Ask that you pray for my cousin, Diane and their families in the loss of her daughter, Krissy. She died suddenly from an aneurysm in the brain in Arizona. They are flying her back to Memphis. Her funeral is on June 17, 2023. She was getting ready to start her Doctorate program this June. She leaves a 4 year old son and husband. I ask for healing, restoration, and financial blessings in the mighty name of Jesus, Amen.

#Finalpostfor2022 If you're reading this then **congratulations** it's 2023. We are on the brink of the New Year in AZ. This is one of my favorite times of the year as it signifies change and transition to the new. As I reflect over the past year it was some great memories for me. I decided to move to a new city in 2022 and it was a good decision. I am honored to watch my son Micah continue to grow and learn. I **accomplished a lifelong goal of completing my Masters degree and expanding my knowledge of the healthcare field.** It takes a lot of patience, hard work, and determination to complete an Advanced degree. I am proud of myself!!

June 4, 2023 – Alfredo Vasconcelos, Brazil – 36 yo mayor Mauro Cesar de Oliveira, aka Maurinho, died suddenly at home while eating lunch. He had a ruptured carotid artery aneurysm.

The City Hall of **Alfredo Vasconcelos** confirmed, this Sunday afternoon (4), the death of the mayor **Mauro César de Oliveira, Maurinho**. The 36-year-old parliamentarian was admitted to the Intensive Care Unit (UTI) at Hospital São Judas Tadeu, in Oliveira.

- [Share on WhatsApp](#)
- [Share on Telegram](#)

According to updates made by the Municipal Secretariat of the Office, Governance and Management of Alfredo Vasconcelos, **Maurinho had a sudden illness on Tuesday (30), at home, while having lunch.**

He was rescued by a health unit in Alfredo Vasconcelos and taken to the Regional Hospital of **Barbacena**, where it needed to be intubated. From there, he was transferred to Oliveira, who has a reference hospital with high complexity in endovascular neurosurgery.

Friends are shocked at the sudden passing of Kiwi artist Enuake Sirikige.

Paul Anakakul remembers his close friend Enuake Sirikige complaining about having a headache.

That Friday evening, on April 21, the talented Kiwi graffiti artist of Thai and Cook Island descent collapsed and died suddenly at a petrol station in Kingsland.

Fondly known to friends and loved ones as Enu, Sirikige was aged just 46 when he died.

“I’ve lost not only one of my best friends but also my brother,” said Anakakul, who owns At Bangkok restaurant in Kingsland.

On that fateful Friday, Sirikige was just lifting a box to put in his car when he collapsed with no warning.

“When the people at the liquor store, who knew he was a friend of mine, called me and told me what happened, I just closed my restaurant and rushed there,” Anakakul said.

“Two ambulances were there. His heart had stopped, but they managed to get it going and I thought he’d be okay. Then they lifted him into the ambulance and it stopped again.”

Anakakul said Sirikige died from a brain aneurysm.

April 23, 2023 – Milton Keynes, UK – Amelia Hempel Jorgensen, research fellow at Open University, died suddenly from ruptured brain aneurysm.

Mark Olssen
@MarkOlssen

An homage to Amelia Hempel Jorgensen, friend and colleague, who died of a brain aneurysm on 23rd April 2023. Amelia was a research fellow at Open University, UK; with degrees from Australia, Denmark and London. An important inspiration to my book Constructing Foucault's ethics.

Patricia Ford's family and friends are fundraising on behalf of Denis Ford.

2 hours ago • [Medical](#)

We are the family of Patricia Ford and we are fundraising for one of the most beautiful and kind people we have ever met.

If you ever met Patricia, you would know exactly what we mean. She is bubbly, positive, and always looking out for others.

On April 22nd 2023, Patricia suffered a brain aneurysm at home, after being transported via ambulance to the Niagara Falls Hospital, and then Hamilton Hospital, it was discovered she had a brain aneurysm which has resulted in multiple brain surgeries to reduce the bleeding and swelling, she is on the road to recovery.

It can take weeks or months for her to make a recovery. It's also unclear how this will affect her life and her doctor says there may be long-term effects. However, that is all unknown. What is known, is that she is a fighter.

April 10, 2023 - Racquel Salespara, mom of 9, collapsed while at work in Toronto, Ontario. Racquel suffered a brain aneurysm and this triggered a stroke. MRI scans showed that this caused immense damage to her brain. She was declared brain dead at 45 years old ([click here](#)).

