is there to justify the launching of what might be described as an “illegal drug”.

There is an ongoing fear campaign but there is no “emergency” which justifies “emergency use”. Why?

1. Both the WHO and the CDC have confirmed that COVID-19 is “similar to seasonal influenza”; it is not a killer virus.
2. The PCR test used to estimate “confirmed positive cases” is flawed. Since March 2020, the COVID-19 “numbers” have been manipulated, hiked up.
3. The overall validity of the PCR test (and estimates) as applied since January 2020 [has been questioned \(January 2021\) by the WHO](#) (see our analysis in Chapter III).

Pfizer Has a Criminal Record: “Fraudulent Marketing” of an “Unapproved Product”

Flashback to 2009. In a historic [US Department of Justice decision in September 2009](#), Pfizer Inc. pleaded guilty to criminal charges.⁵ It was “the largest health care fraud settlement” in the history of the US Department of Justice:

American pharmaceutical giant Pfizer Inc. and its subsidiary Pharmacia & Upjohn Company Inc. ... have agreed to pay \$2.3 billion, the largest health care fraud settlement in the history of the Department of Justice, to resolve criminal and civil liability arising from the illegal promotion of certain pharmaceutical products, ... ” (September 2, 2009)⁶

JUSTICE NEWS

Department of Justice
Office of Public Affairs

FOR IMMEDIATE RELEASE Wednesday, September 2, 2009

Justice Department Announces Largest Health Care Fraud Settlement in Its History

Pfizer to Pay \$2.3 Billion for Fraudulent Marketing

WASHINGTON – American pharmaceutical giant Pfizer Inc. and its subsidiary Pharmacia & Upjohn Company Inc. (hereinafter together "Pfizer") have agreed to pay \$2.3 billion, the largest health care fraud settlement in the history of the Department of Justice, to resolve criminal and civil liability arising from the illegal promotion of certain pharmaceutical products, the Justice Department announced today.

Screenshot from the [Department of Justice](#)

To view the [C-Span video, click here.](#)

Déjà Vu: Flash Forward to 2020-2022

How on earth can you trust a Big Pharma vaccine conglomerate which pleaded guilty to criminal charges by the US Department of Justice including “fraudulent marketing” and “felony violation of the Food, Drug and Cosmetic Act”?

I should mention, however, that in 2009, [Pfizer was so to speak “put on probation”](#) by the US Department of Justice.⁷ It was obliged to enter into “a corporate integrity agreement” with the Inspector General of the Department of Health and Human Services (DHHS). That agreement provided for “procedures and reviews to ... avoid and promptly detect” misconduct on the part of Pfizer Inc.

Johnson & Johnson and “the Opioid Epidemic”

At the height of the corona crisis, barely covered by the media, coinciding with the launch of the COVID-19 vaccine in early November 2020, Johnson & Johnson (and its three distributors) (involved in the marketing of prescription opioids) “reached [a tentative multi-billion settlement](#) with counties and cities that sued them for damages”.⁸ The class action lawsuit was “the largest federal court case in American history” (for further details, see Chapter VI pertaining to “The Impacts on Mental Health”).

Are these legal antecedents relevant to an understanding of Big Pharma’s vaccine initiative?

Johnson & Johnson is currently involved in the production and marketing of a COVID adenovirus viral vector vaccine which also entails genetic therapy (the above J&J class-action lawsuit is one among several lawsuits against J&J).

Human Guinea Pigs

In relation to the COVID vaccine, “fraudulent marketing” is an understatement. The mRNA vaccine announced by Pfizer, Moderna, Johnson & Johnson and AstraZeneca is an “unapproved drug” based on the “experimental” gene-editing [mRNA technology which has a bearing on the human genome](#).⁹

Moreover, the standard animal lab tests using mice or ferrets were not conducted. Pfizer [“went straight to human ‘guinea pigs’.”](#)¹⁰

“Human tests began in late July and early August [2020]. Three months is unheard of for testing a new vaccine. Several years is the norm.” ([F. William Engdahl, Global Research](#), November 2020)¹¹

Dr. Michael Yeadon, former Vice President of Pfizer, [has taken a firm stance](#):

“All vaccines against the SARS-COV-2 virus are by definition novel. No candidate vaccine has been... in development for more than a few months.”

