With [the richest 1% owning more](#) than the rest of us 99%-ers combined on this planet starting next year, it's fair and accurate to say we earthlings are living in economic slavery and feudal bondage. With no exaggeration, our world has been hijacked and stolen by a handful of psychopathic rulers bent on destroying us. [My last article](#) was how they were killing us with their Big Pharma drugs, keeping us sick, toxically and literally squeezing the life out of us with compromised, weakening immune systems, and dying slow profitable deaths for Big Pharma.

My piece only touched on the threat that alternative medicine poses on eating into Big Pharma's monopolizing unprecedented profits. It's been the longtime objective and unfolding reality that this privileged elite has been eliminating all competition in its ruthless path to absolute [oligarchy](#). Big Business be it Big Pharma or other Fortune 500 corporations will stop at nothing to destroy anything and anyone that threatens its economic stranglehold over the people on this planet. This examination focuses on the militarized Gestapo-like tactics the elite deploys to take out Big Pharma's biggest competitor - the vitamin-herbal supplement industry and how Big Business in this predatory cannibalistic dog-eat-dog world is bent towards taking out small business.

In the last twenty years more and more US citizens have turned to more affordable alternative health for treatment and health maintenance. And no larger outlet within this alternative health movement is the vitamin supplement industry. Because Big Pharma sees this emerging alternative to using prescribed toxic drugs as a direct threat to their profits and monopolizing theft, Big Pharma has descended on Washington to destroy the vitamin and herbal supplement industry. Through the lobbying power that pours millions into the pockets of our elected representatives, effectively bribing US Congress, Big Pharma has manipulated a 1994 law designed to keeping us safe to seventeen years later passing another safety law designed to kill the burgeoning natural supplements industry.

As an outspoken critic of Big Pharma and the thoroughly broken healthcare system, health expert Dr. Gary Null has devoted decades to informing and educating us about the powers of natural healing through healthy diet. He recently produced an incisive, mind-blowing [documentary called "War on Health"](#) exposing the evils of the Food and Drug Administration that's 40% funded by Big Pharma as its hired guns and thugs out to cripple and destroy the vitamin herbal nutritional supplement companies. Using tactics straight out of Nazi Germany, they have been raiding, ransacking, locking up, extorting and attacking small companies across the United States selling wholesome and healthy natural supplemental products that have proven to do no harm - unlike Big Pharma.

Shamefully the US government has become a traitor and an enemy of the people in its criminal efforts to wipe out the one natural health business that actually has been proven to deliver positive results. Big Pharma has sought to sic the fascist fed army of 100,000 FDA Gestapo agents on what is most healthy and good for the people in order to eliminate our choice over our own self-care, health and well-being.

As an example of the hellish strategies the feds are currently pulling, beginning in this century the FDA have launched multiple raids arresting owners of organic coops and farms. In August 2011 the owner and farmers supplying products to [Rawesome Foods](#), an organic private food coop near Los Angeles, were raided and arrested. It involved no less than five government agencies seizing \$70,000 worth of produce and raw dairy products. The fact that it's a private company selling healthy organic food to its private members, thereby not needing the same licenses and permits required for selling to the public, didn't matter at all. These raids are out to make the bold reprehensible statement to small enterprising, health-conscious businesses nationwide. And that statement is Big Pharma via the feds are out to kill all fresh food and natural supplement products because they're literally too good for our health and precisely not the poisonous processed foods and toxic chemical prescription drugs that are notoriously bad for our health.

The Dietary Supplement Health and Education Act of 1994 was passed redefining vitamin supplements as food rather than drugs. Then under the deceptive cover of "safety," seventeen years later along came the falsely entitled [Food Safety Modernization Act](#) that Obama signed into law in January 2011. It was specifically designed to do Big Pharma's shady bidding as another draconian law that stands to allocate more taxpayer dollars to hire yet more FDA agents to shut down more organic farmers, trespassing our freedom to the extent of outlawing even vegetable gardening on our own private property. It imposes on the supplement industry proof that its products are safe with mandated independent scientific research. The irony of that preposterous ploy is that natural vitamins and minerals are far safer under current guidelines than the Big Pharma drugs known to be synthetic toxins, yet FDA protects them. This law was simply designed to enhance and protect Big Pharma, the FDA authority, the Big Agri-industry, Monsanto, GMO proliferation and attack small independent farmers and even ownership of non-GMO seeds. The law burdens farmers with additional paperwork bureaucracy as another means to drive small businesses into bankruptcy. Pomegranates, walnuts, cherries cannot be sold or advertised with the true claims that they have certain medicinal effects on human health.

This is what America the nation of the no longer free has become. Our US government goes to great lengths to make sure that large evil corporations out purely for profit and greed are protected at the detrimental expense of human lives, while harassing, arresting, fining and ultimately putting out of business companies and citizens that actually do us good, determined and dedicated to benefit our health and well-being. [Harassing, incarcerating and killing](#) innocent law abiding citizens who are only doing good for their fellow human beings have unfortunately and tragically become commonplace here in America. The fascist government no longer represents the people's best interests but by simple nature of oligarchy has co-opted with private profit-driven corporations to ensure our enslavement and vanishing freedom of choice. In its sinister aim of making and keeping us ill, Gov. Corp. (through Big Pharma and its co-opted feds as its teeth of enforcement) systematically and relentlessly resorts to criminal harassment and litigation while Big Pharma busily writes loophole legislation that our treasonous politicians sign off on that then authorizes FDA storm troopers sent out around the country literally tearing down small companies, farms,

retail stores and business owners that offer beneficial products that help us become and stay healthy. It's become an insane upside down world where the merging of Big Business and Big Government operates as a demonic criminal racketeering right out of the Mafia or Nazi Germany. The nightmare that is the New World Order is already here.

