

Canadian Doctors Pursue Answers on Pandemic-era Unexplained Deaths Among Alberta Children

By [Dr. William Makis](#)

Global Research, August 19, 2024

Western Standard and COVID Intel

Alberta children have been dying for undetermined reasons [since the start of the COVID-19 crisis](#) — and the numbers are shocking, according to Canadian doctors speaking out on the matter.

From 2020 to 2022 the ‘number of unexplained deaths’ among children and adolescents in the province rose by more than 3,000%,” [according to data from](#) Alberta Health Services (AHS), the doctors said.

AnInjectionOfTruth.ca	Baseline Average Unknown Deaths in Alberta 2001-2022 by Age and Annual Percentage Change							
	Calendar Year	0-4 years of age	5-9 years of age	10-14 years of age	15-19 years of age	Grand Total (all ages)	0-14 years of age	0-19 years of age

Unexplained deaths in Alberta children (An Injection of Truth)

Dr. Mark Trozzi, emergency medicine expert and practicing physician of 25 years, noted “the actual numbers are still small, but the percentage increase is extremely high.”

Unexplained deaths in Alberta children (An Injection of Truth)

The issue arose when doctors presented their findings at the United Conservative Party-endorsed [An Injection of Truth](#) event in June, and asserted the significant uptick in [unexplained child deaths](#) could be traced back to the [mandatory mRNA injections and](#) the impacts of lockdowns on children's health.

Speaking at a press conference at a later date, Calgary-Lougheed UCP Constituency Association President Darrell Komick, who led a panel of five Canadian doctors who had presented at the An Injection of Truth event, said it's "highly unusual for children in our society to die at all; and it is extremely unusual for them to die and for us to not know why."

Worse, as Dr. William Makis told the conference, the office of Chief Medical Officer Deena Hinshaw started removing data on immune system damage in the double-vaccinated until the entire category of vaccine outcomes was deleted by summer 2022.

Makis later shared screenshots of the deleted data with the *Western Standard*, organized by the date each section was deleted.

Vaccine outcome data (Dr. William Makis)

AHS spokesman James Wood told the *Western Standard* the questions regarding unexplained deaths "would be for Alberta Health (Ministry of Health)" and not AHS. He did not elaborate on the figures sent in the request for comment.

Alberta government deletes COVID-19 Vaccine outcome data

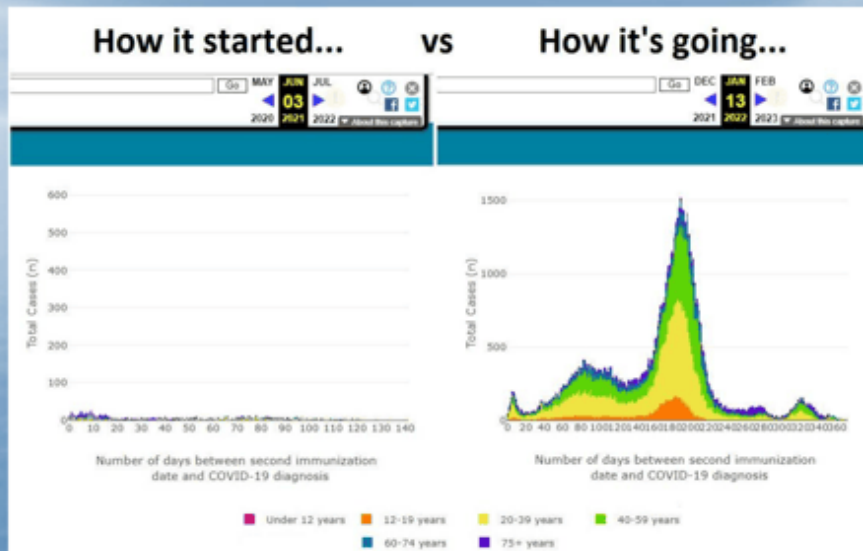

Figure 11 was deleted by Alberta government on January 14, 2022

Vaccine outcome data (Dr. William Makis)

Alberta Health Minister Adriana LaGrange's office told the *Western Standard* the phenomenon could be explained by coding processes [in partnership with StatsCan](#). In Alberta, "when deaths are initially registered, the cause of death is not coded at that time," wrote spokesperson Andrea Smith.