“If any such vaccine is approved for use under any circumstances that are not EXPLICITLY experimental, I believe that recipients are being misled to a criminal extent.”¹²

In early December 2020, Dr. Michael Yeadon together with Dr. Wolfgang Wodarg “[filed an application with the EMA](#)”, the European Medicines Agency responsible for EU-wide drug approval, for the immediate suspension of all SARS-CoV-2 vaccine studies, in particular the Pfizer-BioNtech study on BNT162b (EudraCT number 2020-002641-42).¹³

History of the SARS-CoV-2 Vaccine Project

There are many contradictions. The analysis below addresses the earlier stages of the vaccine project as well as the role of the 201 simulation of a coronavirus pandemic under the auspices of the Johns Hopkins School of Medicine held in New York on October 18, 2019 (see Chapter I).

The COVID vaccine is a multi-billion dollar Big Pharma operation which will contribute to increasing the public debt of more than 150 national governments.

Supported by the fear campaign, money — rather than public health — is the driving force behind this initiative.

The GSK-Pfizer Partnership

Five months before the onset of the COVID-19 crisis, two of the largest worldwide Pharma conglomerates decided to join hands in a strategic relationship. In August 2019, GSK confirmed the formation of a major partnership with Pfizer entitled [the Consumer Health Joint Venture](#).¹⁴

While the relationship is said to be limited to “trusted consumer health brands”, the agreement envisaged joint financial procedures including joint multi-billion dollar investment projects. While it does not constitute a merger, the GSK-Pfizer alliance implies selective integration and de facto collusion in many of the two companies’ activities including the vaccine market.

“The completion of the joint venture with Pfizer marks the beginning of the next phase of our transformation of GSK. This is an important moment for the Group, laying the foundation for two great companies, one in Pharmaceuticals and Vaccines and one in Consumer Health.” (GSK, August 1, 2019, emphasis added)¹⁵

This GSK-Pfizer relationship also encompasses a network of partner pharmaceutical companies, research labs, virology institutes, military and biotech entities, etc. many of which are currently involved in the COVID vaccine initiative.

At present, a handful of multi-national companies including GSK and Pfizer control 80% of the global vaccine market. Under the agreement between the two companies, GSK-Pfizer is slated to play a dominant and coordinated role in regards to the COVID-19 vaccine.

The October 2019 Coronavirus Event 201 Simulation Exercise. Development of an “Effective Vaccine”

The coronavirus was initially named [nCoV-19](#) by CEPI and the WHO — exactly the same name as that adopted in the WEF-Gates-Johns Hopkins Event 201 (2019-nCov) pertaining to a coronavirus simulation exercise held in mid-October 2019. It was only later that COVID-19 was identified by the WHO not as a virus but as a disease: coronavirus disease (COVID-19), the virus was identified as “severe acute respiratory syndrome” coronavirus 2 (SARS-CoV-2).

The Event 201 Johns Hopkins simulation (examined in Chapter I) [addressed the development of an effective vaccine](#) in response to millions of cases in the October 2019 simulation of an outbreak of a novel coronavirus entitled 2019-nCoV. The simulation announced a scenario in which the entire population of the planet would be affected:

“We ran a massive viral pandemic simulation.., 65 million deaths worldwide.”

“During the initial months of the pandemic, the cumulative number of cases [in the simulation] increases exponentially, doubling every week. And as the cases and deaths accumulate, the economic and societal consequences become increasingly severe.”

The scenario ends at the 18-month point, with 65 million deaths. The pandemic is beginning to slow due to the decreasing number of susceptible people. The pandemic will continue at some rate until there is an effective vaccine or until 80-90 % of the global population has been exposed. From that point on, it is likely to be an endemic childhood disease.¹⁶

To watch the World Economic Forum video, The 201 Johns Hopkins Simulation, [click here](#).

