It is necessary to make leaders hesitate before indulging in “the paramount war crime” to quote the judges of Nuremberg, of “unprovoked aggression against a defenceless country”.

Unless leaders fear that they might be tried for their war crimes, we will live in an increasingly violent world, where The Geneva Conventions are treated as a joke, the UN is of no account, and death, destruction, torture, and repressive policing are commonplace. At the moment such leaders enjoy more and more trappings of power, and retire with vast sums of money, houses, medals and lucrative contracts. A group of UK Citizens have therefore set up an organisation, “The Blair War Crimes Foundation”, to initially bring one such leader to justice as an example.

To The President of The United Nations General Assembly, H.E. Father Miguel d’Escoto Brockmann, and The Attorney General of the United Kingdom, and their successors in office.

RE ANTHONY CHARLES LYNTON BLAIR

We, the citizens of the United Kingdom and other countries listed, wish to uphold The United Nations Charter, The 1998 Rome Statute of The International Criminal Court, The Hague and Geneva Conventions and the Rule of International Law, especially in respect of:-

1: 1949 Geneva Convention IV: Article 146

The High Contracting Parties undertake to enact any legislation necessary to provide effective penal sanctions for persons committing, or ordering to be committed, any of the grave breaches of the present Convention.

2: 1907 Hague Convention IV: Article 3

A belligerent party which violates the provisions of the said regulations shall, if the case demands, be liable to pay compensation. It shall be responsible for all the acts committed by persons forming part of its armed forces.

We therefore call on you to indict Anthony Charles Lynton Blair in his capacity as recent Prime Minister of the UK, so long as he is able to answer for his actions and however long it takes, in respect of our sample complaints relating to the 2003 Iraq War waged by the UK as ally to the United States of America.

We are concerned that without justice and respect for the rule of law, the future for us and our progeny in a lawless world is bleak, as revealed by recent US declarations about the use of torture and the events of December 2008 in Gaza show.

The following are our sample complaints relating to the Iraq War 2003-2009:

1: Deceit and conspiracy for war, and providing false news to incite passions for war, causing in the order of one million deaths, 4 million refugees, countless maimings and traumas.

2: Employing radioactive ammunition causing long-term destruction of the planetary habitat.

3: Causing the breakdown of civil administration, with consequent lawlessness, especially looting, kidnapping, and violence, and consequent breakdown of womens' rights, of religious freedom, and child and adult education.

4: Failing to maintain the medical needs of the populace.

5: Despoliation of the cultural heritage of the country.

6: Supporting an ally that employs 'waterboarding' and other tortures.

7: Seizing the assets of Iraq.

8: Using inhumane restraints on prisoners, including dogs, hoods, and cable ties.

9: Using Aggressive Patrolling indiscriminately, traumatising women and children and wrecking homes and property.

10: Marking bodies of prisoners with numbers, writing, faeces and other degrading treatment.

11: The use of cluster bombs and other indiscriminate weapons including white phosphorous on "shake and bake" missions.

12: Supporting indiscriminate rocket attacks from F16 fighter planes on women and children in Fallujah in Nov 2004

13: Supporting the shooting up of ambulances and medical personnel in Fallujah in Nov 2004

14: Supporting the expulsion of the entire population of Fallujah save for young men of

military age, for a reprisal attack on that city in Nov 2004.
