These days, there are far stronger morals, ethics and honorable behavior in the Mexican drug cartels, than in Canada's entire healthcare leadership.

We've just reached 150 Canadian doctor sudden deaths, since COVID-19 vaccines rolled out on Dec.14, 2020.

Canadian Medical Association, which continues to push the toxic Pfizer and Moderna mRNA jabs on its own doctor members, has chosen to mark this milestone with a full page Pfizer ad on the back cover of its April 2023 issue of the Canadian Medical Association Journal, presumably in exchange for a few pieces of silver.

Former Canadian Medical Association President (2018-2019) Dr.Gigi Osler spent the entire pandemic promoting Moderna mRNA vaccines and was rewarded by Justin Trudeau with an appointment to the Canadian Senate on Sep. 26, 2022:

Senator F. Gigi Osler @drgigiosler
#COVID19 vaccine

We believe in #Moderna vaccine for #COVID19
My daughter got it. But did not get magnetized.

I have it on good word that there are >4000 appointments available for Moderna vaccine tomorrow, Thursday May 27, at Lella super-site. 18 years and older

Shockingly, that is Senator Dr.Gigi Osler illegally promoting the Moderna mRNA vaccine using her daughter, while she mocks the COVID-19 vaccine injured in a May 2021 TikTok video captioned "We believe in Moderna - testing magnets on my newly (Moderna)

vaccinated daughter". She "did not get magnetized".

Perhaps not so funny to those who were injured or died from the Moderna mRNA jab.

Senator F. Gigi Osler
@drgigiosler

Very honoured.
Merci beaucoup, thank you, miigwetch.

DR. GIGI OSLER, FORMER HEAD OF THE CANADIAN MEDICAL ASSOCIATION, HAS BEEN APPOINTED TO THE SENATE.

CBC: Trudeau appoints UM assistant professor to Senate

SEPTEMBER 27, 2022 — As [CBC reports](#) on Monday, Sept. 26:

Prime Minister Justin Trudeau has appointed Gigi Osler, assistant professor at the University of Manitoba and former president of the Canadian Medical Association to the Senate.

CMA Leaders who pushed Pfizer & Moderna mRNA vaccines were extremely well compensated:

Current CMA President Dr. Alika Lafontaine, who ignored the sudden deaths of 150 Canadian doctors (who are CMA members), has big hopes and dreams of becoming Prime Minister of Canada one day.

On Sep. 26, 2022 he wrote in regards to Dr. Gigi Osler's promotion: "Hoping to see a CMA President as Prime Minister one day too". He is the current CMA President. Does he hope to replace Justin Trudeau?

Dr. Alika Lafontaine MD @AlikaMD · Sep 26, 2022

A little bit of news...

I am honoured and humbled to be selected by the Prime Minister and appointed by the Governor General to serve in the Senate of Canada.

The Prime Minister was clear that he expects me to make a significant contribution to the work of the Senate, and to help tackle the broad range of challenges and opportunities facing the country. He also underlined the fact that I will be able to contribute to the work of the Senate in an independent and non-partisan fashion, as well as ensure integrity and collaboration in service to Parliament and to all Canadians.

The Senate plays an important role in examining legislation. I look forward to settling into my new position and reviewing the bills that are under consideration by the Senate.

Working in health policy in recent years has given me a glimpse on how to affect change at a time when we must all roll up our sleeves. My contributions to the Senate will provide a health perspective, with all of its determinants, as well as a voice for women and other historically underrepresented groups.

I look forward to serving Manitoba and Canada in this capacity.

Thank you, @DocMCohen, for standing up to #disinformation.

There is no evidence supporting the various theories that have been circulating. We encourage all Canadians to be up to date with all their vaccines to prevent serious health issues. #CDNhealth

Over 5000 RTs on this fake story from an account with <10K followers. Unbelievable.
There is no evidence that these deaths were "sudden", this is simply a raw count of the obituaries on @CMA_Docs's website since Dec 2020.

A big conspiracy theory says the Covid vaccine could have killed 80+ Canadian doctors

I spent months investigating & speaking with the doctor's families. Most died from heart attacks, cancer or suicide

But it won't go away. And those behind it are Canadian doctors themselves

But before he becomes Prime Minister of Canada, CMA President Dr. Alika Lafontaine made sure to cross out my photos of the faces of his dead Canadian doctor colleagues with a big red "X". Not a very classy act for a future PM.

Canadian Senator Dr. Gigi Osler was a bit more subtle – she reposted a hit piece that was done on me by Global News in January 2023, which mocked the sudden deaths of Canadian doctors by claiming that a 25 year old Global News reporter, Ashleigh Stewart, “solved” most of these doctor deaths without a single autopsy report.

Dr. Gigi Osler has no idea that the number of Canadian doctor sudden deaths is now 150/

It amazes me that these Canadian doctor “leaders” sold their souls, their medical ethics and their Hippocratic Oath to “do no harm”, for so little. Was it worth it?

They certainly believe it was.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