The Central Role of the Coalition for Epidemic Preparedness Innovations (CEPI)

The lead entity for the novel coronavirus vaccine initiative is the Coalition for Epidemic Preparedness Innovations (CEPI), an organization sponsored and financed by the World Economic Forum (WEF) and the Bill and Melinda Gates Foundation.

Two weeks after the virus had been formally identified by the People’s Republic of China (Jan 7, 2020), a vaccine for the novel coronavirus was announced by CEPI at the Davos World Economic Forum on January 20-24, 2020.

Note the chronology: The development of the 2019-nCoV vaccine was announced at the Davos World Economic Forum (WEF) a week prior to the official launching by the WHO of a Worldwide Public Health Emergency (January 30, 2020) at a time when the number of “confirmed cases” worldwide (outside China) was 83 (see Chapter II).

The pandemic was launched by the WHO on March 11, 2020. And five days later, barely

covered by the media, the first tests involving human volunteers were conducted by Moderna in Seattle on March 16, 2020.

The evidence suggests that the vaccine project was initiated at a much earlier stage. According to [Richard Hatchett](#), CEO of the Coalition for Epidemic Preparedness Innovations (CEPI), the project to develop a vaccine commenced not only prior to the discovery and identification of the coronavirus (January 7, 2020) but several months prior to the October 2019 simulation exercise (see interview with Richard Hatchett below).¹⁷

CEPI, on behalf of the Gates Foundation and the WEF, was seeking a “monopoly” role in the vaccination business the objective of which was a “global vaccine project”, in partnership with a large number of “candidates”.

The CEO Stéphane Bancel of Moderna Inc. described the features of the mRNA vaccine at a World Economic Forum press conference in Davos (January 2020). “We inject instructions ... mRNA is a platform.” He confirmed that research was already well underway in collaboration with the NIS and CEPI. Click [here to view the video](#).

Image: Moderna CEO Stephane Bancel (Licensed under [GFDL](#), free to use)

On January 31, 2020, the day following the WHO’s official launching of the global public health emergency (PHEIC) and Trump’s decision to curtail air travel with China, CEPI announced its partnership with CureVac AG, a German-based biopharmaceutical company.

A few days later, in early February 2020, CEPI “announced that major vaccine manufacturer GSK would allow its [proprietary adjuvants](#) — compounds that boost the effectiveness of vaccines — to be used in the response” (the pandemic was officially launched on March 11, 2020).¹⁸

There were many “potential vaccines in the pipeline” with “dozens of research groups around the world racing to create a vaccine against COVID-19”.

The COVID-19 Global Vaccination Program

CEPI (on behalf of Gates-WEF, which funded the 201 simulation exercise) played a key role in a large-scale worldwide vaccination program in partnership with biotech companies, Big Pharma, government agencies as well as university laboratories.

CEPI  
@CEPIvaccines

Today we announced funding for three programmes to develop vaccines against the novel [#coronavirus](#), nCoV-2019 🇺🇸

We'll be supporting pioneering technologies designed to speed up the development of vaccines against emerging threats [#OutsmartEpidemics](#) 🇺🇸 bit.ly/2GjEmSS

Screenshot from [CEPI's Twitter](#) / No copyright infringement intended

The foregoing statement by CEPI was made nearly two months prior to the official declaration of a pandemic on March 11, 2020. The number of confirmed cases outside China on January 30, 2020 was 83.

"We're having conversations with a broad array of potential partners". And critical to those conversations is: What's the plan to make very large quantities of vaccine within a time frame that is potentially relevant to what people seem to be increasingly certain will be a pandemic, if it isn't already there? ..." [[Richard Hatchett, CEPI CEO](#) in an interview with [stat.news.com](#)] (emphasis added)¹⁹

Prior Knowledge of the COVID Pandemic. The mRNA Vaccine Was Already in the Pipeline

Of significance, Hatchett confirmed that the project to develop a vaccine commenced not only prior to the discovery and identification of the coronavirus (January 7, 2020) but several months prior to the October 2019 201 simulation exercise.

