ACCORDING TO CNN AND MEDIA REPORTS

The United States launched a military strike Thursday on a Syrian government target in response to tOn President Donald Trump's orders, US warships launched 59 Tomahawk cruise missiles at a Syrian government airbase where the warplanes that carried out the chemical attacks were based, US officials said.

THIS CONSTITUTES AN ILLEGAL ACT OF AGGRESSION

The evidence amply confirms that the pretext and justification to wage these attacks is fabricated.

The Western media refutes their own lies.

Not only do they confirm that the Pentagon has been training the terrorists in the use of chemical weapons, they also acknowledge the existence of a not so secret "US-backed plan to launch a chemical weapon attack on Syria and blame it on Assad's regime"

London's Daily Mail in a 2013 article confirmed the existence of an Anglo-American project endorsed by the White House (with the assistance of Qatar) to wage a chemical weapons attack on Syria and place the blame of Bashar Assad.

U.S. 'backed plan to launch chemical weapon attack on Syria and blame it on Assad's regime'

- Leaked emails from defense contractor refers to chemical weapons saying 'the idea is approved by Washington'
- Obama issued warning to Syrian president Bashar al-Assad last month that use of chemical warfare was 'totally unacceptable'

Leaked emails have allegedly proved that the White House gave the green light to a chemical weapons attack in Syria that could be blamed on Assad's regime and in turn, spur international military action in the devastated country.

A report released on Monday contains an email exchange between two senior officials at British-based contractor Britam Defence where a scheme 'approved by Washington' is outlined explaining that Qatar would fund rebel forces in Syria to use chemical weapons.

The Pentagon's Training of "Rebels" (aka Al Qaeda Terrorists) in the Use of Chemical Weapons

CNN accuses Bashar Al Assad of killing his own people while also acknowledging that the "rebels" are not only in possession of chemical weapons, but that these "moderate terrorists" affiliated with Al Nusra are trained in the use of chemical weapons by specialists on contract to the Pentagon.

In a twisted logic, the Pentagon's mandate was to ensure that the rebels aligned with Al Qaeda would not acquire or use WMD, by actually training them in the use of chemical weapons (sounds contradictory):

"The training [in chemical weapons], which is taking place in Jordan and Turkey, involves how to monitor and secure stockpiles and handle weapons sites and materials, according to the sources. Some of the contractors are on

the ground in Syria working with the rebels to monitor some of the sites, according to one of the officials.

The nationality of the trainers was not disclosed, though the officials cautioned against assuming all are American." (CNN, December 09, 2012, emphasis added)
