Dec. 22, 2023 – 49 year old Ryan Minor, former OU baseball and basketball star, died after 1 year battle with Colon Cancer.

Ryan Minor was a two-time Big Eight Conference scoring champion. He averaged 16.5 points per game in his four-year college career from 1992-96. Tulsa World File photo

Ryan Minor, a two-sport star who played basketball and baseball for Oklahoma in the early to mid '90s, died Friday, his twin brother Damon announced on social media. **Ryan was 49.**

Minor was diagnosed with Stage IV colon cancer in the fall of 2022. He was placed under hospice care last month after his team of doctors at Johns Hopkins Hospital determined there were no more available treatment options, according to a previous post from Damon.

Dec. 10, 2023 - 29 year old reality TV star Anna Chickadee Cardwell died after 10 month battle with Stage 4 Adrenal Carcinoma.

Mama June's Daughter Anna 'Chickadee' Cardwell Dead at 29

By Tionah Lee

Published: 11:14 AM PST, December 10, 2023

The reality TV star died following a battle with cancer.

Mama June Shannon revealed that her daughter, Anna 'Chickadee' Cardwell, has died. She was 29.

The reality TV star shared the news on Sunday via Instagram.

"With the breaking heart, we are announcing that @annamarie35 is no longer with us. She passed away in my home last night peacefully at 11:12 PM," she wrote.

"She gave one hell of a fight for 10 months she passed away with her family around her like she won't and we will be updating y'all with more information as we get it today. We love y'all and continued prayers and thoughts for our family doing this difficult time #mamajune #prayers #cancersucks #family."

Anna's death comes after she was diagnosed with stage 4 adrenal carcinoma in January.

In the months that followed, Anna kept her followers updated with videos. In November, Anna shared a video of her celebrating her final day of radiation by trying some pickles.

Anna is survived by her mother, siblings and two children, Kaitlyn, 10, and Kylie, 7.

Dec. 5, 2023 - DOCTOR DEAD - Thailand - 29 year old Dr.Kritthai Thanasombatkul was diagnosed with Stage 4 Lung Cancer in Oct. 2022 died on Dec. 5, 2023.

Pongpan Suriyapat is feeling emotional with **Sukontip Fon Nakasem** at **WarinLab**.
5 Dec · Bangkok, Thailand ·

I'm deeply sorry to hear about the passing of Dr. Kritthai from the page **สู้ชีวิต**. He was a dedicated doctor in Chiang Mai who tragically succumbed to lung cancer this morning. Despite his vibrant childhood and athletic pursuits, there were no indications of cancer until he graduated from medical school; his sudden illness highlights the profound impact of severe air pollution, especially PM2.5, in northern Thailand.

As I'm involved in an art exhibition "Polluted Currents" at **WarinLab Contemporary**, his earlier quote on air pollution was also displayed as a part of this exhibition on the second floor of the gallery. We truly appreciate Dr. Kritthai's unwavering commitment to battling cancer until the very end of his life. His story serves as a poignant reminder for us and society to take this issue seriously, making it a national and global concern. He leaves behind a legacy that urges us to raise awareness and address this critical problem.

A DOCTOR WHO DIED OF LUNG CANCER AWAKENS PEOPLE TO FIGHT PM2.5

By Khaosod English - December 6, 2023 9:18 pm

The Faculty of Medicine Chiang Mai University Facebook page posted a message and photos of a merit-making event for Dr. Kritthai Thanasombatkul, who died of lung cancer at the age of 29.

CHIANG MAI - Kritthai Thanasombatkul, a medical doctor who became a best-selling author about maintaining his fighting spirit and the meaning of life despite having had last-stage lung cancer since October 2022 and passing away on December 5, donated his body before he died to the Faculty of Medicine at Chiang Mai University.

On December 6, the Faculty of Medicine Chiang Mai University Facebook page released a message and photos of a merit-making event for Dr. Kritthai, with monks praying and praising his body donation. Dr. Kritthai's father thanked the medical staff and said the family was pleased to contribute the body for further study.

Dec. 4, 2023 – 46 year old Kelly Boeing died suddenly after a few months battle with Stage 2 pancreatic cancer. Dx to death: few months.