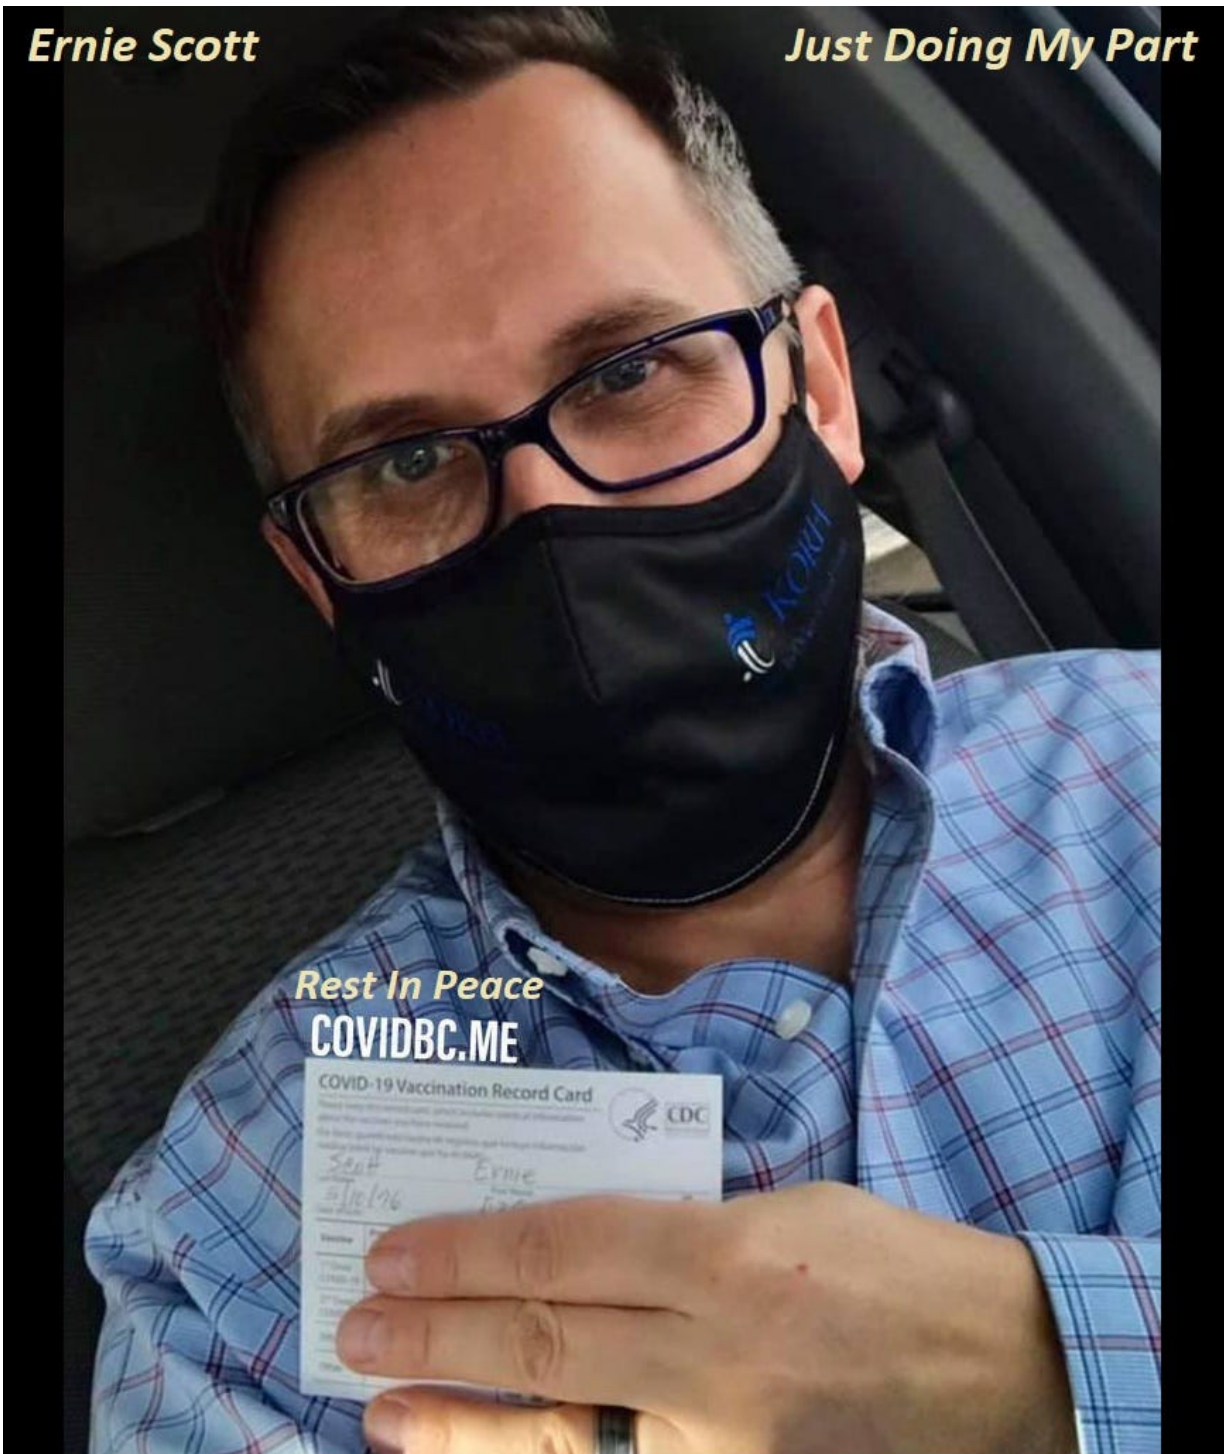

Passing of Racquel Marquez. Mom of 9.

