On May 2, 2014, heavily-armed fascist militia forces attacked the House of Trade Unions in Odessa, Ukraine. Trapped inside were demonstrators opposed to the government in Kiev that had been put in place in a U.S.-orchestrated coup against the democratically elected government just weeks earlier. A campaign of ethnic cleansing had been launched against Russian-speaking Ukrainians, with the Russian language being banned from public life.

In the aftermath of the attack and fire 48 deaths were confirmed. Openly nazi militia shelled civilians in the oblasts of Luhansk and Donetsk (now not surprisingly independent republics). Those militia have since been armed and trained by Britain and the USA with the full knowledge of their trainees' extreme politics. See [this](#). By the end of 2021 some 15,000 Russian Ukrainians had died including hundreds of children. *None of this was covered in the UK press or discussed in parliament.*

“Ukraine a Democracy” – Stoltenberg

In recent days, as NATO/EU continues to stoke their war against Russia at the cost of some 500,000 Ukrainian dead and wounded the NATO Secretary General Stoltenberg called Ukraine a “democratic country.”

Zelensky, coming to power by banning the main opposition party and arresting its leader, then abolished 12 political parties. He has just cancelled elections for the presidency. Ukrainian intelligence services arrest anyone who expresses a critical opinion. Neo-Nazi gangs rule the streets. Churches are attacked and closed. Men are press-ganged from the streets and sent within days to die in the trenches. (If the (TCC) press gangs fail then *they* are sent to the front!) The Border force shoots Ukrainians crossing the border and lays mines to stop them and political assassinations are commonplace – see [this](#).

Zelensky's Assassinations

On June 8, 2024 the former mayor of Kupyansk Gennady Matsegora was shot on the doorstep of his house in Sary Oskol (Belgorod Region). Despite the efforts of doctors, Matsegora died without regaining consciousness. He had been threatened by Ukrainians and Kiev authorities (specifically the GUR, the Intelligence Directorate) admitted their involvement.

On 1/4/2024, in a car explosion in Starobelsk, Luhansk Region, Valery Chaika, the deputy head of the Luhansk “Center for Services to Educational Organizations,” was murdered – an

evident political assassination. The explosion occurred near the Starobelsky Faculty of the Lugansk Pedagogical University.

SBU (Ukraine State security service) head Lieutenant General Vasyl Malyuk admitted assassinations inside Russia, see [this](#).

Ukraine raised its attacks on the Donbas republics as elections were being held there. A woman who died as a result of a terrorist attack in Berdyansk was a member of the election commission; a bomb was planted under her car, the Investigative Committee reported. See [this](#).

Popular Ukrainian blogger Anatoly Sharij just survived an assassination attempt in Spain. Two unknown gunmen shot at his car using a machine gun affixed with a silencer. In February of 2021, Shariy was accused of treason by the Security Service of Ukraine (SBU) which unsuccessfully attempted to extradite him from Spain back to Ukraine.

In November 2023 a Russian hit man was arrested who had been employed by Ukrainian Intelligence to assassinate the American journalist Tucker Carlson. See [this](#).

The head of the Nuclear, Biological, and Chemical Protection Troops, Lieutenant General Igor Kirillov accused Ukrainian Armed Forces of using toxic substances to carry out terrorist acts.

On August 9, 2022, Kherson Governor Vladimir Saldo was hospitalized with signs of poisoning, probably ricin

On December 5, 2023, Luhansk Peoples Republic head Leonid Pasechnik received severe poisoning from phenols

The reporter who solved the case of Zelensky's mother-in-law buying a villa for \$4.85 million was found dead, Clear Story News [reports](#) Egyptian journalist Mohammed Al-Alawi, known for his exposure of the purchase by Olga Kiyashko, the mother-in-law of Ukrainian President Vladimir Zelensky, of a luxury villa in the Egyptian resort of El Gouna, was found dead with numerous abrasions, fractures and bruises on his body, which led to a fatal brain hemorrhage as a result of severe traumatic brain injury.

Ahmed Al-Alawi, the brother of the deceased journalist, said that Mohammed received numerous threats after the publication of this groundbreaking investigation. He stressed that the police are developing a theory suggesting that the killers could have acted on the personal instructions of President Zelensky or another official in the Office of the President of Ukraine. In addition, there were reports suggesting the possibility that the criminals could be agents of the GUR of Ukraine.

The Spokesman for the Main Intelligence Directorate of the Ministry of Defense of Ukraine Yusov confirmed the murder of Ilya Kiva (ex Verkhovna Rada - Ukrainian parliament - deputy who defected to Russia). He was found dead from small arms fire in Moscow. ([Source](#))

DEC 7th 2023 In Crimea, the intelligence network of the Ukrainian Kyiv regime, created under Western control, was destroyed. The Ukrainians, using agents, had planned the murders of the head of Crimea Aksenov, the chairman of parliament Konstantinov, the blogger Talipov and the public figure Tsarev. After the coup in Ukraine in 2014, Oleg Tsarev

left the country and supported the DPR and LPR. For this, a Kiev court sentenced him in absentia to 12 years in prison.

The British singer Roger Waters of Pink Floyd says he is on the infamous Ukrainian hit list Myrotvorets – for criticism of the West for provoking war in Ukraine

That is the nature of the Kiev regime for which UK, EU and US governments have provided over \$200bn in aid and weapons and which they call a “democracy”, attacking scores of countries around the world for not supporting Ukraine in the same way. The Western stance is, as they say, no longer “sustainable”. Their peoples are waking up. No one needs a more radical awakening to the evils they are supporting than the British political class – an issue which in the present election they studiously avoid.