[“We did that in the last year or so](#) [early 2019]... We are using the information that we have collected and have that team now thinking about opportunities for scaling vaccines of various different types. That is a work in progress. For some of the technologies the tech transfer [to a manufacturer] may be something that could be done in a time frame that was pertinent to the epidemic, potentially.

I think it is going to be really important to engage those folks who have access to really substantial production capacity. And having the big producers at the table — because of their depth, because of their experience, because of their internal resources — would be very, very important.

The candidate vaccines will be very, very quick. Dr. Anthony Fauci, director of NIAID [who has been spreading panic on network TV], is out in public as saying he thinks the clinical trial for the Moderna vaccine may be as early as the spring [2020]. (emphasis added)²⁰

Did CEPI Director Richard Hatchett, Dr. Anthony Fauci who heads NIAID, and Moderna’s CEO Stéphane Bancel have “prior knowledge” of the outbreak of the COVID-19 pandemic?

Hatchett’s statements suggest that they had already been working on an mRNA vaccine in early 2019. Moreover, on December 12, 2019, two weeks prior to the official confirmation of the existence of a so-called “novel coronavirus” by the Chinese health authorities, Moderna Inc. together with the National Institute of Allergy and Infectious Diseases (NIAID) had already “sent mRNA coronavirus vaccine candidates” to a lab investigator at the University of North Carolina, Chapel Hill (see [Joseph Mercola](#), July 10, 2021).²¹

The CEPI-sponsored vaccine conglomerates had already planned their investments well in advance of the global worldwide health emergency (declared by the WHO on January 30, 2020).

Moderna announced on February 24, 2020 the development of “an experimental (messenger) mRNA COVID-19 vaccine, known as mRNA-1273”. “The initial batch of the vaccine has already been shipped to US government researchers from the National Institute of Allergy and Infectious Diseases (NIAID)” headed by Dr. Antony Fauci.

[In the words of Fauci:](#)

“Finding a safe and effective vaccine to prevent infection with SARS-CoV-2 is an urgent public health priority...This Phase 1 study, launched in record speed, is an important first step toward achieving that goal.”²²

Below are excerpts from the statement by [Moderna which indicates “foreknowledge”](#) as well as its collaboration with Anthony Fauci’s NIAID as early as January 13, 2020.²³

Moderna’s Work on a Potential Vaccine Against COVID-19

Moderna is proud to be among the many groups working to respond to this continuing global health emergency. This page summarizes key milestones in our work to advance our vaccine candidate (mRNA-1273) and responds to frequently asked questions.

Timeline of our response through March 16, 2020

On January 11, 2020, the Chinese authorities shared the genetic sequence of the novel coronavirus.

On January 13, 2020, the U.S. National Institutes of Health (NIH) and Moderna’s infectious disease research team finalized the sequence for mRNA-1273, the Company’s vaccine against the novel coronavirus. At that time, the National Institute of Allergy and Infectious Diseases (NIAID), part of NIH, disclosed their intent to run a Phase 1 study using the mRNA-1273 vaccine in response to the coronavirus threat and Moderna mobilized toward clinical manufacture. Manufacture of this batch was funded by the Coalition for Epidemic Preparedness Innovations (CEPI).

On February 7, 2020, the first clinical batch, including fill and finishing of vials, was completed, a total of 25 days from sequence selection to vaccine manufacture. The batch then proceeded to analytical testing for release.

On February 24, 2020, the clinical batch was shipped from Moderna to the NIH for use in their Phase 1 clinical study.

On March 4, 2020, the U.S. Food and Drug Administration (FDA) completed its review of the Investigational New Drug (IND) application filed by the NIH for mRNA-1273 and allowed the study to proceed to begin clinical trials.

On March 16, 2020, the NIH announced that the first participant in its Phase 1 study for mRNA-1273 was dosed, a total of 63 days from sequence selection to first human dosing.

