Boise, ID - 42 year old photojournalist Theresa Marie Palmgren died suddenly on April 5, 2023 while at work from pulmonary embolism ([click here](#))

The image shows a screenshot of an obituary for Theresa Marie Palmgren. On the left is a portrait of Theresa, a woman with dark curly hair, wearing a red shirt and sunglasses on her head, smiling. To the right of the photo are buttons for "Send Flowers" and "Share". Below these is the title "THERESA PALMGREN OBITUARY" in bold. The text of the obituary begins with "Theresa Marie Palmgren January 18, 1981 - April 5, 2023" and describes her as a beloved daughter, sister, aunt, and friend. It states she died suddenly on Wednesday, April 5, 2023, while at work from a pulmonary embolism. The text continues with details of her birth in Idaho Falls, ID, her education at Skyline High School and the University of Idaho, and her career in visual communications.

St. Louis, MO - 27 year old artist and Twitch streamer Katlyn "Katie" Mae Cuneo died suddenly (from pulmonary embolism) on March 17, 2023

Nicole Colombatto

2h · 🌐

In the early hours of last Friday morning, we lost my little sister, Katie. It was sudden and unexpected, and we still don't have a clear answer as to why. She was experiencing some pretty intense leg pain, which had been diagnosed as muscle strain. On the morning she passed away, she struggled to breathe and then collapsed. EMTs tried to resuscitate for about 90 minutes. She lost her life in an ambulance at the age of 27.

Katlyn "Katie" Mae Cuneo passed away on Friday, March 17, 2023 at the age of 27.

Katie was born on July 11, 1995 in San Diego, California, to Edward Cuneo and Kristen (Adkison) Cuneo, who survive. Also surviving, are two siblings; Nicole (Peter) Colombatto and Joseph Cuneo, maternal grandmother; Pam Brownell, paternal

Guatemala - Pennsylvania mother of two boys, 27 year old Rocio "Rose" Michelle Roberts died suddenly on March 15, 2023, 4 days after giving birth, from a pulmonary embolism.

Thousands poured into the streets of San Cristobal Verapaz, Guatemala to honor the life of a 27-year-old Pennsylvania mother of two boys (both under two years of age) on March 19, 2023, those who knew her told Daily Voice.

Rocio "Rose" Michelle Roberts passed suddenly on March 15, 2023, according to her sister-in-law Diana Ramirez.

On March 11, Rose delivered her youngest son, while attended by an indigenous midwife, just as she had with her first pregnancy. Four days later she died, but the cause of her death is not fully known. "She was doing well post delivery but then suddenly developed some complications. She was taken to a hospital in Guatemala, where she ultimately passed. The physicians believe it was a pulmonary embolism that caused her death," Ramirez explained in a follow-up conversation with Daily Voice.

Eugene, OR - 46 year old Bethany Jessica Scott Price, age 46, died of a pulmonary embolism on March 6, 2023, according to those familiar with her death ([click here](#))

Bethany Jessica Scott Price, 46, unexpectedly passed away on March 5, 2023, as a result of an undetected medical condition.

Bethany is remembered by her loving family and multitude of friends as an unusually empathetic and nurturing soul. She was a listening, sympathetic ear to those who were experiencing difficulties, often becoming the "mama" to those who needed extra love and hugs. Her ability to encourage the discouraged was phenomenal. She was fiercely loyal, and was generous with her time and affection—particularly if someone needed extra care.

More than anything else on earth, Bethany adored her family: husband Ryan, whom she met at age 15 and had loved every day ever since; and her daughters Georgia, Haley, and Harper. Bethany was an involved mama who deeply loved her girls and would go to the ends of the earth to guide and encourage them. The walls of their home are

UK - 31 year old beauty therapist Gemma Harries collapsed and died Jan. 16, 2023. She was found to have blood clots in her lungs and legs ([click here](#))

UK - 41 year old Clare Duffy went to take a nap after waking up with a sore shoulder and died suddenly of pulmonary embolism on Jan. 8, 2023 ([click here](#))

A mother-of-two who woke up one morning with a sore shoulder **died suddenly after suffering a pulmonary embolism**, her widower has revealed.

Richard Duffy, 38, described how he was left screaming after finding wife Clare dead.

The 41-year-old had gone back to bed for a nap after waking up with a sore shoulder, but never woke up again.

Her husband dialled emergency services but she was pronounced dead on 8 January, leaving behind him and their two heartbroken children.

UK - 40 year old healthcare worker Kelly Gleeson died of a pulmonary embolism on Dec. 29, 2022 ([click here](#))

Kelly Gleeson tried to sleep off her mysterious illness and tragically passed away

A 40-year-old woman who was suffering from suspected food poisoning died in her sleep and was tragically found unresponsive by her teenage daughter an hour later.

