Today, the dangers of military escalation are beyond description.

What is now happening in Ukraine has serious geopolitical implications. It could lead us into a World War III scenario.

It is important that a peace process be initiated with a view to preventing escalation.

Global Research condemns Russia's invasion of Ukraine.

A Bilateral Peace Agreement is required.

Tass released on 9 March 2022 a news bulletin (yet to be confirmed) asserting that the Russian Defense Ministry got hold of a Secret Plan concocted and issued by the Commander of the Ukrainian National Guard Colonel General Nikolay Balan, on January 22, 2022.

The order from the Ukrainian commander was to assault the Donbas Peoples Republics of Donetsk (DPR) and Lugansk (PRL), by a combat coordination of the battalion tactical group with the 80th Separate Airborne Assault Brigade of the Ukrainian Armed Forces. This brigade was trained since 2016 by US and British instructors in accordance with NATO training programs.

The attack was to take place in March 2022. For full details, see [this](#).

It may well be that this secret document prompted President Putin to carry out the sudden intervention in Ukraine on 24 February, before the planned offensive on Donbas could take place - and thereby disarm the entire Ukrainian military, and especially neutralize the Nazi

forces in the Ukrainian government.

Further conditions by Russia to the western powers, NATO / US / EU - that NATO never enters Ukraine, and that NATO withdraws all its bases from the east to the geographic positions before 1997. This may become a long negotiation. It may last as long as the completion of the UN Agenda 2030, when, according to Klaus Schwab, "you'll own nothing And You'll be happy."

According to Klaus Schwab's latest slogan in the race to the Great Reset - it's no longer *the big fish eating the small fish, but the fast one swallowing the slow one*. Makes me think - is it possible that Mr. Schwab, on behalf of the WEF and of the dark powers driving the WEF, made the Commander of the Ukrainian National Guard "leak" the secret plan of an imminent attack on the Donbas provinces?

It would explain the "coincidence" of *Exit Covid* and *Enter the War in Ukraine*. It would buy time by also creating the chaos, havoc and fear needed - as did Covid - to implement the full agenda of WHO's power over sovereign nations (see [this](#) and [this](#)).

It would allow digitization of everything, beginning with money; executing the Bill Gates Agenda ID2020, alias QR-coding of everything and every surviving world citizen; putting in place a full surveillance program and control over all monetary resources - possibly creating a digital One World Currency (OWC), and keeping chipped humanoids, or transhumans in check with 5G-fed algorithms and AI.

This is of course pure speculation.

Stay tuned.