While Moderna Inc. initially stated that the first clinical trials would [commence in late April](#) (2020), tests involving human volunteers started in mid-March 2020 in Seattle (bear in mind the pandemic was officially launched on March 11, 2020).²⁴

[Researchers in Seattle gave the first shot to the first person](#) in a test of an experimental [coronavirus](#) vaccine Monday — leading off a worldwide hunt for protection even as the pandemic surges. ...

Some of the study’s carefully chosen healthy volunteers, ages 18 to 55, will get higher dosages than others to test how strong the inoculations should be. Scientists will check for any side effects and draw blood samples to test if the vaccine is revving up the immune system, looking for encouraging clues like the NIH earlier found in vaccinated mice.

“We don’t know whether this vaccine will induce an immune response, or whether it will be safe. That’s why we’re doing a trial,” Jackson stressed. “It’s not at the stage where it would be possible or prudent to give it to the general population.” ([FOX news local](#))²⁵

The COVID Vaccine and the ID2020 Digital Identity Platform

While CEPI had announced the launching of a global vaccine at the Davos World Economic Forum, another important and related endeavor was underway. It’s called the ID2020 Agenda which, [according to Peter Koenig](#), constitutes “an electronic ID program that uses generalized vaccination as a platform for digital identity”:

“The ID2020 Agenda harnesses existing birth registration and vaccination operations to provide newborns with a portable and persistent biometrically-linked digital identity.” ([Peter Koenig](#), March 12, 2020)²⁶

The founding partners of ID2020 are Microsoft, the Rockefeller Foundation and the Global Alliance for Vaccines and Immunization (GAVI) (an initiative of the Gates Foundation).

GAVI and its partners (WHO, UNICEF, World Bank, and the IMF) have been actively involved in the implementation (financing) of the global vaccine project entitled COVAX.

The key entities involved in coordinating COVAX are the Vaccine Alliance (GAVI), the Coalition for Epidemic Preparedness Innovations (CEPI) and the World Health Organization (WHO). All three entities receive financial support from the Bill and Melinda Gates Foundation.

COVAX

With a fast-moving pandemic, no one is safe, unless everyone is safe

COVAX is co-led by [CEPI](#), [Gavi](#) and WHO, alongside key delivery partner [UNICEF](#). In the Americas, the PAHO Revolving Fund is the recognized procurement agent for COVAX.

Screenshot from [WHO](#)

It is worth noting that the ID2020 Alliance held their summit in New York, entitled “Rising to the Good ID Challenge”, on September 19, 2019, exactly one month prior to the nCov-2019 simulation exercise entitled Event 201 at Johns Hopkins in New York:

Is it just a coincidence that ID2020 is being rolled out at the onset of what the WHO calls a Pandemic? – Or is a pandemic needed to ‘roll out’ the multiple devastating programs of ID2020? ([Peter Koenig](#), March 2020)²⁷

ID2020 is part of a “world governance” project which, if applied, would roll out the contours of what some analysts have described as a global police state encompassing through vaccination (embedded microchip) the personal details of several billion people worldwide.

According to [Dr. David Martin \(quoted by Makia Freeman\)](#):

“This is not a vaccine ... using the term vaccine to sneak this thing under public health exemptions ... This is a mRNA packaged in a fat envelope that is delivered to a cell. It is a medical device designed to stimulate the human cell into becoming a pathogen creator. It is not a vaccine! Vaccines actually are a legally defined term ... under public health law ... under CDC and FDA standards, and a vaccine specifically has to stimulate both an immunity within the person receiving it, but it also has to disrupt transmission.”²⁸

Hidden COVID-19 Vaccine Injuries: The Microscopic Blood Clots

Many people who are vaccinated will not be immediately aware of the injuries incurred. The latter in many cases of “adverse events” are not discernible nor are they recorded. While “big blood clots” resulting from the vaccine are revealed and reported by those vaccinated, an important study by Canada’s [Dr. Charles Hoffe](#) suggests that the mRNA vaccine generates “microscopic blood clots”.

“The blood clots we hear about which the media claim are very rare are the big blood clots which are the ones that cause strokes and show up on CT scans, MRI, etc.