Care home worker Kelly Gleeson was later found to have died from a pulmonary embolism. Her heartbroken family told how the mum-of-one had decided to go to bed at around 6pm after spending most of the day throwing up.

Little Rock, AR - 18 year old cheerleader Victoria Moody died suddenly of pulmonary embolism on Oct. 23, 2022, after her dad took her to the hospital because she wasn't feeling well on Sunday evening ([click here](#))

Fareham, UK - 27 year old NHS nurse (who worked for Child and Adolescent Mental Health) Anna Harriman died suddenly in July 2022 of pulmonary embolism ([click here](#))

Monterey, CA - 51 year old Human Trafficking Outreach Manager Deborah Pembroke died suddenly on April 27, 2022 from a massive pulmonary embolus ([click here](#))

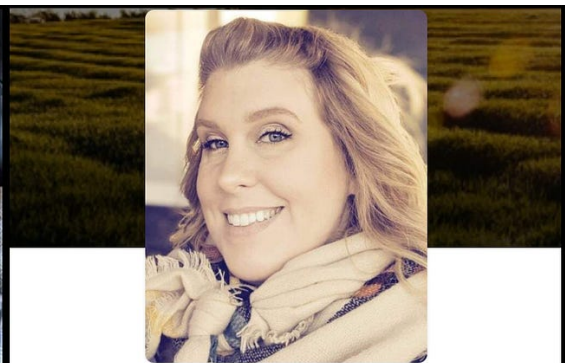

Memorial Fund for Deborah Pembroke

On Wednesday, April 27th, the precious and powerful Deborah Pembroke experienced an unexpected pulmonary embolism and passed away suddenly. Her husband was with her and held her while she passed.

This is a gracious ask for help with memorial expenses. Donations are going directly to Deborah's husband to help with costs for a green burial, a celebration of life and the creation of a memorial bench. Depending upon expenses and the amount raised, we also hope to raise funds to support her survivor community with travel expenses. All contributions are deeply appreciated.

Gering, NE – 36 year old Cylie Noel Wyatt died suddenly from a saddle pulmonary embolism on May 19, 2022 ([click here](#))

1985 — *Cylie* — 2022

Cylie Wyatt

June 19, 1985 – May 19, 2022

Cylie Noel Wyatt, 36, of Gering, passed away suddenly on Thursday, May 19, 2022, from a saddle pulmonary embolism. Cylie had a kind heart and chose to be an organ donor, so this tragedy will bring life to others. Cremation has taken place. A memorial service will be

Houston, TX – Rice University director of student media, 46 year old Kelly Lash died suddenly on Feb. 21, 2022 died of pulmonary embolism ([click here](#))

Kelley Lash, a beloved mentor and colleague who served as Rice's director of student media, died Feb. 21 of a pulmonary embolism. She was 46.

Her sudden passing stunned students and alumni who relied upon Lash's advice and guidance. The

Washington, DC - 28 year old law student at Howard University, Saron Berhe, died suddenly of pulmonary embolism on Jan. 17, 2022 ([click here](#))

UK – 23 year old Georgina Furniss died suddenly of large saddle pulmonary embolism on June 21, 2021 ([click here](#))

My Take...

Pulmonary embolism (blood clots in the lungs) as an adverse event following COVID-19 mRNA vaccination has been well known since the vaccines were rolled out. Here is a case report of a 59 year old woman with pulmonary embolism 7 days after 1st Pfizer dose, published in June 2021. **They always knew.** ([click here](#))

Shockingly, World Health Organization’s VigiAccess database records 29,046 pulmonary embolism adverse events following COVID-19 vaccination!

When a condition is as fatal as pulmonary embolism, 29,000 people reporting this to the WHO is an absolutely staggering number.

Anecdotally, women seem to be more affected by this adverse event, although it does happen to men as well.

Although a product like The Wellness Company’s Spike Support formula ([CLICK HERE](#)) contains Nattokinase, an enzyme that breaks down blood clots including those in the lungs, most people don’t know that they’re suffering from post COVID-19 vaccine blood clots until it’s too late.

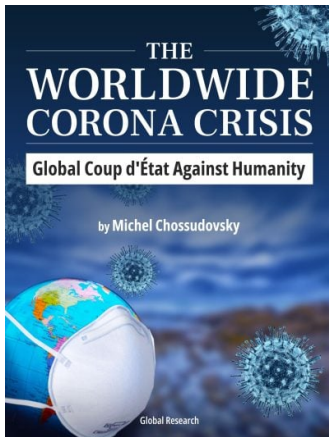

That’s why it is so crucial to wake as many people up as possible.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
