

Celebrating Seven Years of the Global Research News Hour with Michael Welch

By [Michael Welch](#)

Global Research, October 15, 2019

Theme: [GLOBAL RESEARCH NEWS HOUR](#)

This coming October 22nd will mark 7 years since the Global Research News Hour radio program made its debut not only on the Global Research website but also on the public airwaves as a community radio program.

To date, we have continued to broadcast the show on a weekly basis, inviting expert speakers to highlight many of the important topics that get under-addressed or by-passed completely in other fora. These include probing analysis into 5G technology and its health risks, the very real threat of nuclear war as a danger to human and all life, climate disruption and the environmental movement, ISIS and the White Helmets, US-NATO involvement in the wars on Syria, Iraq and Yemen, the role of foundation-funded non-profits in reinforcing propaganda narratives, 'responsibility to protect' as an imperial construct, and much, much more.

We hope you will join us in celebrating this historic achievement with a generous contribution. Your donations are crucial if we are to expand our ability to reach a larger global audience and to improve on our coverage of the 'big picture' topics we highlight on a regular basis.

Please click on the donate button below, and prepare to send your payment. All donations made over the course of the next 7 days will go directly to the Global Research News Hour. We thank you for your support, whether by listening in and sharing our episodes with your friends and social network, or by supporting our work with a financial contribution (details below).
