## Outstanding Analysis and Historical Overview by Rodney Atkinson

*As the world approaches a new war with nuclear weapons openly discussed (and even loudly advocated by the US Senator and foreign policy "expert" **Lindsey Graham**) and as openly Fascist/Nazi movements in Ukraine are armed and trained by western powers, **these four books are worth reading which described the seeds of this crisis in post-second world war Europe and America and to a great extent predicted it.***

How did the western part of the victorious anti-fascist coalition of 1945 become a supporter of war against Russia without which the Nazi tyranny would not have been defeated?

How did Britain and the USA who lost so much liberating Europe in 1945 end up on the side of an openly Nazi society like Ukraine whose war time collaboration with Nazi Germany and massacre of Poles and Jews is reflected today in the Nazi military movements of Azov, Aidar, Right Sector and C14, in public statues and annual celebrations of Nazi collaborators and in the killing of thousands of Russians in Eastern Ukraine?

The answer is in these four books which describe **the rise of corporatist fascism in Europe since the 1950s** and the absorption of once democratic, freedom-loving Britain into that European Union based on the Nazi principles of 1943 (*Die Europaeische Wirtschaftsgemeinschaft* - see our book *Treason at Maastricht*).

## The Destruction of the Nation State

Rodney Atkinson      Norris McWhirter

Voting to leave the European Union in 2016 did not stop the British political class allying itself to the equally pernicious prison of NATO/EU military structures and the attack on Russia through Ukraine.

World War is being courted and Ukraine is being destroyed on the altar of US neocon imperial ideas, German Europe's "Push to the East" and a decadent British political class surrendering to Russophobia and leading the rhetorical charge. These books written between 1994 and 2013 explain how and why.

**The other critical ingredient in both the suppression of democratic dissent at home and the extension of imperial power abroad - Corporatism - is covered in many posts on this [freenations.net](http://freenations.net) website.**