Nov. 30, 2023 – NY – 40 year old Sophia Sheffer was diagnosed with Stage 4 Lung cancer in Oct. 2023 & died on Nov. 30, 2023. Dx to death: 1 month.

As some may have heard, my beautiful 40yr old cousin Sophia Sheffer was unexpectedly diagnosed with stage 4 lung cancer in October 2023! We thought she had more time but after a short but VERY courageous fight, she lost her battle with cancer yesterday and joined God in Heaven! I know HE welcomed her with open arms and she has reunited with many of our loved ones!

Please come join us in celebrating her life:
Saturday December 9th 2023
Bartolomeo & Perotto Funeral Home
1411 Vintage Lane Greece, NY 14626
from 2-4pm!

We love her and will miss her tremendously! Please keep her husband Michael Sheffer, her 4 kids, her parents and all of her extended family in your prayers 🙏

Love you Sophia! My 9th angel ❤️💔🙏🕊️
#FKCancer

Sophia Alexis Sheffer was born to Lambert and Geraldine Blake on April 18, 1983 in Rochester, NY. She entered eternal rest on November 30, 2023, after a short but courageous battle with lung cancer.

Sophia graduated from the School of the Arts in Rochester, NY. She was employed at Lifetime Assistance and was also a professional homemaker. Sophia was a selfless, dedicated mother of four children with a beautiful spirit and personality. She loved gardening, decorating her home during the holidays, reading books, and doing creative writing. Another of Sophia's favorite things to do was visit the summer festivals in Rochester and the New York State Fair, enjoying the amazing food choices.

Nov. 18, 2023 – CHILE – 42 year old Luis Larrain, a prominent LGBTQ rights activist, died on Nov. 18, 2023 after a battle with “aggressive” form of Non-Hodgkin’s lymphoma, diagnosed Jan. 2023 “he had not responded to treatment.”

Luis Larraín, the co-founder and former president of Fundación Iguales, a Chilean LGBTQ advocacy group, passed away from Non-Hodgkin's lymphoma on Nov. 18, 2023. (Photo courtesy of Luis Larraín)

Luis Larraín, a prominent LGBTQ rights activist in Chile, died on Saturday after a battle with blood cancer. He was 42.

Larraín, along with writer Pablo Simonetti, in 2013 co-founded Fundación Iguales. Larraín was the group's president until he stepped down in 2017 to run for the Chilean Congress.

Larraín in January announced doctors had diagnosed him with an “aggressive” form of Non-Hodgkin’s lymphoma. His family on Friday released a video in which Larraín said he had not responded to the third treatment he had undergone.

Nov. 18, 2023 – Sheffield, UK – 37 year old Matt Hardy died after a 2 year battle with cancer (Nov. 18, 2023).

Sheff United Way 
@SheffUnitedWay

With the blessing of the family, we'd invite Sheffield United fans to join a minute of applause on the 37th minute against Bournemouth as we come together to remember Matt Hardy.

Matt was 37, he fought cancer incredibly bravely for 2 years

He loved his family and the Blades

Nov. 16, 2023 - 36 year old Freyja Hanstein founded the NHS-approved health app Wholesome World and was diagnosed with a brain tumor in 2015. She died in her sleep on Nov. 16, 2023 after recurrence of her tumor.

Health app founder dies after a brain tumour battle aged 36 - just years after her husband died following rare cancer in his abdomen

Story by Emily Jane Davies · 17h

- Wholesome World founder Freyja Hanstein has died after a brain tumour battle
- She was diagnosed with the tumour one year after her husband died from cancer
- Mrs Hanstein, 36, thought she was clear in 2019 after treatment

Health app founder Freyja Hanstein has died after a brain tumour battle - just a few years after her husband died following a rare [cancer](#) in his abdomen.

Mrs Hanstein, 36, founded the NHS-approved health app Wholesome World after she tragically lost her husband Lars, then aged 28, to cancer one month after they married in 2014.

The following year, she was diagnosed with a brain tumour when she was just 26.

Still dealing with the loss of her soulmate, she was forced to 'put a padlock on her grief' and fight her own health battle - which led to the creation of her 'cancer-fighting' app that would help generations to come.

