Two missiles were fired at 06.45 p.m. when government forces were repulsing Al-Qaeda's attacks in the vicinity of the city of Quneitra.

The remnants of an Israeli missile that hit SAA Golan regiment's tank.

The incident led to heavy losses of equipment and material in the Syrian Arab Army.

There are reports that Al-Qaeda terrorists infiltrated Quneitra from the Golan Heights occupied by Israel with the aim to strengthen the front in Madinat al-Ba'ath.

Apparently, Israel had prepared and launched a missile strike in order to provide **artillery support to Al-Qaeda terrorists**. The Israeli drones recorded in the province of Quneitra make it possible to conclude that Al-Qaeda is provided with reconnaissance information from the battlefields with Israel help too.