The minister's office said Statistics Canada later inputs the cause of death. "Once the cause of death is identified, it is reclassified in vital statistics data. This means that more recent deaths are frequently coded as 'unexplained' until they are reclassified," wrote Smith.

LaGrange's office mentioned Premier Danielle Smith's UCP government's recently established [COVID-19 pandemic Response Task Force](#), created "through the Health Quality Council of Alberta to review pandemic-related data and to inform future decision making."

"We will be reviewing their recommendations when presented," wrote Smith. No acknowledgement of the sudden spike in child deaths was made.

However, despite AHS's side-stepping and Alberta Health's explanation, Canadian doctors say there's more to the story.

Dr. Chris Shoemaker, a comprehensive physician from Toronto, and member of the College of Family Physicians of Canada, at the An Injection of Truth event told the 550-strong crowd and a further 18,000 viewers watching the live stream he and his colleagues had received "enormous pushback," including some of them losing their medical licence, but hoped what he called a "conciliation tour" would let Canadians know they wanted to inform the public on what they say is the truth [about the experimental injections](#).

The tour's stated goal is to open up discussion and offer the public a different perspective on the impacts of the mRNA jabs on children. Doctors who [still maintain the vaccine](#) is "safe and effective" were repeatedly welcomed to speak, with a standing invitation open until the

event kicked off. None responded to the call.

Injection of Truth <https://t.co/ODtyX74461>

— Sheldon Yakiwchuk (@YakkStack) [June 17, 2024](#)

Trozzi speaking at the press conference theorized that the increase in unexplained deaths in children in 2020 could be related to pandemic-era “lockdowns, closing schools, closing the parks, shutting down exercise and sports and keeping kids from getting sunshine.”

These things, he said, amounted to “a violation of their immune systems.” His colleagues elaborated the window from zero to six years in a child’s life is critical for developing a healthy immune system.

□□□ Canadian doctor, Mark Trozzi makes an appeal to the public to help stop COVID vaccine injections due to their serious health risks :

“I want to call on all of us to renew and deepen our commitment to save the lives of our children and each other.

PLEASE do not let... <pic.twitter.com/7odYzOyZtc>

— Kevin - WE THE PEOPLE♥ - DAD□ (@bambkb) [July 29, 2024](#)

“If children are not properly exposed to microbial environments during that time frame, it can impact their immune system and render them much more susceptible to things like autoimmune diseases, allergies, and other diseases that have a dysregulated immune system,” said Dr. Byram Bridle, a viral immunology professor at the University of Guelph. On top of that, vaccines were rolled out, “which were not needed in these children. There was no rationale,” he said.

Makis, an immunologist, oncologist and radiologist said that in 2022, he started seeing in the data “children were dying suddenly.” That was after the rollout of the first two doses of COVID-19 mRNA injections for children five to 11 years old, which he called for an immediate halt of in March 2022, and boosters for adolescents 12 to 19 years old.

“They didn’t need booster shots. But we have this massive rollout, hundreds of thousands of children (injected) in early 2022. And by the end of 2022, we had the deadliest flu season with the most pediatric deaths we have ever had in Canada,” said Makis.

This phenomenon is called “negative vaccine efficacy,” which means the person is more likely to get COVID-19 a few [months after the injection](#) than an unvaccinated person.

Makis seconded Trozzi’s assertion “children’s immune systems have gone through multiple assaults” after years of lockdowns and masking, but took it one step further — “we compounded that assault with the COVID-19 vaccines. Not just the first two doses, but the continued issuance of booster shots for children that didn’t need them. We know that there’s a complete change in the immune system” and it “completely screws up their

immune systems by the third shot," he said.