Wholesome World confirmed their founder died 'peacefully in her sleep' on November 16 after experiencing 'complications' from a recurrence of her tumour.

Nov. 16, 2023 - Curitiba, Brazil, 44 year old journalist Kathya Pricyla Balan died Nov. 16, 2023 after a 4-month battle with Turbo Breast Cancer, Triple Negative, very common cancer after taking Pfizer or Moderna COVID-19 mRNA Vaccine.

After four months, died, at 44, a journalist from Curitiba who fought against cancer and health insurance

Kathya was diagnosed with aggressive breast cancer just over a year ago and had been hospitalized since the beginning of the week

By Guilherme Lara da Rosa in november 16, 2023 at 17:39.

In topic: [Mourning](#)

Died in the early hours of Thursday (16), at the age of 44, the journalist Kathya Pricyla Balan. She had been battling aggressive cancer and had been admitted to a hospital in the capital since the beginning of the week. The death of the communicator occurs about four months after the **Band B** report to **the battle she faced against the disease and the health plan**.

Diagnosed with metastatic triple negative inflammatory breast cancer, **the most aggressive breast tumor**, kathy had to resort to a social media campaign to try to ensure the application of a remedy and treat the disease. The fight, which went beyond the walls of hospitals and reached the hands of the Justice, mobilized hundreds of netizens at the time.

Nov. 12, 2023 - CANADIAN PhD DEAD - 40 year old Dr. Omeed Owen Ghandehari, psychology professor at University of Regina, died suddenly on Nov. 12, 2023. "Donations to Canadian Cancer Society".

Dr. Omeed Ghandehari Obituary

DR OMEED OWEN GHANDEHARI, 40, passed on November 12, 2023 surrounded by love. He cherished his role as father to his two sons Benjamin and Daniel. He will be missed greatly by his wife Pardis Onvani.

He is survived by his mother Tahereh Mojtabapour, father Nasser Ghandehari, sister Yasmin and brother Naveed. Omeed was a well known member of the Kentville community who dedicated his life to the wellbeing of others working as a clinical psychologist for the Nova Scotia Health Authority. The family would like to thank the community and friends for their heartfelt support.

A service will be held on Friday Nov 17 at St James Anglican Church in Kentville, NS between 6-8pm with a sharing of memories at 7pm. In honour of Omeed, donations can be made to the Canadian Cancer Society or Valley Hospice.

Omeed Ghandehari

👤 Doctoral and Post-Doctoral Lab Alumni

✉ ghandeho@uregina.ca

Dr. Omeed Ghandehari came to the health psychology lab after completing his undergraduate degree at Wayne State University in Detroit, Michigan. He completed both his Master's and doctoral theses on topics pertaining to pain in older adults. During his studies he was funded through a variety of sources including the Canadian Institutes of Health Research (CIHR). His work has been published and presented in national and international conferences. Following his training at our lab, he obtained a psychologist position with the Nova Scotia Health Authority (NSHA) where he later served as Director of Training of the NSHA-Annapolis Valley Psychology Residency Program.

Nov. 12, 2023 - Nov.12, 2023 - Cambridge, MH - Jenny Mortensen was diagnosed with leukemia on Oct. 14, 2023 but died less than a month later due to internal bleeding and blood clots which caused strokes.

Donate in memory of Jennifer Mortensen

My name is Jeremy Fischer. I just lost my partner and the love of my life, Jenny Mortensen on November 12th, 2023. We were together for 15 years and had two beautiful daughters together (Shiloh and Avarie ages 6 and 7.)

Jen was diagnosed with leukemia on October 14th of 2023. She fought for her life but died due to internal bleeding and blood clots which caused strokes and extremely low blood pressure while being intubated.

I now have the burden of paying for inevitable extra expenses, and all of my bills to pay alone.

I feel left with no other choice but to reach out to others to ask for help in any way possible. If you are unable to help, please share this with others who may be able to. Anything you can donate would be greatly appreciated. Thank you for your thoughts and prayers during this very hard time.

Jeremy Fischer

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by **Michel Chossudovsky**

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. –Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the

shutdown of the global economy. -David Skripac

A reading of Chossudovsky's book provides a comprehensive lesson in how there is a global coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
