

Birds Not Bombs: Let's Fight for a World of Peace, Not War

Global Research, October 16, 2024

The Bulletin of the Atomic Scientists moved the Doomsday Clock from 100 seconds to 90 seconds in 2023. In January this year, the Clock remained unchanged.

However, with the ongoing escalation in the Middle East and Ukraine, will the Clock move ever closer to midnight?

Indeed, we are living at a crossroads where our governments neglect public opinion; so much so that worldwide People Power is necessary in the preservation of world peace and order.
