***Biden has been guilty of breaking a U.S. law against providing U.S. weapons to a nation using them against a civilian population as Israel has been doing openly for five months.***

"When the President of the United States becomes aware of the possibility of violations of the **Arms Export Control Act** (AECA), the law mandates specific actions:

Prompt Notification to Congress: **The President is required** to promptly notify Congress about the potential violations."

Not only could U.S. President Biden have stopped Israel from continuously bombing the homes of a civilian population, reducing whole cities to rubble and murdering 32,000 of Israel's captive, entrapped and illegally militarily occupied Palestinians in Gaza, but **Biden was and is legally obligated by U.S. law** to have done so by ending his constant replenishing of the bombs, missiles and shells Israel keeps raining down on the Palestinian population of Gaza that is mostly women and children.

**When a U.S. President is aware of violations of the defensive use restriction on U.S. supplied weapons, U.S. law requires him to report violations of the use of U.S. weapons to Congress.**

**When the President is aware of even the possibility of violations of the AECA, the law requires a report to Congress on the potential violations. [1]**

Biden said he's sure innocent people have been killed, and **he said that's the price of waging a war.**[2]

A war? No! Israel slaughtering entrapped and imprisoned Palestinians cannot be called a war.

**No nation can declare war against its own militarily captive population, because a nation is illegally responsible for the well-being of its militarily occupied populations.**

**"Israel has a right to defend itself, but can't claim it when it comes to the people it oppresses [or] whose land it colonizes,"** UN Special Rapporteur on the Occupied Palestinian Territories **Francesca Albanese** tweeted on April 8.[3]

*Time Magazine*, reported that a **federal court case** filed **against President Joe Biden** and **two U.S. cabinet officials** for allegedly being complicit in Israel's genocide against Gazans moved forward with a hearing on Friday.

The case, which names Biden, Secretary of State Antony Blinken, and Secretary of Defense Lloyd Austin as defendants, was filed by Palestinian human rights groups and individuals with help from the nonprofit Center for Constitutional Rights. Defense for Children International-Palestine v. Biden seeks to stop the U.S. from supporting Israel, which plaintiffs say has cost them the lives of family members, and will be heard in Oakland, Calif.

After government attorneys argued the court has no standing to decide on what they say is **a matter of foreign policy, the federal judge dismissed a lawsuit against Biden** but implored his administration to reconsider its "unflagging support" for Israel's war on Gaza.

The [national security memorandum](#), published on Feb. 8, states that prior to supplying U.S. weapons, a country **must give the U.S. “credible and reliable written assurances”** that it will use any such weapons in accordance with international humanitarian law.

The Biden administration **gave Israel until mid-March** to sign a letter, provided by the U.S. on Tuesday, that gives assurances it will abide by international law while using U.S. weapons and allow humanitarian aid into Gaza, three U.S. and Israeli officials told *Axios*, Feb. 22, 2024.[4]

U.N. Secretary-General Antonio Guterres visited the Rafah crossing on March 23. Receiving him, regional governor Mohamed Shousha said **some 7,000 trucks were waiting** in North Sinai to deliver aid to Gaza, Guterres spoke as follows.

**Many UN and U.S. laws against allowing starvation**

As indicated in the title of this article and short chronology, President Biden will for sure not be prosecuted for the facilitating the deaths by bombing and starvation of many tens of thousands of Israel's captive and illegally militarily occupied Palestinians of Gaza.

No U.S. President was ever legally held to account for the crimes against humanity which he ordered or participated in as part of the very frequently inhumane and massively deadly 'foreign policy' of America. However Biden is already today prosecuted in the minds and hearts of the survivors of the U.S. - Israel Gaza genocide and millions, and in time billions, of good people across the globe who have learned, or will have learned, of the great anguish and cruel suffering of the Palestinians for which Biden is ultimately responsible.

Peoples historians will have added Joe Biden to Noam Chomsky's continually updated list of all the U.S. Presidents after FDR, who would have been "hanged if the Nuremberg laws were applied." [7]

Since the end of the Second World War, U.S.A., American presidents and America have able to get away with so much mass murder, so many invasions, bombings of so many smaller nations., for the powerful and wide reach of U.S. media having put Americans up on a pedestal of having saved the world by defeating Adolph Hitler and his Nazis and thus earning the gratitude of all humanity.

With the present U.S. debacle in Gaza, American exceptionalism and presidential prestige has evaporated and the U.S. media's invented story of America's World War Two grand accomplishment has already taken a hit, and with the rise of media prowess of giant China and now equally giant India, the truth will out.

The president of America's designated revolutionary enemy Venezuela, Nicolas Maduro, has lowered the boom on America's WWII lie and its present evil support of Israel at the same time.

***"Modern Israel enjoys "the same encouragement, the same funding, and the same support" of the collective West like Adolf Hitler's Nazi Germany before the World War II. The Western elites kept quiet because they were preparing Hitler for him to launch his military power against the Soviet Union, ultimately, Hitler was a construct, a monster created by the collective West.***

***The criminal military apparatus of the State of Israel also has the same encouragement, the same funding, and the same support of the West,"*** [Venezuelan President Nicolas Maduro, who urged Jewish people who are still true to their roots to end the ongoing "massacre" of the Palestinians.][8]

Although Western media ignored Maduro's disclosure of what has already been well documented in financial records of America's major corporations, with the growing media power and rising influence of the enormously populated nations of China and India, the truth of the making of the Second World War will out, and will reduce the present stature of America and its chief executives.

There has arisen great hope, in some good part due to today's Instant world-wide communication capability, that a new multi-polar world led by China and India will bring about humanity being released from five centuries of inhumane Western hegemony violently led during most of the present century by the United States of America.