The clots I’m talking about are microscopic and too small to find on any scan. They can thus only be detected using the D-dimer test.”

“These people have no idea they are even having these microscopic blood clots. The most alarming part of this is that there are some parts of the body like the brain, spinal cord, heart and lungs which cannot re-generate. When those tissues are damaged by blood clots they are permanently damaged.

“These shots are causing huge damage and the worst is yet to come.”²⁹

Click [here to watch his interview with Laura Lynn Tylor Thompson](#) (also available on [Rumble channel](#)).

Screenshot from the video / No copyright infringement intended

Do We Know What's Inside the Pfizer Vaccine Vial?

The causes of vaccine-related deaths and injuries have not been addressed by the health authorities.

What is inside the vaccine vial? National health authorities have not made public the results of their lab exams. It is unclear as to whether those lab exams of the vaccine vials have been conducted.

Below is a review of the analysis and laboratory research conducted by the independent La Quinta Columna Spanish team.

Graphene Oxide Nano-particles

According to lab exams conducted by the [Spanish La Quinta Columna research team](#), graphene oxide nano-particles have been detected in the vial of the Pfizer mRNA vaccine.³⁰

The preliminary results of their research (analysis by electron microscopy and spectroscopy) are far-reaching. Graphene oxide is a toxin which triggers thrombi and blood coagulation. It also has an impact on the immune system. Graphene oxide accumulated in the lungs can have devastating impacts.

Click [here to watch the interview](#) with Ricardo Delgado Martin of La Quinta Columna.

Screenshot from the video / No copyright infringement intended

The results of the Spanish study, yet to be fully confirmed and ascertained, suggest that the recorded vaccine-related deaths and “adverse events” could be the result of graphene oxide nano-particles contained in the COVID vaccine vial.

Similarly, we call upon the national health authorities of the 193 member states of the UN which are currently vaccinating their people to conduct their own study and analysis of the vaccine vial. And if graphene oxide is detected, the vaccination program should immediately be discontinued.

[See summary of their report](#) entitled “Graphene Oxide Detection in Aqueous Suspension, Observational study in Optical and Electron Microscopy”. Read the [full study \(English\)](#).³¹

Also of significance (acknowledged by national health authorities), graphene oxide nano-particles are also contained in [face masks](#).³²

The Electromagnetic Properties of the mRNA Vaccine

What is triggering the electromagnetic effects which have been detected in people who have been vaccinated?

These effects have been amply documented and confirmed by independent sources including those vaccinated. The national health authorities have failed to provide an explanation.

See the study conducted by the [European Forum for Vaccine Vigilance](#).³³

Big Pharma. Pfizer's Near Global Monopoly

Hundreds of billions of dollars are at stake. This is the largest and most dangerous and expensive vaccine project in world history which is slated to be financed by tax dollars worldwide, putting an obvious strain on the public debt of numerous countries.

The vaccine program is accompanied by a "timeline" consisting of recurrent mRNA inoculations over several years. As documented above, it will have devastating impacts on mortality and morbidity worldwide.

What is at stake is a multi-billion dollar Big Money operation for Big Pharma with Pfizer in the lead.

Pfizer-BioNTech (allied with Moderna Inc.) is in the process of consolidating its worldwide (near monopoly) position by pushing out its major competitors including AstraZeneca and Johnson & Johnson (J&J).

Pfizer has been pressuring politicians to endorse their mRNA vaccine. Its political lobbying is also directed against its Big Pharma competitors. According to [The Bureau of Investigative Journalism report](#):

One official who was present in the unnamed country's negotiations described Pfizer's demands as "high-level bullying" and said the government felt like it was being "held to ransom" in order to access life-saving vaccines.³⁴

Ironically, in the EU, the reported deaths and injuries were used by the European Commission to cancel the renewal of the contract with AstraZeneca, despite the fact that there were substantially more deaths and injuries associated with the Pfizer-BioNTech vaccine.

