*Ivermectin resources:*

*Recently, I have seen tremendous demand for some sort of initial guidance "WHERE TO START" with High Dose Ivermectin for CANCER.*

I have two articles and a video that go into depth:

[June 10, 2024](#) – NEW PODCAST! "15 minutes with Dr.Makis" – Episode 018: High Dose IVERMECTIN and CANCER

[April 6, 2024](#) – IVERMECTIN and CANCER Part 2 – Treating Turbo Cancer – 7 new studies released in 2024 show Ivermectin works against CANCER – suggested PROTOCOLS for COVID-19 mRNA Vaccine Induced Turbo Cancers

[Oct. 2, 2023](#) – IVERMECTIN and CANCER, it has at least 15 anti-cancer mechanisms of action. Can Ivermectin Treat COVID-19 mRNA Vaccine Induced Turbo Cancers? 9 Ivermectin papers reviewed.

Ivermectin and cancer research:

Top 5 COVID-19 mRNA Vaccine Induced Turbo Cancers are: Lymphoma, Glioblastoma, Breast, Colon, Lung Cancer.

Ivermectin can help with mRNA Induced Turbo Cancer, or regular cancers.

Here are recent studies on IVERMECTIN use in certain types of cancer:

- BLADDER CANCER - ([2024 Fan et al](#)) - Ivermectin Inhibits Bladder Cancer Cell Growth and Induces Oxidative Stress and DNA Damage
- LUNG CANCER - ([2024 Man-Yuan Li et al](#)) - Ivermectin induces nonprotective autophagy by downregulating PAK1 and apoptosis in lung adenocarcinoma cells
- GLIOMA - ([2024 Xing Hu et al](#)) - Ivermectin as a potential therapeutic strategy for glioma
- MULTIPLE MYELOMA - ([2024 Yang Song et al](#)) - Gene signatures to therapeutics: Assessing the potential of ivermectin against t(4;14) multiple myeloma

- PROSTATE CANCER - ([2022 Lu et al](#)) - Integrated analysis reveals FOXA1 and Ku70/Ku80 as targets of ivermectin in prostate cancer
- COLON CANCER - ([2022 Alghamdi et al](#)) - Efficacy of ivermectin against colon cancer induced by dimethylhydrazine in male wistar rats
- PANCREATIC CANCER - ([2022 Lee et al](#)) - Ivermectin and gemcitabine combination treatment induces apoptosis of pancreatic cancer cells *via* mitochondrial dysfunction
- MELANOMA - ([2022 Zhang et al](#)) - Drug repurposing of ivermectin abrogates neutrophil extracellular traps and prevents melanoma metastasis
- CERVICAL CANCER - ([2022 Qabbus et al](#)) - Ivermectin-induced cell death of cervical cancer cells in vitro a consequence of precipitate formation in culture media
- HEPATOCELLULAR CARCINOMA - ([2022 Lu et al](#)) - Ivermectin synergizes sorafenib in hepatocellular carcinoma via targeting multiple oncogenic pathways
- OSTEOSARCOMA - ([2022 Hu et al](#)) - Repurposing Ivermectin to augment chemotherapy's efficacy in osteosarcoma
- GASTRIC CANCER - ([2021 Rabben et al](#)) - Computational drug repositioning and experimental validation of ivermectin in treatment of gastric cancer

## My Take...

IVERMECTIN has proven anti-cancer activity against some 20 cancer types, although these are pre-clinical studies. We will never see clinical studies because Ivermectin is off patent and cheap.

Merck, which used to have a patent on Ivermectin, has partnered with Moderna on mRNA Cancer Vaccines, estimated to cost 400,000 GBP per treatment.

Ivermectin studies on mice include: Breast cancer, Colon cancer, glioblastoma, glioma and leukemia.

I have not seen IVERMECTIN studies on Lymphoma, Testicular Cancer, Sarcomas.

IVERMECTIN acts on Cancer mainly by inhibiting signaling pathways involved in cancer proliferation (Akt, Wnt, mTOR) and by inhibiting CANCER STEM CELLS.

## Ivermectin Access

Ivermectin is so safe, that in much of the civilized world, it is available over the counter, no prescription needed. That's how it should be.

I recently wrote about how a doctor in Saskatchewan was just given a \$44,800 penalty by the College of Physicians and Surgeons for prescribing Ivermectin to a few patients during 2020-2022. These College bureaucrats are engaging in crimes.

The Ontario College of Physicians even had an Investigator go undercover and dress up as a Canadian Trucker to ensnare a young doctor prescribing Ivermectin in Ottawa in 2022 during the Trucker Convoy.

Canadians must realize that the Colleges of Physicians are private corporations, fully bought off by big pharma and run by mafia lawyers like Bryan Salte (the SK lawyer who issued the \$44,800 penalty for prescribing Ivermectin) - see below:

Bryan Salte says the vote to approve the Conscientious Objection Policy was not unanimous. (Victoria Dinh/CBC)

No healthcare bureaucrat or lawyer has the right to deny anyone access to life saving medication. And if they do, they are committing a very serious crime.

I now have a trusted, affordable source, so if you need access to Ivermectin, please email me at [makisw79@yahoo.com](mailto:makisw79@yahoo.com).

## The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*

### Reviews

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon*

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia*

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig*

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac*

*A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom*

*loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin*