"And yet we have this continued push by AHS and other health institutions on these injections that are damaging children's immune systems. We had healthy children dying of influenza, strep, of sepsis, of meningitis, at numbers we had never seen before."

INTERVIEW – Dr.Chris Shoemaker [@CShoemakerMD](#) and Dr.William Makis discuss COVID-19 mRNA vaccine induced Turbo Cancers

immune system damage, autoimmune diseases, myocarditis, shedding & more

Dr.Shoemaker is a Canadian doctor hero who spoke up [#DiedSuddenly](#) [#cdnpoli](#) [#ableg](#) [pic.twitter.com/A7rwnVraZW](#)

— William Makis MD (@MakisMD) [September 6, 2023](#)

Dr. David Speicher, a microbiologist and virologist who personally examined 30 different vaccine vials, discussed in detail the toxicity of the lipid nanoparticles and the spike protein found in the shots. He pointed out early in the rollout, scientists insisted the injections stay localized in the arm, but that quickly became clear that wasn't the case. That was the first warning sign for Speicher.

He said he learned not only did "the lipid nanoparticles spread throughout the body," injecting "high amounts of modified mRNA" into each cell, but the spike proteins "contain high amounts of DNA, up to 187 billion copies per dose." The DNA contains the cancer-causing SV40 enhancer — [a critical detail Pfizer did not disclose to Health Canada](#). SV-40 makes DNA hybrids and moves the fragment into the nucleus, altering genomes.

David Speicher PhD, Molecular Virologist and lead author of study which found billions of residual DNA fragments in the COVID-19 mRNA vaccine vials:
"In our study, we measured DNA copies of spike, ori (origin of replication), and SV40 enhancer genes," he told The Epoch Times....
[pic.twitter.com/9HL5WjAm8Z](#)

— Robin Monotti (@robinmonotti) [November 13, 2023](#)

The American Centers for Disease Control and Prevention (CDC) in March acknowledged COVID-19 was [less dangerous than the flu](#), as did the BC Centre for Disease Control through a Freedom of Information request. The BC institute found in their own analysis the COVID-19 mRNA shots to be 16 times [more dangerous than flu shots](#), said Bridle.

The next failure was inability to "contain this virus," followed by "the way we responded, and treated our children." He said the products developed were "so far from meeting Canada's definition of an ideal vaccine, that it's very difficult to still keep them under that umbrella term a vaccine."

Bridle further noted Canada had a [national pandemic response plan](#) "that was thrown out when the COVID-19 pandemic was declared," in favour of policies put forward by the World Health Organization (WHO).

Must Watch: Dr. Byram Bridle unveils recent discoveries of DNA contamination present in the Pfizer and Moderna COVID-19 vaccines. He suggests that this revelation could serve as compelling evidence to pursue legal action against the manufacturers.

Dr. Byram Bridle joined the... pic.twitter.com/MRon2mnevj

— The Canadian Independent (@canindependent) [October 15, 2023](#)

Shoemaker lamented the losses the nation took by listening to the WHO and rejecting pre-established pandemic national guidelines set out by Canadian experts.

“We had a ‘Made in Canada’ program...15 years (prior to) COVID, outlining what is the correct thing to do if there’s a viral kind of pandemic. And the things that should have been done, weren’t. We rejected our scientifically made in Canada program as to how to legitimately handle a viral pandemic,” he said.

Canada “accepted an unacceptable way of doing it,” as dictated by the WHO: “wait for a vaccine and use a vaccine while the pandemic is going on,” said Shoemaker adding that practice is unheard of.

“You don’t give a vaccine for something when it’s still raging in society, you have to let it go over a year and a half. Vaccination programs only occur when things are quiet,” he said.

“That’s when vaccines are legitimate. That’s when safe vaccines are legitimate.”

COVID-19 mRNA vaccines to-date (Government of Canada)

“There was another dark side to this, which is the influence from the WHO, the Bill and Melinda Gates Foundation, the World Economic Forum and others,” said Trozzi.

