My baby boy is gone. I am jealous of the life he now lives with Jesus. He was the most wonderful boy. My heart is broken.

Zayne had a terrible headache last night around 10:30. At midnight he called out for me and when I went to check on him we knew something was wrong. He said he couldn't see and he was slurring and not making sense. We called the ambulance and they got him to the hospital where they did a CT and **discovered he had a brain bleed. It was a catastrophic bleed.** After a few minutes in the ER he never regained consciousness. After numerous tests, the doctor just came in and declared him brain dead. We are now waiting for the organ donation team to come and take our boy. Thank you Lord for allowing our Zayne to be a blessing to so many.

We could not be more proud of you. I love you forever my Bubbie.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