Just Doing My Part

March 6, 2023 - Stendal, IN - 22 year old Nilam Hagemeyer died suddenly on March 6, 2023 from a brain aneurysm.

 Rachel Anne Hagemeyer
April 30 · 🌐

We have been planning a vacation for months with our whole immediate family. We devastatingly lost our daughter in March from a brain aneurysm. We nearly cancelled our trip because we are all sad but have reconsidered for our other kids. She loved Stitch. Do you think he would take a picture with her picture? IF I can do without all of us falling apart that is..

Nilam Hagemeyer

Joshua Robert Howe

November 9, 1982 - February 20, 2023

Obituary

On February 20, 2023, Josh Howe age 40 of Sioux Falls, passed away unexpectedly from a brain aneurysm. He was surrounded by loved ones in the home he built for his family. Family will greet friends from 5:00-7:00 Pm, with a scripture service at 7:00 PM, Tuesday, February 28, 2023 at Miller Funeral Home 507 S. Main Avenue. A funeral Mass will begin at 10:30 AM, Wednesday March 1, 2023 at St. Katharine Drexel Catholic Church, 1800 S. Katie Avenue. A private family burial will follow at Woodlawn Cemetery. In lieu of flowers memorials may be directed to the family for a charity to be selected.

Jan. 25, 2023 - Olympic bobsledder Duncan Pugh died at the age of 48 after a sudden brain aneurysm ruptured, causing a "catastrophic bleed" ([click here](#)).

Australian Bobsledder Duncan Pugh Dead at 48 After Sudden Brain Aneurysm

Pugh was remembered as "a legend" of the sport and "the best dad anyone could have hoped for"

By [Natasha Dye](#) | Published on January 31, 2023 01:09PM EST

PHOTO: ROBERT CIANFLONE/GETTY

Olympic bobsledder Duncan Pugh died at the age of 48 after a sudden brain aneurysm last week, *The West Australian* confirmed.

The Olympian experienced a brain aneurysm on Jan. 24, and died a day later after "a catastrophic brain bleed" that "sadly left him in an unrecoverable position," according to a [GoFundMe page](#) set up to help with medical costs.

Pugh, who represented Australia in bobsledding at the 2010 Vancouver Winter Olympics, is survived by his wife McKenzie, and two young sons, Charlie and George.

"We are heartbroken and simply lost for words," McKenzie wrote in his obituary. "Taken far too soon. You were the rock of our family and wore your heart on your sleeve. You were so very proud of our two boys, the best dad anyone could have hoped for. Your passion and determination will forever live on in our boys."

My Take...

I have written several substacks on ANEURYSMS:

- [March 20, 2023](#) – Brain Aneurysms – Part 1
- [April 21, 2023](#) – Brain Aneurysms – Part 2 (including Jamie Foxx)
- [July 4, 2023](#) – Aneurysms killing social media stars

An aneurysm is an abnormal swelling or bulge in the wall of a blood vessel, such as an artery. **It begins as a weak spot in the blood vessel wall**, which balloons out of shape over time by the force of the pumping blood.

Aneurysms can be potentially fatal if they rupture. Death can occur within minutes. About 25% of people who experience a brain aneurysm rupture die within 24 hours. Around 50% die within 3 months of the rupture due to complications.

Aneurysms are a well known complication of COVID-19 mRNA vaccines.

The COVID-19 vaccine **spike protein, when expressed in blood vessel walls, causes inflammation which damages the wall**, leading to the formation of an aneurysm.

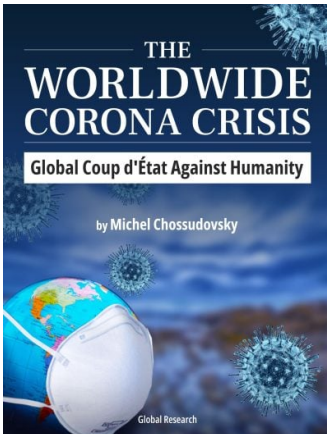

There are many cases of **ruptured aneurysm following Pfizer or Moderna COVID-19 mRNA vaccination in the US VAERS database, some of them fatal!** ([click here](#))

One Japanese study looked at 3 cases of brain aneurysms that developed after Pfizer COVID-19 mRNA vaccination. All 3 were women. ([click here](#))

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