In April 2021, the EU Commission confirmed that it would "end AstraZeneca and J&J vaccine contracts at expiry". "The Pfizer shot will take precedence". Never mind your followup dose with AstraZeneca, the health authorities have instructed people to get their second or third jab with Pfizer or Moderna (thereby visibly violating medical norms).

Having sidelined its competitors, Pfizer-BioNTech has jacked up the price of the vaccine vial. Pfizer has literally cornered both the EU and US markets.

A near global vaccine monopoly is in the making by a company which has a criminal record with the US Department of Justice.

The Secret Pfizer Report

[The confidential Pfizer Report released as part of a freedom of information \(FOI\) procedure](#) provides data on deaths and adverse events recorded by Pfizer from the outset of the vaccine project in December 2020 to the end of February 2021, namely a very short period (at most two and a half months).

"By February of 2021, Pfizer had already received more than 1,200 reports of deaths allegedly caused by the vaccine and tens of thousands of reported adverse events,

including 23 cases of spontaneous abortions out of 270 pregnancies and more than 2,000 reports of cardiac disorders.”³⁵

The Pfizer BioNTech vaccine was launched in the US [on the 14th of December after the granting of Emergency Use Authorization on December 11, 2020.](#)

[Report Prepared by: Worldwide Safety Pfizer](#)

The information contained in this document is proprietary and confidential. Any disclosure, reproduction, distribution, or other dissemination of this information outside of Pfizer, its Affiliates, its Licensees, or Regulatory Agencies is strictly prohibited. Except as may be otherwise agreed to in writing, by accepting or reviewing these materials, you agree to hold such information in confidence and not to disclose it to others (except where required by applicable law), nor to use it for unauthorized purposes.”³⁶

In a twisted irony, the data revealed in this “insider report” refutes the official vaccine narrative peddled by the governments and the WHO. It also confirms the analysis of numerous medical doctors and scientists who have revealed the devastating consequences of the mRNA “vaccine”.

What is contained in Pfizer’s “confidential” report is detailed evidence on the impacts of the “vaccine” on mortality and morbidity. This data which emanates from the “horse’s mouth” can now be used to confront as well as formulate legal procedures against Big Pharma, the governments, the WHO and the media.

In a court of law, the **evidence contained in this Big Pharma confidential report** (coupled with the data on deaths and adverse events compiled by the national authorities in the EU, UK and US) is irrefutable: because it is their data and their estimates and not ours.

Bear in mind: its data is based on reported and recorded cases, which constitute a small percentage of the actual number of vaccine-related deaths and adverse events.

This is a de facto mea culpa on the part of Pfizer (Yes, it is a killer vaccine).

Pfizer was fully aware that the mRNA vaccine which it is marketing worldwide would result in a wave of mortality and morbidity. This is tantamount to a crime against humanity on the part of Big Pharma.

Pfizer [knew from the outset](#) that it was a killer vaccine.³⁷

It is also a mea culpa and treason on the part of corrupt national governments worldwide which are being threatened and bribed by Big Pharma.

At the time of writing, no attempt has been made by the governments to call for the withdrawal of the killer vaccine.

People are told that the vaccine is intended to save lives.

“Killing is good for business”: It is a multi-billion dollar operation worldwide. And Pfizer already has a [criminal record \(2009\) with the US Department of Justice on charges of “fraudulent marketing”](#).

Concluding Remarks: The Vaccine Passport

The data from official sources as well as those quoted in the Pfizer report confirm unequivocally that the COVID-19 “vaccine” has resulted in an upward trend in vaccine-related mortality and morbidity.

The studies of Dr. Charles Hoffe, the Spanish research team (La Quinta Columna), the confidential Pfizer Report as well as numerous other studies unequivocally confirm that the mRNA “vaccine” is a “killer vaccine”.

So why are governments pressuring people to get vaccinated?

Heads of state and heads of government worldwide are being pressured, bribed, co-opted and/or threatened by powerful financial interests into accepting the COVID vaccine consensus.

The vaccine passport is the endgame, which constitutes a transition towards digital tyranny and depopulation (see Chapters XIII and XIV).

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