Speaking of Germany, there is an international organization that is in cahoots with the FDA out to completely eliminate any and all options we have to use natural means of vitamin and herbal supplements for our own health. Enter [Codex Alimentarius Commission](#) as a direct historical offshoot founded in 1962 by a Nazi responsible for concentration camp deaths and furnishing human subjects for Dr. Mengele's inhumane experimentation. This organization has regulated potency of vitamins limiting international unit strength of vitamin supplements in Europe. It virtually cuts off all supply of vitamin supplements on that continent that are therapeutically beneficial and currently working with the US FDA to do the same here. Tying it into the World Trade Organization as an international regulator, their next anticipated move will be toward "HARMonizing" uniform standards. There are also plans to impose a lowered standard of vitamin dosage that can be purchased over-the-counter and requiring higher dose levels that are necessary for any medicinal benefit to only be attained through prescription. Big Pharma is closing in on ensuring it gets its cut and as another means for making even more profits. By limiting the minimal international units on every vitamin supplement and thus rendering it completely ineffective and useless, the demonic control over what humans can and cannot ingest in their own bodies for their own well-being is usurping our rights and capacity to live healthy lives. Paul Hellyer in his book *The Evil Empire* states:

[The Codex Alimentarius Commission] will create a world without borders ruled by a virtual dictatorship of the world's most powerful central banks and multinational companies. This world is an absolute certainty if we all sit on our hands and do nothing.

The insidious evil addressed in my recent article "The Evils of Big Pharma Exposed" ends up a gross understatement of the growing cancer (both figuratively and literally) spreading to every corner of the globe. Meanwhile, half of Big Pharma's drugs on the market end up being recalled after harming and killing thousands of people. In fact, [Vioxx killed 60,000 Americans](#) before it was taken off the market, more than the number of Americans who died in Vietnam. A drug contaminated with the [HIV virus for hemophiliacs was known](#) by both drug makers Bayer and Baxter Pharmaceuticals to be deadly. Yet in their demonic lust for profit, the companies sold it in Europe, Asia and South America knowingly infecting and killing hundreds of children. Not one executive from either Bayer or Baxter was arrested or charged with a crime. Yet this clearly was murder. The FDA continues looking the other way allowing humans to die, doing nothing to stop Big Pharma's industry-wide practice that constantly places unsafe lethal drugs on the market.

This destructive totalitarian pattern of feds' harassing and demolishing the natural supplement industry is being replicated across the nation [against small business owners](#) who've caught the eye and ire of powerful special interests. The oligarchic system favors only Big Business and goes out of its way to eliminate all competition, regardless of its small size or not. All it takes is one individual with high connections to any number of government agencies in this massive security surveillance complex to, in one broad stroke, defame your name and reputation with lies, and the same army of federal destroyers are being unleashed to ruin yet more innocent people's lives. One can be an honest, hardworking,

ethically guided individual with sterling integrity and impeccable reputation all his or her life, but if for whatever reason a corrupt and ruthless player holding inside power connections decides to go after you with false accusations, your life and your small business can immediately be engulfed indefinitely in embattled conflict, legal harassment and irreversible turmoil.

Years of litigation and demands to produce hundreds if not thousands of bureaucratic paperwork document requirements are designed to wear down targeted individuals, forcing them to deplete their life savings in legal defense fees in efforts to right the wrong and clear their name. This is also what America has become, where those imbued with unlimited finances means, resources and power can abusively launch smear campaigns that result in honest, law abiding citizens going to jail on entirely fabricated charges. Especially since the 9/11 coup de tat, the system is heavily rigged as treachery abounds. The justice system we all thought protected us with constitutional rights is neither no longer upheld nor honored. Again, we as a people must rise up and fight the oppressive totalitarian regime that's made a complete mockery of our American ideals.

The ruling powers are currently utilizing the militarized arms of their fascist tyrannical governments around the world as henchmen executioners out to destroy any movement afoot that dare offers health and prosperity to us little people of the world. So it's up to us informed and empowered masses - the oligarch's most feared enemy - to start taking back our God given planet that is rightfully ours from the monsters who are harassing and poisoning us to death. We as one unified global population need to begin reclaiming our stretched-to-resilient limits, natural and sacred earth. We've been blessed with humanity's modern heroes such as Martin Luther King, Nelson Mandela and Mahatma Gandhi whose sacrifices have left us the powerful, inspirational legacy and gift to follow their lead practicing civil disobedience and the power of mindful choice to challenge the elite's scourge that's been afflicting our planet far too long. Let the truth, justice, wisdom and courage they demonstrated be our role models guiding us to victory.
