*A former Federal Prosecutor sat down with The Daily Caller to give perhaps the most comprehensive rundown of the Obama Administration’s “**brazen plot to exonerate Hillary Clinton**” and “**frame an incoming president with a false Russian conspiracy.**”*

In this highly recommended 30 minute interview with **Joe diGenova**, the former Special Counsel who went after both the Teamsters and former NY **Governor Elliot Spitzer**, paints a very clear picture of collusion between the Obama administration, the FBI, the Clinton campaign and opposition research firm Fusion GPS.

From the [Daily Caller](#):

The FBI used to spy on Russians. This time they spied on us. what this story is about – a brazen plot to exonerate Hillary Clinton from a clear violation of the law with regard to the way she handled classified information with her classified server. **Absolutely a crime, absolutely a felony.** It’s about finding out why – as the Inspector General is doing at the department of justice – **why Comey and the senior DOJ officials conducted a fake criminal investigation of Hillary Clinton. Followed none of the regular rules, gave her every break in the book, immunized all kinds of people, allowed the destruction of evidence, no grand jury, no subpoenas, no search warrant. That’s not an investigation, that’s a Potemkin village. It’s a farce.**

And **everybody knew it was a farce. The problem was, she didn’t win.** And because she didn’t win, the farce became a very serious opera. It wasn’t a comic opera anymore, it was a tragic opera. And she was going to be the focus.

What this is about, this is about a lavabo, a cleansing of FBI and the upper echelons of the Department of Justice.

We’re going to discover that the Attorney General, Loretta Lynch, her deputy Sally Yates, the head of the national security division John Carlin, Bruce Ohr and other senior DOJ officials, and regrettably, lying attorneys. People who were senior career civil servants violated the law, **perhaps committed crimes, and covered up crimes by a presidential candidate - but more than that, they tried to frame an incoming president with a false Russian conspiracy that never existed, and they knew it,** and they plotted to ruin him as a candidate and then destroy him as a president. That’s why this is important. That’s why

connecting the dots is important.

DiGenova condemned the FBI for working so closely with the controversial Fusion GPS, **a political hit squad paid by the DNC and Clinton campaign to create and spread the discredited Steele dossier about President Donald Trump.** Without a justifiable law enforcement or national security reason, he says, the FBI “created false facts so that they could get surveillance warrants. **Those are all crimes.**” He adds, **using official FISA-702 “queries” and surveillance was done “to create a false case against a candidate, and then a president.”** -Daily Caller

During the interview, DiGenova holds up and references a previously unreported and heavily redacted 99-page FISA court opinion from April, 2017, which **“describes systematic and on-going violations of the law [by the FBI and their contractors using unauthorized disclosures of raw intelligence on Americans]. This is stunning stuff.”**

NSA Admiral Mike Rodgers: An American Hero

diGenova also discusses the immense risks taken by retiring NSA director, Mike Rogers – who briefed Trump on Nov. 7, 2016 about the Obama administration’s surveillance of the Trump team. The next day, the Presidential transition team was moved out of Trump tower and into the president-elect’s Bedminster, NJ golf course until they could sweep for bugs.

Uranium One and other matters

Also discussed in the interview are the Uranium One scandal, Mueller’s “tainted” probe, and the consequences of the Democrats regaining control in the November midterms – which would most certainly lead to an effort to impeach Trump.

“It’s important for the House to complete its work now,” says diGenova.