“We know that the World Economic Forum is heavily embedded in Canadian governments and institutions. There’s a huge global power grab, because on the basis of a cold, or manmade cold, they suspended human rights.”

Doctors, scientists and nurses [who questioned the mRNA shots](#), for example the ingredients, were punished, while those who were in favour of it [were published and rewarded](#), he said. Trozzi himself had his medical license revoked in January after allegations he was spreading “misinformation” about the jabs.

Trozzi, when asked about the long-term consequences on young people affected by the vaccine and if immune systems can be restored, told the *Western Standard* there are ways for people to detox, but a weakened immune system can lead to a variety of serious health challenges, like microvascular hardening resulting in stroke, [pulmonary embolism](#), [myocarditis](#), kidney failure, diabetes, tissue toxicity and [autoimmune health issues](#).

“We can expect that to be a wave that moves forward, we’re already seeing that rise in all autoimmune conditions. Remember, in Canada, if a doctor recognizes (it’s the injections) that’s causing this, and says that, they lose their licence.”

“So you can get diagnosed with myocarditis, but you can’t get diagnosed with myocarditis due to spike protein. You can get diagnosed with lupus, but you can’t get diagnosed with lupus actually triggered by these injections.”

“Now you can anticipate people being aged prematurely,” he added, explaining whereas diseases like dementia didn’t set in until someone was in their 80s or 90s, “now we can anticipate that at 50 or 60.”

Trozzi did have some good news on how a person can recover from a damaged immune system, which can be reversed through nutrition, exercise, intermittent fasting, detox, supplements, fresh air, rest and vitamin D.

Here comes a tsunami of
Evidence on the Covid BioWeapon injections. pic.twitter.com/UtZ0rLsthF

— Francesco (@Frances89805199) [July 1, 2024](#)

Makis during the An Injection of Truth event announced he had just received word that the definitive medical journal *Lancet* had accepted a peer-reviewed vaccine-injury paper for publication, detailing the “largest autopsy series in the world,” the work of himself, with several Canadian colleagues. Initially submitted in 2023, the work appeared briefly on the *Lancet* website before being removed.

“Within 24 hours there was so much pressure from the pharmaceutical industry that the *Lancet* took it down,” Makis said at the event. But, not before hundreds of thousands of copies had been downloaded.

“We did a rigorous review of these autopsies and found about 74% of the cases of sudden death were caused by or attributed to the vaccine. People who took COVID-19 vaccines and then died suddenly, a few hours, a few days, a few weeks after,” said Makis.

“There is more evidence coming every single day. And it’s not a little bit of evidence. It’s not a case report that they’re going to dismiss. Or a paper that the *Lancet* is going to take down and bury so it never sees the light of day,” said Dr. Makis.

“There’s going to be a tsunami of evidence of the harm of these COVID-19 vaccines,” whether it’s harming children, pregnant women, or adults.”

[This article is from [Western Standard](#).]

Commentary by Dr. William Makis

Excellent work by Jen Hodgson at the Western Standard, giving proper coverage to what was a historic and first-of-its-kind event, examining sudden & unexplained deaths of Alberta Children and COVID-19 mRNA Vaccines on the childhood vaccine schedule.

I was so deflated when I saw the Ministry of Health representatives come out publicly in support of child sex abusers and child sex traffickers who had been arrested by RCMP, claiming that what RCMP reported was “not true”.

That these pedophiles and child molesters should be treated nicely, and that the Ministry of Health stood in solidarity with child sex abusers and against child victims of sexual abuse. NDP could have fatally wounded UCP as a party - if they had done one simple thing - announced they stood with the children.

NDP, protectors of Alberta’s children. At least they could have pretended.

That the Alberta Ministry of Health would publicly defend highly politically connected child sex abusers, is something I thought I would never see in my lifetime. And for the first time, I could no longer see myself raising my children in Alberta, I could no longer see a future for my family in Alberta, and I certainly could not see growing old in Alberta.

Even Communists didn’t defend child rapists.

We are in deep, deep trouble here in Alberta.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. –Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global

coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
